TEACHERS

FOR 1888-89.

J. O. LESLIE, A. M., PRINCIPAL.

Latin and History.

CHAUNCEY A. WHEELER, A. B.,

Mathematics and Greek.

H. S. BRODE.

Natural Sciences.

CARRIE E. TUCKER,

Elocution and English Literature.

MARGARET L. McNAIR.

Mathematics and Latin.

MAE McDOUGALL,

Botany and Elocution.

LEA DE LAGNEAU.

French and English.

THOMAS O'MOORE,

Algebra and Book-keeping.

S. ALICE JUDD,

History and German.

GRADUATES.

CLASS OF '78.

	<i>Address.</i>	<i>Remarks.</i>
Bangs, Laura M.,	Minneapolis, Minn.,	Mrs. James Griffith
Bastien, Alice V.,	Ottawa,	Teaching
Formhals, Eda L.,	Ottawa,	Music
*Kennedy, Maria A.,		
Penney, A. Della,	Hutchinson, Kas.,	Book-keeping
Penney, Edith M.,	Ottawa,	At home
Roberts, Lida E.,	Ottawa,	At home
Trabing, Hattie H.,	Chicago, .	Mrs. Sieving

CLASS OF '79.

Childs, Cora L.,	Dayton,	Mrs. Harry Green
Dewey, Corinth,	Ottawa,	Business
Dwyer, Thomas F.,	Ivy, Kansas,	Farming
Eldredge, Lottie E.,	Ottawa,	At home
Graham, Edward J.,	Ottawa,	Business
Hinsdale, Norman D.,	Eldorado, Kansas,	Banking
Hoadley, Marian H.,	Streator,	Teaching
Long, James A.,	Washington, D. C.,	Law
Marriner, Bel D.,	Ottawa,	Business

CLASS OF '80.

*Beem, Fanny C.,		Mrs. Charles Bradford
Boyle, Minnie E.,	Ottawa,	Teaching
Butterfield, Everett H.	Ottawa,	Medicine
Eichelberger, Georgia M.,	Ottawa,	At home
Gondolf, Amelia L.,	Ottawa,	Teaching
McNair, Maggie L.,	Ottawa,	Teaching in High School
Meigs, Annie S.,	Pueblo, Col.,	Teaching
Strawn, Belle C.,	Jacksonville, Fla.,	At home
Wood, Katie E.,	Ottawa,	At home

*Deceased.

CLASS OF '81.

	<i>Address.</i>	<i>Remarks.</i>
Ames, Alice L.,	Ottawa,	Book-keeping
Childs, Winnie V.,	Morris,	At home
Fellows, Maud,	Ottawa,	Teaching
Fry, Medora,	Ottawa,	Mrs. H. Shaw
Fuller, Carrie M.,	Ottawa,	Teaching in High School
Finley, John A.,	Baltimore,	John Hopkins Univ.
Glover, Carrie J.,	Ottawa,	Teaching
Leland, Julia,	Ottawa,	At home
McKeel, Julia R.,	Marseilles,	Mrs. Geo. Brown
Neely, Eva J.,	Wichita, Kansas,	Mrs. Geo. Spencer
Phillips, Alice J.,	Omaha, Neb.,	At home

CLASS OF '82.

Abbott, Guy L.,	Crete, Neb.,	Law
Burke, Lucy X.,	Ottawa,	At home
Byrne, Christopher J.,	Oglesby,	Teaching
*Cooley, Alex. N.,		Law
Degen, Nathan,	Ottawa,	Law
Fiske, Sadie H.,	Ottawa,	At home
Hayden, J. William,	Ottawa,	Business
Hollecker, Hattie H.,	Ottawa,	At home
Mayo, Grace A.,	Ottawa,	Teaching
Meigs, Belle C.,	Ottawa,	Teaching
Okey, Hortense F.,	Columbus, Neb.,	Mrs. C. C. Gray
Pease, Mamie,	Ottawa,	Mrs John A. Sweet
Rathbun, Louise E.,	Streator,	Mrs. C. W. Steiter
Ravens, George H.,	Ottawa,	Business
Smith, Nellie E.,	Galesburg,	In Knox College
Stason, Ed. J.,	New York,	In Columbia Law School
Vernon, Sarah E.,	Fulton, Ill.,	Mrs. Frank Lancaster
Williams, Charles H.,	Streator,	Business
Zimmerman, Louise F.,	La Salle,	Teaching

CLASS OF '83.

Agard, Nellie F.,	Ottawa,	At home
Degen, Sallie R.,	Ottawa,	At home
Finley, Robert J.,	Baltimore,	In John Hopkins Univ.
Finnerty, Katie,	Ottawa,	At home
Miller, Mary,	Ottawa,	Teaching
Sanders, Jennie,	Ottawa,	Teaching
Sanders, Thomas,	Ottawa,	Business
Smith, Frank,	Chicago,	Business

	<i>Address.</i>	<i>Remarks.</i>
Williams, Herbert B.,	Champaign,	In Illinois University

CLASS OF '84.

Bushnell, Susie N.,	Ottawa,	At home
Costello, Frank J.,	Chicago,	Business
Green, James A.,	Dayton,	Business
Hill, Hattie M.,	Ottawa,	Teaching
Jaques, Florence E.,	Ottawa,	At home
McManus, Carrie L.,	Ottawa,	Business
McNair, Elizabeth B.,	Ottawa,	At home
Patchen, May G.,	Ottawa,	Teaching
Penney, George B.,	Ithaca, N. Y.,	In Cornell University
Pickens, Mabel M.,	Ottawa,	At home
Porter, Annie L.,	Ottawa,	At home
Quinn, Della M.,	Campus,	Mrs. James McGinnis
Raymond, Carrie M.,	Ottawa,	At home
Richardson, Emma L.,	Ottawa,	Business
Richey, Mary C.,	Evanston,	In North Western University
Rockwood, Everett C.,	Ann Arbor,	In Michigan University
Sanders, Charles,	Ottawa,	Business
Taylor, Charles P.,	Ann Arbor,	In Michigan University
Trainor, Anna,	Ottawa,	Teaching
Wakefield, Addie,	Ottawa,	At home
Young, John B.,	Elgin,	In school

CLASS OF '85.

Barnes, DeWitt Clinton,	Ottawa,	Farming
Burke, Daniel R.,	Ottawa,	Law
Burke, William Joseph,	Ottawa,	Business
Butters, Albert Edward,	Ottawa,	Business
Chapman, Ozias Sceva,	Chicago,	In Business College
Clark, Jennie Frances,	Oberlin,	In Oberlin College
Day, William Horace,	Amherst, Mass.,	In Amherst College
Dunaway, Horace,	Champaign,	In Illinois University
Dunavan, Jennie Edith,	Syracuse,	Mrs. W. H. Martell
Dyer, Edgar G.,	Ann Arbor, Mich.,	In Michigan University
Eels, Frank Calvin,	Ottawa,	Teaching
Eels, George Maines,	Ottawa,	Business
Griffith, Clara J.,	Ottawa,	At home
Hatheway, Elnathan Maurice,	Lincoln, Neb.,	Business
Hatheway, Fred Adolphus,	Ottawa,	Business
Hatheway, Sadie Vietta,	Ottawa,	Business
Hoffman, John Raymond,	Ottawa,	Medicine
Howland, Howard Newill,	Ottawa,	Law

	<i>Address.</i>	<i>Remarks.</i>
Jaeger, Mary Elizabeth,	Ottawa,	At home
Killelea, Mac J.,		Traveling around the world
Leonard, Julia Anastasia,	Ottawa,	Mrs. Dr. Hobert
Matthias, Herman,	Earlville,	Teaching
Nattinger, Sarah Emma,	E. Las Vegas, N. Mexico,	Mrs. G. A. Aublee
O'Mera, Nellie,	Streator,	Teaching
Padgett, Jennie Eliza,	Ottawa,	Teaching
Parker, Joseph John,	Chicago,	Business
Ravens, Toni,	Milwaukee, Wis.,	Teaching in Milwaukee Sem'y
Roberts, Alice,	Ottawa,	At home
Rhodes, Mary Bunna,	Ottawa,	Teaching
Simon, Cornie E.,	Ottawa,	Teaching
Steere, Julia Estella,	Aurora,	Teaching
Stocksleger, Lizzie S.,	San Jacinto, Cal.,	At home
Strawn, Silas Hardy,	Ottawa,	Law
Trainor, Thomas Henry,	Ottawa,	Medicine
Trimble, Fannie Mason,	Ottawa,	At home

CLASS OF '86.

Agard, Madge Amelia,	Ottawa,	At home
Armstrong, Hart Chapman,	Toledo, O.,	Business
Barton, Harry Schreiber,	Ottawa,	Journalism
Baumgardner, Henry Philip,	Ottawa,	Business
Beach, Frank Lee,	Dayton,	Farming
Bushnell, Sylvia Adeline,		Traveling in Europe
Butters, Albert Edward,	Dayton,	Principal of schools
Cadwell, John Milton,	Deer Park,	Farming
Eldredge, Edgar,	Providence, R. I.,	In Brown University
Greene, Sadie Eliza,	Gardner,	Teaching
Hamilton, Alida,	Ottawa,	At home

Moore, James,	Ottawa,	Business
Patchen, Sophie Agnes,	Ottawa,	At home
Rheil, Myra Agatha,	Ottawa,	At home
Roberts, Susie Belle,	Ottawa,	Teaching
Robson, Mamie Frances,	Ottawa,	At home
Scott, John William,	Ottawa,	Business
Snow, William Crocker,	Cambridge, Mass.,	In Tufts College
Strawn, Julia C.,	Ottawa,	At home

	<i>Address.</i>	<i>Remarks.</i>
Titzell, Frank C.,	Ottawa,	Reading Medicine
Tuberty, Anna,	Ottawa,	Teaching
Waterman, Emma Julia,	Ottawa,	Business
Watts, Flora Belle,	Ottawa,	Teaching
Wilcox, Charles C.,	Ottawa,	Business
Wilson, Charles Francis,	Ottawa,	Business
White, Caddie Doane,	Ottawa,	Business
Young, Thomas James,	Ottawa,	Law

CLASS OF '87.

Agard, Rosalie Isabelle,	Ottawa,	At home
Armour, Annie,	Ottawa,	At home
Barnard, Gertrude,	Ottawa,	At home
Bull, Follett,	Ann Arbor, Mich.,	In Michigan University
Barnett, Dollie A.,	Granville,	At home
Butler, Joseph,	Ottawa,	At home
Camp, Maggie H.,	Ottawa,	At home
Corner, Mary Alice,	Campbell, Minn.,	Mrs. Joseph Hatheway
Doyle, Dorothea B.,	Streator,	Business
Eastabrook, Wilford G.,	Fullerton,	Business
Evans, Arthur F.,	Racine, Wis.,	In college
Frye, Kate J.,	Ottawa,	Teaching
Gedney, Del Gracia,	Ottawa,	At home
Green, Kent.	Dayton.	At home
Hall, Percy W.,		
Hill, Lewis,	Ottawa,	Business
Howard, Carrie	Ottawa,	At home
Jaeger, Joseph B.,	Ottawa,	Business
Lee, Guy A.,	Harding,	At home
Lippert, Edward T.,	Los Angeles, Cal.	
Lunny, John,	Ottawa,	At home
Pickens, Maud,	Ottawa,	At home
Rhoads, Ida R.,	Ottawa,	Teaching
Routcliffe, Julia,	Chicago,	Mrs. Arthur Gillespie
Sapp, Frank F.,	Oberlin, O.,	In college
Shaver, Stella Blanche	Ottawa,	At home
Shaw, Margaret B.,	Ottawa,	At home
Simon, Hattie L.,	Ottawa,	At home
Stahl, Lydia,	Chicago,	At home
Strawn, Del Gracia,	Jacksonville, Fla.,	At home
Vogel, Katie E.,	Ottawa,	Teaching
White, Grace,	Lombard,	Teaching

CLASS OF '88.

CLASSICAL.

Mae Emma Colwell.
George Philo Hills.
Mary Evelyn Hoffman.

Grace Rae Lee.
Ellen Louisa Lovejoy.
Ralph Everett Sapp.

LATIN-SCIENTIFIC.

Susie Holden King.
Mary Elizabeth Read.

Jessie Franc Lillis.

MODERN LANGUAGES.

Harry Price Center.
Nettie Delphine Ellsworth.
Dwight Cameron Meigs.

Bertha Violet Finley.
Mamie Ellen Holmes.

ENGLISH.

Harriet Caroline Formhals.
Mabel Fuller.
Elizabeth Gertrude Hodgeman.
William Brewster Hunt.
May Joseph Kelly.
Rosamond Mary Lane O'Connor.

Harriet Luella Rowe.
Ella Louise Rugg.
Sallie Pamilla Waterman.
Elizabeth Zipporah Wilson.
Ray Knight Zeluff.

Whole number of graduates 210.

ALUMNI ASSOCIATION.

SILAS H. STRAWN.....	President
JENNIE F. SMITH.....	Vice President
FRANK S. SAPP.....	Secretary
CORNIE SIMON.....	Corresponding Secretary
E. C. SWIFT,	}Executive Committee
Dr. E. H. BUTTERFIELD,	
Mrs. B. F. LINCOLN,	

Graduates will please notify the Secretary of the Association of any changes in their address or occupation as early as October of each year, that a correct report may appear in the Annual Catalogue.

PUPILS.

POST GRADUATES.

Hapeman, Mary T.,	Chemistry,	Ottawa
Jessup, Lorena,	German,	Ottawa
Roberts, Alice,	German,	Ottawa
Stahl, Lydia,	Book-keeping,	Ottawa
Strawn, Grace,	German,	Ottawa
Strawn, Julia,	German,	Ottawa
Vogel, Katie,	Book-keeping,	Ottawa
White, Caddie,	German,	Ottawa

UNDER-GRADUATES.

Bathurst, Leonard,	C.	12	Ottawa
Baumgardner, Daisy,	M.	8	Ottawa
Beach, Flora,	E.	23	Dayton
Beaubien, Arthur,	E.	2	Ottawa

NOTE.—The letters in the column headed "Course," shows in which of the four courses of study the pupil is working. "C.," Classical; "L.," Latin Scientific; "M.," Modern Languages; "E.," Business English. As the Classical and Latin Scientific courses are the same for the first two years, and the final choice need not be made until the beginning of the Junior year, all Sophomores or Freshmen in either of these courses are marked "C. or L."

The figures under the heading "Credits," shows the number of full credits taken to the end of the current school year, 1887-8. By a full credit is meant one recitation each day for a term. As each pupil is expected to carry four recitations per day, a Senior should have at least 48 credits opposite his name; a Junior, at least 36; a Sophomore, at least 24; and a Freshman at least 12. A pupil must have 48 credits before he can graduate

GENERAL INFORMATION.

OTTAWA, the county seat of La Salle county, and the seat of the Supreme Court for the Northern Division of Illinois, is eighty two miles west of Chicago, on the C., R. I. & P. and Fox River Branch of the C., B. & Q. railways, and on the Illinois & Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and the canal the city is divided into North, South, East and West Ottawa. The population numbers 11,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sand stone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city has good water power, and mineral springs and artesian wells furnish an abundant supply of excellent water for general use. The healthfulness of the city is shown by a death rate, said to be lower than that of any other place of equal population in the United States; and numerous successful manufactories attest the enterprise of her citizens.

The late William Reddick bequeathed his fine sixty thousand dollar residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a City Library, to be known as "The Reddick Library." This Library, one of the finest in the west, is not only of great value to the whole city, but also, on account of its convenient location, and the kindness of the librarian, especially helpful to the High School. It unites with many other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE OTTAWA TOWNSHIP HIGH SCHOOL was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and the two adjacent townships of North Ottawa and South Ottawa, and is under the management of the Township Board of Trustees. Its first Principal, to whose energy and ability much of the success of the School is due, was Mr. Henry L. Boltwood, who remained till 1883. The growth of the School has been very satisfactory. Starting with only about one hundred pupils, it has grown in nine years to be the largest of the six Township High Schools in Illinois, and one of the largest High Schools of any kind in the State outside of Chicago.

This growth has come not only from the city but also from the surrounding townships and counties.

THE HIGH SCHOOL BUILDING is located in the centre of the city, near the Park. It is supplied with artesian water, is heated and ventilated by the Rutan system, and is well lighted by tripple windows at the side and rear of each room. Three room are fitted up as laboratories, having gas, water, tables and other appliances for practical work in the sciences.

As a valuable aid to the department of Natural Sciences, there is deposited in the building the rich collection of the Ottawa Academy of Sciences, and the large herbarium representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood. These collections occupy a convenient room on the first floor of the building. The school is supplied with chemical and physical apparatus, has a good general reference Library, and a reading room well supplied with current literature.

It is the purpose of the management to give those desiring it a thoroughly useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. To this end teachers are selected, solely with a view to fitness for their especial work, and in general no pains are spared to make the School all that a first-class High School ought to be.

Four regular courses are offered. They are planned for four years and are as follows:

COURSES OF STUDY.

Year.	Term	Classical.	Latin—Scientific.	Modern Language.	Business—English.
I.	1.	Arithmetic. Civil Government. Latin. English.	Arithmetic. Civil Government. Latin. English.	Arithmetic. Civil Government. Botany. English.	Arithmetic. English History. Botany. English.
	2.	Algebra. U. S. History. Latin. English.	Algebra. U. S. History. Latin. English.	Algebra. U. S. History. Botany. English.	Algebra. U. S. History. Botany. English.
	3.	Algebra. English History. Latin. English.	Algebra. English History. Latin. English.	Algebra. English History. Botany. English.	Algebra. Civil Government. Botany. English.
II.	1.	Algebra. Zoology. Caesar. English.	Algebra. Zoology. Caesar. English.	Algebra. Zoology. French. English.	Algebra. Zoology. Grammar. English.
	2.	Algebra. Physiology. Caesar. English.	Algebra. Physiology. Caesar. English.	Algebra. Physiology. French. English.	Algebra. Physiology. Penmanship. English.
	3.	Algebra. Zoology. Caesar. English.	Algebra. Zoology. Caesar. English.	Algebra. Zoology. French. English.	Algebra. Zoology. Word Analysis. English.
III.	1.	Geometry. Greek. Cicero. English.	Geometry. French or German. Cicero. English.	Geometry. Physics. German. English.	Geometry. Physics. Rhetoric. English.
	2.	Geometry. Latin Prose. Greek. English or Book-kpg.	Geometry. Latin Prose. French or German. English or Book-kpg.	Geometry. Physics. German. English or Book-kpg.	Geometry. Physics. Bookkeeping. English.
	3.	Geometry. Cicero. Anabasis. English.	Geometry. Cicero. French or German. English.	Geometry. Physics. German. English.	Geometry. Physics. Lays of Anc't Rome. English.
IV.	1.	General History. Vergil. Anabasis. English.	General History. Vergil. French or German. English.	General History. Chemistry. German. English.	General History. Chemistry. Shakespeare. English.
	2.	General History. Greek Prose. Vergil. English.	General History. French or German. Vergil. English.	General History. Chemistry. German. English.	General History. Chemistry. Review Arithmetic. English.
	3.	General History. Anabasis. Vergil. Political Economy.	General History. French or German. Vergil. Political Economy.	General History. Geology. German. Political Economy.	General History. Geology. Rev. U. S. History & Geography. Political Economy.

COURSE IN ENGLISH.

Composition.	Reading.	Elocution.
Uses of Noun, Infinitive, Claus- es, and Participles.	Longfellow.	Vocal and Physical Gymnas- tics.
Elements of English Composi- tion—Chittenden.	Longfellow.	Rhetorical Exercises and Sc- lections illustrating the at- tributes of voice.
Analysis of Selections read.	Scott. Selections from Byron.	
Essays on topics suggested by reading lessons.	Irving's Sketch Book.	
English Composition continued.	Tennyson.	Principles of Gesture—Bacon' Manual.
Debates.	Bryant, Burns. Emerson.	
Exercises in Composition twice a week.	Classic Essays. Masterpieces of English Litera- ture—Swinton.	
Essays delivered before the school without manuscript.	Whittier. Wendell Phillips. Hawthorne. Goldsmith's Deserted Village. Gray's Elegy. Wordsworth's Intimations of Immortality.	Elocution twice a week.
Orations delivered before the school.	History of English Literature. Shakespeare's Merchant of Venice, Julius Cæsar. Ruskin's Crown of Wild Olive.	Elocution once a week.
Commencement Essays.	Macaulay's Essay on Milton.	

The Classical, Latin Scientific and Modern Language courses fit pupils to enter corresponding courses in any of the leading American Colleges.

From the last six classes about forty of our graduates have continued their studies in higher institutions of learning.

The school is an accredited diploma school for the University of Illinois and the University of Michigan, *i. e.*, graduates of this school can enter those institutions without examination.

The Business English course is especially designed for those who do not intend to pursue their studies beyond the High School, and who wish to fit themselves for business or teaching. This course is therefore made as practical as possible. Book-keeping will be taught by a practical accountant and book-keeper, in the most thorough manner. The book-keeping as also the U. S. History, Penmanship and Physiology, are placed in the winter term for the special benefit of those who come in only for that term. The book-keeping is required only of those in the Business English course, but the work is so arranged that pupils in any of the other courses can take it if they wish to do so.

It is hoped that arrangements can be made to give thorough instruction in vocal music during the ensuing year.

REQUIREMENTS FOR ADMISSION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage (including all applications of Percentage), the whole of descriptive Geography, Elementary U. S. History, English Grammar, Spelling, Reading and Writing.

Pupils graduating from the city ward schools may enter the first year class in the High School on diploma without examination.

A teacher's certificate will admit the holder to the School without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school, in September of each year, beginning at 9 A. M. The examination will be in writing, and pupils will come prepared with paper and pencil.

EXPENSES.

Tuition is at the uniform rate of eight dollars per term in all departments. No extras. Tuition must be paid in advance to the Treasurer, Al. F. Schoch, at the National City Bank, north of the court house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the School. Pupils entering during a term are required to pay only from the time they enter till the end of the term.

Board can be had in private families at about \$2.50 per week where pupils go home for Saturday and Sunday, or at \$3.50 for the entire week.

A list of good boarding places can be seen at the Principal's office.

CALENDAR.

FALL TERM—twelve weeks—begins Monday, September 10, 1888.
 “ “ ends Friday, November 30, 1888.
 WINTER TERM—twelve weeks—begins Monday, December 3, 1888.
 “ “ ends Friday, March 8, 1889.
 SPRING TERM—twelve weeks—begins Monday, March 11, 1889.
 “ “ ends Friday, June 7, 1889.

There will be two weeks vacation at the holidays, and one week at the end of the first month in the spring term.

TEXT BOOKS.

Mathematics.—Arithmetic—Kirk & Belfield.
 Algebra—Olney.
 Geometry—Olney.

Latin.—First Book—Jones.
 Prose Composition—Jones.
 Grammar—Harkness.
 Vergil—Frieze.

GENERAL INFORMATION.

OTTAWA, the county seat of La Salle county, and the seat of the Supreme Court of the Northern Division of Illinois, is eighty-two miles west of Chicago, on the C., R. I. & P., and Fox River Branch of the C., B. & Q. railways, and on the Illinois and Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and the canal the city is divided into North, South, East and West Ottawa. The population numbers 12,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sand-stone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city has good water power, and mineral springs and artesian wells furnish an abundant supply of excellent water for general use. The healthfulness of the city is shown by a death rate said to be lower than that of any other place of equal population in the United States; and numerous successful manufactories attest the enterprise of her citizens.

The late William Reddick bequeathed his fine sixty thousand dollar residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a City Library, to be known as "The Reddick Library." This Library is not only of great value to the whole city, but also, on account of its convenient location, and the kindness of the librarian, especially helpful to the High School. It unites with many other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE OTTAWA TOWNSHIP HIGH SCHOOL was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of North Ottawa and South Ottawa, and is under the management of the Township Board of Trustees. Its first Principal, to whose energy and ability much of the success of the school is due, was Mr. Henry L. Boltwood, who remained till 1883.

THE HIGH SCHOOL BUILDING is located in the center of the city, near the Park. It is supplied with artesian water, is heated and ventilated by the Ruttan system, and is well lighted by tripple windows at the side and rear of each room. Three rooms are fitted up as labratories,

having gas, water, tables and other appliances for practical work in sciences.

As a valuable aid to the department of Natural Sciences, there is deposited in the building the rich collection of the Ottawa Academy of Sciences, and the large herbarium representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood. These collections occupy a convenient room on the first floor of the building. The School is supplied with chemical and physical apparatus, has a good general reference Library and a reading room well supplied with current literature.

It is the purpose of the management to give those desiring it, a thorough, useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. To this end, teachers are selected solely with a fitness for their especial work, and in general no pains are spared to make the School all that a first-class High School ought to be.

Four regular courses are offered. They are planned for four years and are as follows:

COURSES OF STUDY.

Year.	Term	Latin and Classical.	Modern Language.	English.
I.	1.	Latin. English. English History. Botany.	Latin. English. English History. Botany.	Latin or Word Analysis. English. English History. Botany.
	2.	Latin. English. English History. English Grammar.	Latin. English. English History. English Grammar.	Latin or Arithmetic. English. English History. English Grammar.
	3.	Latin. English. Civil Government. Botany.	Latin. English. Civil Government. Botany.	Latin or English Comp. English. Civil Government. Botany.
II.	1.	Latin. Zoology. English—Greek. General History.	German or French. Zoology. English. General History.	Business Arithmetic. Zoology. English. General History.
	2.	Latin. Physiology. English—Greek. General History.	German or French. Physiology. English. General History.	Book-keeping. Physiology. English. General History.
	3.	Latin. Zoology—Greek. Algebra. General History.	German or French. Zoology. Algebra. General History.	Commercial Law. Zoology. Algebra. General History.
III.	1.	Latin. *Physics—Greek. English. Algebra.	German or French. Physics. English. Algebra.	Early English. Physics. English. Algebra.
	2.	Latin. Physics—Greek. English. Algebra.	German or French. Physics. English. Algebra.	Chaucer. Physics. English. Algebra.
	3.	Latin. Physics—Greek. English. Algebra.	German or French. Physics. English. Algebra.	Selections from Classics. Physics. English. Algebra.
IV.	1.	Latin. *Chemistry—Greek. English. Geometry.	German or French. Chem. or Political Ec. English. Geometry.	Political Economy. Chemistry. English. Geometry.
	2.	Latin. Chemistry—Greek. English. Geometry.	German or French. Chem. or Political Ec. English. Geometry.	Polit. Econ. and Civics. Chemistry. English. Geometry.
	3.	Latin or Civics. Ph. Geography or Greek. Hist. English Literature. Geometry or Arithmetic.	Civics. Physical Geography. Hist. English Literature. Geometry or Arithmetic.	Civics. Physical Geography. Hist. English Literature. Geometry or Arithmetic.

*A modern language may be chosen instead of Physics, and Political Economy instead of Chemistry.

COURSE IN ENGLISH.

FRESHMAN YEAR.

<i>Term</i>	<i>Author.</i>	<i>Works Studied.</i>	<i>English Course—Additional.</i>
I.	Irving. Franklin.	Sketch Book. Miscellaneous.	Word Analysis.
II.	Longfellow.	Evangeline and other poems. Hyperion.	English Grammar.
III.	Whittier. Bryant. Lincoln, etc.	Snow Bound and other poems. Favorite Poems. Patriotic Selections.	Chittenden's Composition.

SOPHOMORE YEAR.

I.	Hawthorne.	Tales and Miscellaneous.	
II.	Holmes. Lowell.	Prose and Poems—miscellaneous. Prose and Poems—miscellaneous.	
III.	No English.		

JUNIOR YEAR.

I.	Scott. Dickens.	Ivanhoe. "Tale of Two Cities" or "Christmas Carol."	Early English. Grammar.
II.	Tennyson. Milton.	Poems. Poems.	Chaucer.
III.		Rhetoric.	Reading of Translations from the Classics.

SENIOR YEAR.

I.	Shakespeare.	Two or more Plays.	
II.	Macaulay. Carlyle. Emerson.	Lord Clive. Essays. Essays.	
III.	History of English Literature.		

Composition work is required throughout the Course. Freshmen and Sophomores—Letter Writing, Outlining, Paraphrasing, Amplification, Biographical Sketches. Juniors—Composition work in Description, Narration, and Newspaper Writing; Public Declamations. Seniors—Oral instruction and practical work in Exposition, Argument, and Oration Writing; Public Orations.

REQUIRED AND SUGGESTED READING.

The reading of the following works is suggested, and the reading of *three* from each year's list is *required*. The three works read must be each from a different class—Biography, Fiction, Miscellaneous—and satisfactory evidence that they have been read will entitle the pupil to credit for an additional month's work in English, which credit will be necessary to the completion of the year's credits.

FRESHMAN YEAR: I. Kingsley's "Water Babies" or Ruskin's "King of the Golden River"; II. Butterworth's "Zigzag Journeys in Europe"; III. "Arabian Nights"; IV. "Little Lord Fauntleroy," (Burnett), or Dana's "Two Years before the Mast"; V. "The Boys of '76," (Coffin); VI. "The Childhood of the World," (Clodd); VII. "The Lady of the Lake," (Scott); VIII. "Little Women," (Miss Alcott), or "The story of a Bad Boy," (Aldrich); IX. Autobiography of Benjamin Franklin.

SOPHOMORE YEAR: I. "Views Afoot," (Bayard Taylor); II. "Tom Brown's School-Days," (Hughes); III. Plutarch's Lives of Pericles and Julius Cæsar; IV. "Gulliver's Travels," (Swift), or "Robinson Crusoe," (Defoe); V. "Vicar of Wakefield," (Goldsmith); VI. "Last Days of Pompeii," (Bulwer-Lytton); VII. "Bitter Sweet," (Holland), or "Little Classics," (Tales from Hale, Bret Harte and Poe); VIII. "Stories from Chaucer," (Seymour), or the "Prologue to the Canterbury Tales," (Chaucer); IX. "Birds through an Opera Glass," (Merriam).

JUNIOR YEAR: I. "Frederick the Great," (Macaulay) II. "Vanity Fair" or "The Newcomes," (Thackeray); III. Boswell's Life of Johnson"; IV. Ruskin's "Crown of Wild Olives"; V. Burns' "Cotter's Saturday Night" and "Tam O'Shanter," Coleridge's "Ancient Mariner," Gray's "Elegy in a Country Church Yard"; VI. Lamb's "Tales from Shakespeare"; VII. Whipple's "Essays"; VIII. "Ben Hurr," (Wallace); IX. Bunyan's "Pilgrim's Progress."

SENIOR YEAR: I. "Daniel Webster" (Am. Statesmen Series—Lodge); II. Burke "On American Taxation," Webster's "First Bunker Hill Oration"; III. Thackeray's "English Humorist"; IV. Howells, one novel; V. "The Grandissimes," (Cable); VI. "Culture and Anarchy," (M. Arnold), Bacon's Essays (Truth, Death, Travel, Studies, Discourse); VII. "Forms of Water," (Tyndall); VIII. "Getting on in the World," (Matthews); IX. Homer's "Odyssey," (Bryant's translation).

MUSIC.

In addition to the studies especially mentioned in the preceding tables, systematic instruction in Vocal Music will be given to all members of the school.

REQUIREMENTS FOR ADMISSION AND PROMOTION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage (including all applications of Percentage), the whole of descriptive Geography, Elementary U. S. History, English Grammar, Spelling, Reading and Writing.

Pupils graduating from the city ward schools may enter the first year class in the High School on diploma without examination.

A teacher's certificate will admit the holder to the School without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school, in September of each year, beginning at 9 A. M. The examination will be in writing, and pupils will come prepared with paper and pencil.

Those who enter for study during the winter only will be provided with the work for which they are best prepared.

All students will be expected to carry the work of the course which they select, unless their parents or guardians request that they be excused from some part of the same. No student will be allowed to carry more than four studies, except at the request of parent or guardian, and then only so long as he does the work satisfactorily.

Pupils whose parents desire them to do so may pursue an elective course, but they will not be permitted to take studies for which their previous work has not prepared them.

Pupils will be required to maintain in their daily work an average standing of at least 70 per cent. If they can not do this with the ordinary number of studies they will be required to take fewer studies and do the work better. If, after fair trial, they show that they either *can* not or *will* not make the required average they may be dropped from the school.

To pass in any study pupils must make a final average of at least 70 per cent. in each term's work. This average is found by multiplying the recitation average by two, adding this result and the examination mark, and dividing this sum by three.

When a pupil has passed in a study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing in the study and the number of credits to which he is entitled in the records of the school. These certificates are signed by the teacher of the study, the principal, and stamped with the High School stamp.

To graduate from the school forty-eight credits are required.

The diploma of the school entitles the holder to admission without examination to the Illinois State University, Michigan State University, Knox College and Oberlin College.

EXPENSES.

Tuition is at the uniform rate of ten dollars per term in all departments. No extras. Tuition must be paid in advance to the Treasurer, Al. F. Schoch, at the National City Bank, north of the court house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the School. Pupils entering during a term are required to pay only from the time they enter to the end of the term.

Board can be had in private families at about \$2.50 per week where pupils go home for Saturday and Sunday, or at \$3.50 for the entire week.

A list of good boarding places can be seen at the Principal's office.

TEXT BOOKS.

MATHEMATICS.	Arithmetic—Wentworth. Algebra—Sheldon. Geometry—Wells.
LATIN.	First Book—Collar and Daniels. Prose Composition—Daniels. Grammar—Allen and Greenough. Cæsar—Allen and Greenough. Cicero—Allen and Greenough. Vergil—Frieze.
GREEK.	First Lessons—Keep. Prose Composition—Jones. Grammar—Hadley. Anabasis—Boise.
ENGLISH.	Grammar—Meiklejohn. Authors.
HISTORY.	English—Anderson. General—Sheldon.
CIVICS.	Civil Government—Crawford. Political Economy—Chapin.
FRENCH.	Worman's Series.
GERMAN.	Grammar—Whitney. Worman's First and Second Books. Studien und Plauderien—Stern.
SCIENCE.	Botany— Chemistry—Shephard. Physics—Gage. Physiology—Martin. Zoology— { Colton. { Holder.

CALENDAR.

FALL TERM—twelve weeks—begins.....Monday, September 8th, 1890

“ “ ends.Friday, November 28th, 1890

WINTER TERM—twelve weeks—begins.....Monday, December 1st, 1890

“ “ ends..... ..Friday, March 6th, 1891

SPRING TERM—twelve weeks—begins Monday, March 9th, 1891

“ “ ends.....Friday, June 5th, 1891

There will be two weeks' vacation at the holidays, and one week at the end of the first month in the spring term.

Commencement exercises, Thursday evening, June 4th, 1891.

GENERAL INFORMATION.

OTTAWA, the county seat of La Salle county, and the seat of the Supreme Court of the Northern Division of Illinois, is eighty-two miles west of Chicago, on the C., R. I. & P., and Fox River Branch of the C., B. & Q. railways, and on the Illinois and Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and the canal the city is divided into North, South, East and West Ottawa. The population numbers 12,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sandstone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city has good water power, and mineral springs and artesian wells furnish an abundant supply of excellent water for general use. The electric light and electric street railway add much to the comfort and convenience of the citizens.

The late William Reddick bequeathed his fine sixty thousand dollar residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a City Library, to be known as "The Reddick Library." This Library is not only of great value to the whole city, but also, on account of its convenient location, and the kindness of the librarians, especially helpful to the High School. It unites with other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE OTTAWA TOWNSHIP HIGH SCHOOL was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of North Ottawa and South Ottawa, and is under the management of the Township Board of Trustees. Its first Principal, to whose energy and ability much of the success of the school is due, was Mr. Henry L. Boltwood, who remained till 1883.

THE HIGH SCHOOL BUILDING is located in the center of the city, near the Park. It is supplied with artesian water, is well lighted, warmed and ventilated. Three rooms are fitted up as laboratories, having gas, water, tables and other appliances for practical work in sciences.

As a valuable aid to the department of Natural Sciences, there is deposited in the building the rich collection of the Ottawa Academy of

Sciences, and the large herbarium representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood. These collections occupy a convenient room on the first floor of the building. The School is supplied with chemical and physical apparatus, has a good general reference Library and a reading room well supplied with current literature.

It is the purpose of the management to give those desiring it, a thoroughly useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. To this end, teachers are selected solely with regard to their fitness for their especial work, and in general no pains are spared to make the School all that a first class High School ought to be.

Four regular courses are offered. They are planned for four years and are as follows:

COURSES OF STUDY.

Year.	Term.	Classical.	Latin-Scientific.	Modern Language.	English.
I.	1	Latin. English. History. Botany.	Latin. English. History. Botany.	Lat. or Eng. Gram. English. History. Botany.	English Grammar. English. History. Botany.
	2	Latin. English. History. Arithmetic.	Latin. English. History. Arithmetic.	Lat. or Eng. Comp. English. History. Arithmetic.	Eng. Composition. English. History. Arithmetic.
	3	Latin. English. Hist. or Civ. Gov. Botany.	Latin. English. Hist. or Civ. Gov. Botany.	Lat. or Eng. Comp. English. Hist. or Civ. Gov. Botany.	Eng. Composition. English. Hist. or Civ. Govt. Botany.
II.	1	Latin. Greek. History. Zoology.	Latin. English. History. Zoology.	German or French. English. History. Zoology.	Business Arithm'c. English. History. Zoology.
	2	Latin. Greek. History. Physiology.	Latin. English. History. Physiology.	German or French. English. History. Physiology.	Book-keeping. English. History. Physiology.
	3	Latin. Greek. History. Algebra.	Latin. Zoology. History. Algebra.	German or French. Zoology. History. Algebra.	Commercial Law. Zoology. History. Algebra.
III.	1	Latin. Greek. English. Algebra.	Latin. Physics. English. Algebra.	German or French. Physics. English. Algebra.	Early English. Physics. English. Algebra.
	2	Latin. Greek. English. Algebra.	Latin. Physics. English. Algebra.	German or French. Physics. English. Algebra.	Chaucer. Physics. English. Algebra.
	3	Latin. Greek. English. Algebra.	Latin. Physics. English. Algebra.	German or French. Physics. English. Algebra.	Selec'ns fr'm Clas- Physics. [sics. English. Algebra.
IV.	1	Latin. Greek. English. Geometry.	Latin. Pol. Econ. or Chem. English. Geometry.	German or French. Chemistry. English. Geometry.	Politic'l Economy. Chemistry. English. Geometry.
	2	Latin. Greek. English. Geometry.	Latin. Pol. Econ. or Chem. English. Geometry.	German or French. Chemistry. English. Geometry.	Politic'l Economy. Chemistry. English. Geometry.
	3	Latin. Greek. English. Geometry.	Latin. Phys. Geog. or Civ. English. Geometry.	German or French. Physical Geog. English. Geometry.	Civics. Physical Geog. English. Geometry.

A limited amount of substitution will be permitted, but not so much as to change materially the character of the course pursued.

*COURSES BY SUBJECTS.

Year.	Latin.	Greek.	†German.	†French.	History and Civics.	Science.	Mathematics.	‡Drawing.

*See next page for English.

†In classes in German and French, these languages will be used so far as possible in conversation, that the pupil may become familiar with the spoken language, as well as proficient in reading.

‡Original designs will be required during the first and second years. Especial attention will be given to work in charcoal and crayon.

COURSE IN ENGLISH.

FIRST YEAR.

<i>Term.</i>	<i>Author.</i>	<i>Works Studied.</i>	<i>English Course—Additional.</i>
I.	Irving. Franklin.	Sketch Book. Miscellaneous.	Word Analysis.
II.	Longfellow.	Evangeline and other poems. Hyperion.	English Grammar.
III.	Whittier. Bryant. Lincoln, etc.	Snow Bound and other poems. Favorite Poems. Patriotic Selections.	Chittenden's Composition.

SECOND YEAR.

I.	Hawthorne.	Tales and Miscellaneous.	
II.	Holmes. Lowell.	Prose and Poems—miscellaneous. Prose and Poems—miscellaneous.	
III.	No English.		

THIRD YEAR.

I.	Scott. Dickens.	Ivanhoe. "Tale of Two Cities," or "Christmas Carol."	Early English. Grammar.
II.	Tennyson. Milton.	Poems. Poems.	Chaucer.
III.		Rhetoric.	Reading of Translations from the Classics.

FOURTH YEAR.

I.	Shakespeare.	Two or more Plays.	
II.	Macaulay. Carlyle Emerson.	Lord Clive. Essays. Essays.	
III.	History of English Literature.		

Composition work is required throughout the Course. Freshmen and Sophomores—Letter Writing, Outlining, Paraphrasing, Amplification, Biographical Sketches. Juniors—Composition work in Description, Narration, and Newspaper Writing; Public Declamations. Seniors—Oral instruction and practical work in Exposition, Argument, and Oration Writing; Public Orations.

REQUIRED AND SUGGESTED READING.

The reading of the following works is suggested, and the reading of *three* from each year's list is *required*. The three works read must be each from a different class—Biography, Fiction, Miscellaneous—and satisfactory evidence that they have been read will entitle the pupil to credit for an additional month's work in English, which credit will be necessary to the completion of the year's credits.

FRESHMAN YEAR: I. Kingsley's "Water Babies," or Ruskin's "King of the Golden River"; II. Butterworth's "Zigzag Journeys in Europe"; III. "Arabian Nights"; IV. "Little Lord Fauntleroy" (Burnett), or Dana's "Two Years before the Mast"; V. "The Boys of '76" (Coffin); VI. "The Childhood of the World" (Clodd); VII. "The Lady of the Lake" (Scott); VIII. "Little Women" (Miss Alcott), or "The story of a Bad Boy" (Aldrich); IX. Autobiography of Benjamin Franklin.

SOPHOMORE YEAR: I. "Views Afoot" (Bayard Taylor); II. "Tom Brown's School Days" (Hughes); III. Plutarch's Lives of Pericles and Julius Cæsar; IV. "Gulliver's Travels" (Swift), or "Robinson Crusoe" (Defoe); V. "Vicar of Wakefield" (Goldsmith); VI. Last Days of Pompeii" (Bulwer-Lytton); VII. "Bitter Sweet" (Holland), or "Little Classics" (Tales from Hale, Bret Harte and Poe); VIII. "Stories from Chaucer" (Seymour), or the "Prologue to the Canterbury Tales" (Chaucer); IX. "Birds through an Opera Glass" (Merriam),

JUNIOR YEAR: I. "Frederick the Great" (Macaulay); II. "Vanity Fair," or "The Newcomes" (Thackeray); III. Boswell's Life of Johnson"; IV. Ruskin's "Crown of Wild Olives"; V. Burns' "Cotter's Saturday Night" and "Tam O'Shanter," Coleridge's "Ancient Mariner," Gray's "Elegy in a Country Church Yard"; VI. Lamb's "Tales from Shakespeare"; VII. Whipple's "Essays"; VIII. "Ben Hur" (Wallace); IX. Bunyan's "Pilgrim's Progress."

SENIOR YEAR: I. "Daniel Webster" (Am. Statesmen Series—Lodge); II. Burke "On American Taxation," Webster's "First Bunker Hill Oration"; III. Thackeray's "English Humorists"; IV. Howells, one Novel; V. "The Grandissimes" (Cable); VI. "Culture and Anarchy" (M. Arnold), Bacon's Essays (Truth, Death, Travel, Studies, Discourse); VII. "Forms of Water" (Tyndall); VIII. "Getting on in the World" (Matthews); IX. Homer's "Odyssey" (Bryant's translation).

MUSIC.

In addition to the studies especially mentioned in the preceding tables, systematic instruction in Vocal Music will be given to all members of the school.

REQUIREMENTS FOR ADMISSION AND PROMOTION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage (including all applications of Percentage), the whole of descriptive Geography, U. S. History, English Grammar, Spelling, Reading and Writing.

Pupils having the diploma of the city ward schools may enter the first year class in the High School without examination.

A teacher's certificate will admit the holder to the School without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school, in September of each year, beginning at 9 A. M. The examination will be in writing, and pupils will come prepared with paper and pencil.

Those who enter for study during the winter only will be provided with the work for which they are best prepared.

All students will be expected to carry the work of the course which they select, unless their parents or guardians request that they be excused from some part of the same. No student will be allowed to carry more than four studies, except at the request of parent or guardian, and then only so long as he does the work satisfactorily.

Pupils, whose parents desire them to do so, may pursue an elective course, but they will not be permitted to take studies for which their previous work has not prepared them, and in order to graduate from such a course the work chosen must be a complete equivalent to that for which it is substituted.

Pupils will be required to maintain in their daily work an average standing of at least 70 per cent. If they can not do this with the ordinary number of studies they will be required to take fewer studies and do the work better. If, after fair trial, they show that they either *can* not or *will* not make the required average they may be dropped from the school.

To pass in any study pupils must make a final average of at least 70 per cent. This average is found by multiplying the recitation average by two, adding this result and the examination mark, and dividing this sum by three.

When a pupil has passed in a study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing in the study and the number of credits to which he is entitled in the records of the school. These certificates are signed by the teacher of the study, the principal, and stamped with the High School stamp.

To graduate from the school forty-eight credits are required.

The diploma of the school entitles the holder to admission without

examination to the Illinois State University, University of Michigan, Northwestern University, Lake Forest University, Knox College, Oberlin College, and Rockford Seminary.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Drawing and Music. Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so, much earnest study is required, not only during school hours, but also AT HOME. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further study in higher schools, and for intelligent living, good citizenship and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

EXPENSES.

Tuition is at the uniform rate of ten dollars per term in all departments. No extras. Tuition must be paid in advance to the Treasurer, Al. F. Schoch, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school. Pupils entering during a term are required to pay only from the time they enter to the end of the term.

Board can be had in private families at about \$2.50 per week where pupils go home for Saturday and Sunday, or at \$3.50 for the entire week.

A list of good boarding places can be seen at the Principal's office.

CALENDAR.

FALL TERM—twelve weeks—begins.....Monday, September 7th, 1891

“ “ endsFriday, November 27th, 1891

WINTER TERM—twelve weeks—begins....Monday, November 30th, 1891

“ “ endsFriday, March 4th, 1892

SPRING TERM—twelve weeks—beginsMonday, March 7th, 1892

“ “ endsFriday, June 3d, 1892

It is very important that pupils be present at the beginning of the year and of each term.

There will be two weeks' vacation at the holidays, and one week at the end of the first month in the spring term.

Commencement exercises, Thursday evening, June 2d, 1892.

GENERAL INFORMATION.

OTTAWA.

OTTAWA, the county seat of La Salle county, and the seat of the Supreme Court of the Northern Division of Illinois, is eighty-two miles west of Chicago on the C., R. I. & P. and Fox River Branch of the C., B. & Q. railways, and on the Illinois and Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and canal the city is divided into North, South, East and West Ottawa. The population numbers 13,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sandstone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city has good water power, and mineral spring and artesian wells furnish an abundant supply of excellent water for general use. Electric lights and the electric street railway add much to the comfort and convenience of the citizens.

PUBLIC LIBRARY.

The late William Reddick bequeathed his fine residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a City Library, to be known as "The Reddick Library." This library is not only of great value to the whole city, but also, on account of its convenient location, and the kindness of the librarians, especially helpful to the High School. It unites with other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE HIGH SCHOOL.

THE OTTAWA TOWNSHIP HIGH SCHOOL was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of North Ottawa and South Ottawa, and is under the management of the Township Board of Trustees, of which, since the founding of the School, the following gentlemen have been members: J. C. Hatheway, 1877-1882; J. H. Pickens, 1878-1881; William Galvin, 1879-1882; P. C. Watts, 1881-1890; E. B. Lovejoy, 1882-1885; Duncan McDougall, 1882-1886; Abner Strawn, 1885-1888; W. J. Graham, 1886-1889; G. W. Townsend, 1888-1891, 1894-1897; T. E. MacKinlay, 1889-1895; J. R. Hunt, 1890-1896; Chas. Schaulin, 1891-1894.

The first Principal, to whom much of the success of the School is due, was Mr. Henry L. Boltwood, who remained until 1883.

THE BUILDING.

THE HIGH SCHOOL BUILDING is located in the center of the city, near the Park. It is supplied with artesian water, is well lighted, warmed and ventilated. Three rooms are fitted up as laboratories, having gas, water, tables and other appliances for work in the sciences.

VALUABLE AIDS.

As a valuable aid to the department of Natural Sciences, there are deposited in the building the rich collection of the Ottawa Academy of Sciences, and a large herbarium, representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood. These collections occupy a convenient room on the first floor of the building. The school is supplied with chemical and physical apparatus, and has a general reference library.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. To this end, teachers are selected solely with regard to their fitness for their especial work, and, in general, no pains are spared to make the School all that a good High School ought to be.

DIPLOMAS.

The diploma of the School entitles the holder to admission without examination to the Illinois State University, University of Michigan, Northwestern University, Lake Forest University, Knox College, Oberlin College, Vassar College, Beloit College, Rockford College and Wheaton College.

COURSES OF STUDY.

Four regular courses are offered. They are planned for four years and are as follows:

COURSES OF STUDY.

<i>Year.</i>	<i>Term.</i>	<i>Classical.</i>	<i>Latin.</i>	<i>Modern Language.</i>	<i>English.</i>
I.	1	Latin. English. English History. Botany.	Latin. English. English History. Botany.	Latin. English. English History. Botany.	Phys. Geography. English. English History. Botany.
	2	Latin. English. English History. Physiology.	Latin. English. English History. Physiology.	Latin. English. English History. Physiology.	Phys. Geography. English. English History. Physiology.
	3	Latin. English. Civil Government. Botany.	Latin. English. Civil Government. Botany.	Latin. English. Civil Government. Botany.	Arithmetic. English. Civil Government. Botany.
II.	1	Latin. Greek. History and Lit. Algebra.	Latin. Zoology.* History and Lit. Algebra.	German or French. Zoology.* History and Lit. Algebra.	Book-Keeping. Zoology. History and Lit. Algebra.
	2	Latin. Greek. History and Lit. Algebra.	Latin. Zoology.* History and Lit. Algebra.	German or French. Zoology.* History and Lit. Algebra.	Book-Keeping. Zoology. History and Lit. Algebra.
	3	Latin. Greek. History and Lit. Algebra.	Latin. Geology.* History and Lit. Algebra.	German or French. Geology.* History and Lit. Algebra.	Commercial Law. Geology. History and Lit. Algebra.
III.	1	Latin. Greek. History and Lit. Algebra.	Latin. Chemistry.* History and Lit. Algebra.	German or French. Chemistry.* History and Lit. Algebra.	Stenography.* Chemistry. History and Lit. Algebra.
	2	Latin. Greek. History and Lit. Geometry.	Latin. Chemistry.* History and Lit. Geometry.	German or French. Chemistry.* History and Lit. Geometry.	Stenography.* Chemistry. History and Lit. Geometry.
	3	Latin. Greek. History and Lit. Geometry.	Latin. Chemistry. History and Lit. Geometry.	German or French. Chemistry.* History and Lit. Geometry.	Stenography.* Chemistry. History and Lit. Geometry.
IV.	1	Latin. Greek. Eng. Literature. Geometry.	Latin. Eng. Literature. Rhetoric. Geometry.	German or French. Eng. Literature. Rhetoric. Geometry.	Politic'l Economy. Eng. Literature. Rhetoric. Geometry.
	2	Latin. Greek. Eng. Literature. Physics.	Latin. Eng. Literature. Eng. Gram. & Comp Physics.	German or French. Eng. Literature. Eng. Gram. & Comp Physics.	Politic'l Economy. Eng. Literature. Eng. Gram. & Comp Physics.
	3	Latin. Greek. Eng. Literature. Physics.	Latin. Eng. Literature. U. S. History. Physics.	German or French. Eng. Literature. U. S. History. Physics.	Civics. Eng. Literature. U. S. History. Physics.

*German or French may be taken instead.

COURSES BY SUBJECTS.

ENGLISH AND HISTORY.

A course of four years of English and History is required of all students. The Freshman year is devoted to the study of English History, American Literature and English Composition. During the Sophomore and Junior years General History and Literature are combined, the literature being read when it best illustrates the history, and one term is devoted to formal Rhetoric. The Senior year is given to the study of Shakespeare, the English essayists, and the history of English literature.

OUTLINE OF COURSE.

I. *Freshman Year*—Irving's "Sketch Book"; Longfellow's "Evangeline"; Whittier's "Snow-Bound" and other poems; Hawthorne's "Twice Told Tales"; selected poems and prose extracts from Holmes. English Composition and Rhetoric one hour a week. Montgomery's English History, two terms.

II. *Sophomore Year*—English and History combined. Myers' General History, through ancient history. Reading in class of ancient literature, "Homer's Odyssey" (English translation); Macaulay's "Lays of Ancient Rome"; Shakespeare's *Julius Cæsar*; Meditations of Marcus Aurelius." English Composition and Rhetoric one hour a week.

III. *Junior Year*—Myers' General History, finished. Special study of Milton's "L'Allegro," "Il Penseroso," "Comus," and "Lycidas"; Tennyson's "Idyls of the King"; Scott's "Ivanhoe"; Dickens' "Tale of Two Cities"; Genung's Rhetoric, one term. Public declamations each term.

IV. *Senior Year*—Special study of Shakespeare's "Merchant of Venice," "Twelfth Night," and "Hamlet"; "The Sir Roger de Coverly Papers"; Macaulay's Essays on Milton and Addison; Webster's First Bunker Hill Oration; History of English Literature, lectures and readings from "Catheart's Literary Reader." Public orations each term.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN.—First Year: First Lessons and Cæsar. Second Year: Cæsar and Prose Composition. Third Year: Cicero, Prose Composition and Ovid. Fourth Year: Vergil and review of Roman History.

GREEK.—Second Year: First Lessons and Anabasis. Third Year: Anabasis and Prose Composition. Fourth Year: Homer and review of Greek History.

MODERN LANGUAGES.

The course in Modern Languages require three years' work in German or French, and is as follows:

GERMAN.—Second Year: First Lessons, Grammar, Essay Reading, selections from Unterhaltungs Bibliothek. Third Year: Maerchen (Hauff, Andersen, Grimm), Wilhelm Tell; selections from best authors; Grammar. Fourth Year: Minna von Barnhelm; some novel; Das Lied von der Glocke; Herman and Dorothea; Grammar.

FRENCH.—Second Year: Worman's First French Book; first half of Edgren's Grammar; Whitney's Reader; familiarity with the following topics: Inflection of nouns and adjectives for gender and number, excepting unusual cases; pronominal adjectives; the use of pronouns; the paritive constructions; inflection of the regular and the more common irregular verbs. Third Year: Complete Grammar; read *Siege de Berlin* (Daudet), *Dosia* (H. Greville); translate "Lambs Tales from Shakespeare" into French (composition). Fourth year: Composition; special study of French Idioms; Berlet's *Literature Francaise*; one play each of Corneille, Racine and Moliere.

In classes in German and French these languages will be used as far as possible in conversation, that the pupil may become familiar with the spoken language, as well as proficient in reading.

MATHEMATICS.

First Year: Arithmetic. Second Year: Book-keeping and Algebra. Third Year: Algebra and Geometry. Fourth Year: Reviews.

SCIENCE.

First Year: Botany, Physical Geography and Physiology. Second Year: Zoology. Third Year: Chemistry. Fourth Year: Physics.

CIVICS.

Civil Government of Illinois and the United States, one term Freshman Year. Senior Year, two terms: Political Economy. F. A. Walker's "First Lessons," and note book work and lectures on the tariff, bi-metallism, national banks, civil service reform, and other public questions. Third term of Senior Year: Fiske's "Civil Government in the United States."

DRAWING.

SECOND YEAR.—1st term: Free-hand Drawing; Historic Ornament; Designing in Straight Lines. 2d term: Drawing from Models; Perspective Designing in Curved Lines. 3d term: Modeling in Clay—bas-relief; Mold and Cast making; Original Designing in Clay.

THIRD YEAR.—1st term: Pencil Shading from the flat; Casts and Objects. 2d term: Pen Drawing from the flat; Casts and Objects. 3d term: Studies in Charcoal—Landscapes and Features of the Face.

FOURTH YEAR.—1st term: Work in Crayon from the Cast—high relief; Study of Draperies. 2d term: Still Life Groups in Charcoal and Crayon. Beginning Water Colors. 3d term: Water Colors; Landscapes, Flowers and Fruit from Copy and *Nature*; Still Life; Sepia from the Cast; Sketching from *Nature*.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire High School course. All pupils are required to take the work in music, unless especially excused, and, if so excused, are required to substitute in its place one credit secured in some other study for each year's work in music.

TEACHERS' COURSE.

It is the purpose of the management to especially assist those who expect to teach in the public schools. To this end, if a sufficient number desire it, instruction will be given in the Elements of Mental Science, and the Theory and Practice of Teaching; and reviews of the common branches will be given, with especial reference to intelligent methods of teaching the same. None, however, will be permitted to take this work except those who expect to teach and who are prepared to be benefited by it.

REQUIREMENTS.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage (including all applications of Percentage), the whole of descriptive Geography, U. S. History, English Grammar, Spelling, Reading and Writing.

Pupils having the diploma of the city ward schools may enter the first year class in the High School without examination.

A teacher's certificate will admit the holder to the school without examination.

Examinations for admissions will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at 9 A. M. The examination will be in writing, and pupils should come prepared with paper and pencil.

Those who enter for study during the winter only will be provided with the work for which they are best prepared.

All students will be expected to carry the work of the course which they select, unless their parents or guardians request that they be excused from some part of the same. No student will be allowed to carry more than four studies, except at the request of parent or guardian, and then only so long as he does the work satisfactorily.

Pupils, whose parents desire them to do so, may pursue an elective course, but they will not be permitted to take studies for which their previous work has not prepared them, and in order to graduate from such a course the work chosen must be equivalent to that for which it is substituted.

Pupils will be required to maintain in their daily work an average standing of at least 70 per cent. If they can not do this with the ordinary number of studies they will be required to take fewer studies and do the work better. If, after a fair trial, they show that they either *can* not or *will* not make the required average they may be dropped from the school.

To pass in any study pupils must make a final average of at least 70 per cent. This average is found by multiplying the recitation average by two, adding this result and the examination mark, and dividing this sum by three.

When a pupil has passed a study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing in the study and the number of credits to which he is entitled in the records of the school. To graduate from the school forty-eight credits are required.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Stenography and Type-Writing, Drawing and Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so, much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further study in higher schools, and for intelligent living, good citizenship and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

EXPENSES.

Tuition is at the uniform rate of ten dollars per term in all departments. For less than a whole term the rate is one dollar per week. No extras. Tuition must be paid in advance to the Treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school.

Board can be had in private families at about \$2.50 per week where pupils go home for Saturday and Sunday, or at \$3.50 for the entire week.

A list of boarding places may be seen at the Principal's office.

CALENDAR.

FALL TERM--twelve weeks--begins.....Monday, September 3, 1894

“ “ ends.....Friday, November 23, 1894

WINTER TERM--twelve weeks--begins.....Monday, November 26, 1894

“ “ endsFriday, March 1, 1895

SPRING TERM--twelve weeks--beginsMonday, March 4, 1895

“ “ ends.....Tuesday, June 4, 1895

It is very important that pupils be present at the beginning of the year and of each term.

There will be two weeks' vacation at the holidays, and one week at the end of the first month in the spring term.

Commencement exercises, Tuesday, June 4, 1895.

General Information.

OTTAWA.

Ottawa, the county seat of La Salle county, and the seat of the Appellate Court of the Second District of Illinois, is eighty-two miles west of Chicago, on the C., R. I. & P. and Fox River branch of the C., B. & Q. railways, and on the Illinois and Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox Rivers. By these rivers and the canal the city is divided into North, South, East, and West Ottawa. The population numbers 13,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile, and pottery. The St. Peter's sandstone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city is well lighted by electricity and has an abundant supply of good water.

PUBLIC LIBRARY.

The late William Reddick bequeathed his fine residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a city library, to be known as "Reddick's Library." This library is not only of great value to the whole city, but also, on account of its convenient location and the kindness of the librarians, especially helpful to the High School. It unites with other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE HIGH SCHOOL.

The Ottawa Township High School was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of Ottawa and South Ottawa, and is under the management of the Township Board of Trustees, of which, since the founding of the school, the following gentlemen have been members:

Dr. J. C. Hatheway,	-	-	-	-	-	1877-1882
J. H. Pickens,	-	-	-	-	-	1878-1881

William Galvin,	-	-	-	-	-	1879-1882
P. C. Watts,	-	-	-	-	-	1881-1890
E. B. Lovejoy,	-	-	-	-	-	1882-1885
Duncan McDougall,	-	-			1882-1886,	1895-1901
Abner Strawn,	-	-	-	-	-	1885-1888
W. J. Graham,	-	-	-	-	-	1886-1889
G. W. Townsend,	-	-	-		1888-1891,	1894-1900

J. R. Hunt,	-	-	-	-	-	1890-1899
Charles Schaulin,	-	-	-	-	-	1891-1894

THE BUILDING.

The High School Building is located in the center of the near the park. It is supplied with artesian water, is well lighted, warmed and ventilated. Three rooms are fitted up as laboratories for work in the sciences.

VALUABLE AIDS.

As valuable aids to the department of Natural Science, there are deposited in the building the rich collection of the Ottawa Academy of Sciences, and a large herbarium, representing nearly all the flowering plants of La Salle county, collected and arranged by Boltwood, the first principal of the school. These collections occupy a convenient room on the first floor of the building. The school is well supplied with chemical and physical apparatus, and has a general reference library.

COURSES OF STUDY.

Four regular courses are offered. They are planned for four years, and are as follows:

* American Literature will occupy four hours and English Composition one hour a week in all courses.

+ Botany will occupy the fall and spring terms; Physiology the winter term.

‡ Each one-half year.

§ Rhetoric will occupy the first and Modern History the last eighteen weeks of the year.

+ Elective.

Courses by Subjects.

ENGLISH LITERATURE AND COMPOSITION AND HISTORY.

The work in these branches extends through the four years of the High School course, without interruption. The aim of this work is to give careful training in (1) English Grammar; (2) English Composition and Rhetoric; (3) to develop a taste for good literature by the reading of American and English masterpieces (especially those required by the Eastern and Western Associations of Colleges); (4) to give a general view of the history of English literature; (5) to give a general view of the world's history.

Some American or English masterpieces are read each year, and written essays, themes, analyses, and reproductions, growing out of the literary or historical study, are required throughout the course.

OUTLINE OF WORK FOR 1898-9.

I. FIRST YEAR—(a) Irving's "Sketch Book"; "American Poems" (Houghton & Mifflin); Hawthorne's "Twice Told Tales"; (b) English Composition and Rhetoric (with text book), one hour a week; (c) English Grammar and Word Analysis (English Course).

II. SECOND YEAR—(a) Reading, as basis of composition and supplemental to history, of Pope's "Iliad," Books I, VI, XXII and XXIV; Shakespeare's "Julius Cæsar"; Macaulay's "Lays of Ancient Rome"; (b) Composition, one hour a week; (c) Ancient History (Myers and Allen).

III. THIRD YEAR—(a) English History (Montgomery); (b) reading of Dryden's "Palamon and Arcite"; Scott's "Marmion" and "Ivanhoe"; DeQuincey's "Flight of a Tartar Tribe"; Southey's "Life of Nelson"; Dickens' "Tale of Two Cities"; (c) Composition and Rhetoric, one-third of year.

IV. FOURTH YEAR—Entire year, (a) History of English Literature (Text-book, lectures and reference work); (b) critical reading of Shakespeare's "Macbeth" and "Merchant of Venice"; Tennyson's "The Princess"; DeQuincey's "Flight of a Tartar Tribe"; Burke "On Conciliation"; (c) general reading for composition and to illustrate history of literature, of Chaucer's "Prologue"; Spenser's "Faerie Queene"; Milton's "Paradise Lost," Books I and II; Sir Roger de Coverley Papers; "Vicar of Wakefield"; "Ancient

Mariner''; ''Palamon and Arcite''; Carlyle's ''Essay on Burns''; (d) Three public orations; (e) English course, American History.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN—First Year: First Lessons and Viri Romae. Second Year: Cæsar and Prose Composition. Third Year: Cicero and Prose Composition. Fourth Year: Vergil and Ovid.

GREEK—First Year: First Lessons and Anabasis. Second Year: Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

First Year: Grammar; Reading: Niebuhr's ''Griechische Heröengeschichten''; Heyse's ''L'Arrabbiata''; Seidel's ''Die Monate''; Poems memorized.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: Baumbach's ''Der Schwiegersohn''; Schiller's ''Der Taucher''; Hoffmann's ''Historische Erzählungen''; Lessing's ''Minna von Barnhelm.''

Third Year: Grammar; Prose Composition; Six Poems memorized; Reading: Keller's ''Bilder aus der deutschen Litteratur''; Wildenbruch's ''Harold''; Scheffel's ''Der Trompeter von Säckingen.''

FRENCH.

First Year: Grammar; Sentence Forming; Reading: 1. Whitney's Reader; 2. ''Peppino,'' Ventura.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: 1. ''L'Abbé Constantin,'' Halévy; 2. ''Le Cachet Rouge,'' De Vigny; 3. ''Le Roman d'un Jeune Homme Pauvre,'' Feuillet; 4. ''La Belle Nivernaise,'' Daudet; 5. ''Colomba,'' Mérimée.

Third Year: Grammar; Prose Composition; Essays and Letter Writing; Eight Poems memorized; History of French Literature; Reading: 1. ''Le Cid,'' Corneille; 2. ''L'Avare,'' Molière; 3. ''Athalie,'' Racine; 4. ''Pêcheur d'Islande,'' Pierre Loti; 5. ''Hernani,'' Victor Hugo; 6. ''La Tulipe Noire,'' Dumas.

MATHEMATICS.

First Year: Algebra. Second Year: Algebra, one-half year. Third Year: Plane Geometry. Fourth Year: Solid Geometry; Reviews of Algebra and Arithmetic.

SCIENCE.

Work in science extends throughout the four school years. The time devoted to each branch is as follows: First Year—Botany, first and third terms. Physiology, second term. Second Year—Zoology, three terms. Third Year—Chemistry, three terms. Fourth Year—Physics, three terms: Physical Geography. Both text-book and laboratory methods are employed, and the close inter-relation of the different sciences is made prominent. Laboratory courses in Botany, Zoology, Chemistry and Physics have been established, and three-fifths of the time devoted to these branches is given to laboratory work. In Botany and Zoology, the work is chiefly a study of types of the great groups of plants and animals. Living forms are studied both in the field and in the laboratory. This vicinity is especially rich in the variety of its plant and animal forms, and some practice is given in collecting and preserving such forms and in determining their scientific names. The work in Chemistry is a study of the properties of the different elements and their principal compounds; the separation of the more common elements, and the qualitative analysis of simple, unknown substances. Some of the experiments are quantitative. In Physics three days per week are devoted to work in the laboratory, and two to recitations upon the text-book and the facts observed in laboratory practice.

CIVICS.

Instructions in Civics is given as follows: 1. All courses, Civil Government of Illinois and of the United States, and history of political parties in the United States, one term. 2. English course, Political Economy and Sociology, two terms.

DRAWING.

FIRST YEAR—Clay Modeling, Free-Hand Drawing from models, Designing and Perspective.

SECOND YEAR—Pencil Shading; Charcoal; Crayon, from casts and still life; or Pen Drawing, Lettering, and Designing.

THIRD YEAR—Water Colors, Designing, Still Life, Sketching from Nature, or Mechanical Drawing.

FOURTH YEAR—Mechanical Drawing.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused, and, if so excused, are required to substitute in its place one credit secured in some other study for each year's work in music.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Drawing and Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further study in higher schools, and for intelligent living, good citizenship and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

DIPLOMAS.

The diploma of the school, together with the principal's certificate and recommendation, secure admission, without examination, to the following colleges and universities:

Illinois State University.	University of Michigan.
Northwestern University.	Lake Forest University.
Knox College.	Oberlin College.
Wellesley College.	Vassar College.
Beloit College.	Rockford College.
Wheaton College.	

This school also sustains what is known as the co-operating relation with the University of Chicago.

Requirements.

FOR ADMISSION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage, the whole of descriptive Geography, United States History, English Grammar, Spelling, Reading and Writing.

Pupils having satisfactorily finished the course of study given in the city schools may enter the first year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday following commencement, and on the Saturday next preceeding the opening of school in September of each year, beginning at 9 A. M.

FOR PROMOTION.

Scholarship is estimated in three grades—good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they will be required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work they may be dropped from the school.

To be passed in any study the pupil must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required.

ELECTIVE COURSES.

To meet the individual needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared; nor will pupils be graduated from an elective course unless the studies chosen be fully equivalent in the amount of work required to those for which they are substituted. *It should also be distinctly understood, that in order to enter any of the various college courses, corresponding preparatory courses MUST be followed; and that the irregular courses, sometimes chosen by*

pupils, and approved or allowed by their parents, may not admit to any regular college course.

NUMBER OF STUDIES.

To complete the courses of study outlined above, four daily recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties outside of school, are advised to take more than four years to complete their courses of study.

EXPENSES.

Tuition, in all departments, \$10.00 per term. For less than a whole term, \$1.00 per week. No extras. Tuition must be paid in advance to the Treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school.

Board can be had in private families at about \$3.00 per week, when pupils go home for Saturday and Sunday, or at \$3.50 to \$4.00 for the entire week.

A list of boarding places may be seen at the Principal's office.

Graduates.

General Information.

OTTAWA.

Ottawa, the county seat of La Salle county, and the seat of the Appellate Court of the Second District of Illinois, is eighty-two miles west of Chicago, on the C., R. I. & P. and Fox River branch of the C., B. & Q. railways, and on the Illinois and Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox Rivers. By these rivers and the canal the city is divided into North, South, East, and West Ottawa. The population numbers 13,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile, and pottery. The St. Peter's sandstone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city is well lighted by electricity and has an abundant supply of good water.

PUBLIC LIBRARY.

The late William Reddick bequeathed his fine residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a city library, to be known as "Reddick's Library." This library is not only of great value to the whole city, but also, on account of its convenient location and the kindness of the librarians, especially helpful to the High School. It unites with other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE HIGH SCHOOL.

The Ottawa Township High School was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of Ottawa and South Ottawa, and is under the management of the Township Board of Trustees, of which, since the founding of the school, the following gentlemen have been members:

Dr. J. C. Hatheway,	1877-1882
J. H. Pickens,	1878-1881

Catalogue of Ottawa High School.

William Galvin,	1879-1882
P. C. Watts,	1881-1890

Duncan McDougall,	1882-1886, 1895-1901
Abner Strawn,	1885-1888
W. J. Graham,	1886-1889
G. W. Townsend,	1888-1891, 1894-1900
T. E. MacKinlay,	1889-1895
J. R. Hunt,	1890-1902
Charles Schaulin,	1891-1894

THE BUILDING.

The High School Building is located in the center of the city, near the park. It is supplied with artesian water, is well lighted, warmed and ventilated. Several rooms are fitted up as laboratories for work in the sciences.

VALUABLE AIDS.

As valuable aids to the department of Natural Science, there are deposited in the building the rich collection of the Ottawa Academy of Sciences, and a large herbarium, representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood, the first principal of the school. These collections occupy a convenient room on the first floor of the building. The school is well supplied with chemical and physical apparatus, and has a general reference library.

COURSES OF STUDY.

Four regular courses are offered. They are planned for four years, and are as follows:

COURSES OF STUDY. (See Notes Below.)

CLASSICAL.	LATIN.	MODERN LANGUAGE.	SCIENTIFIC.

*American Literature will occupy four hours and English Composition one hour a week in all courses.

†Botany will occupy the fall and spring terms. Physiology the winter term.

||Each one-half year.

§Rhetoric will occupy the first and Modern History the last eighteen weeks of the year.

†Elective.

Arithmetic may be taken through the first year and Drawing through any year of the course.
See section on "Elective Courses", page 12.

Courses by Subjects.

HISTORY AND ENGLISH.

These subjects are for the most part correlated, and their study continues throughout the four years of the course.

FIRST YEAR—(1) American Literature, reading of various authors, general view of history of American Literature; (2) Composition and Rhetoric, one day a week; entire year for all courses; (3) English Grammar and Composition, elective.

SECOND YEAR—(1) Ancient History (based on Myers and Allen, as text books); (2) reading of Pope's "Iliad," Books I, VI, XXII, XXIV; Macaulay's "Lays of Ancient Rome," and other illustrative literature; (3) Composition and Rhetoric, one day a week, entire year for all courses.

THIRD YEAR—(1) English History (based on Montgomery as text book) with (2) Mediaeval and Modern History incidental (no text book); (3) reading of "Ivanhoe," "Marmion," Macaulay's "Milton," Burke "On Conciliation," and other illustrative literature; (4) Composition and Rhetoric, once a week; (5) public essays and recitations; all courses, entire year.

FOURTH YEAR—(1) History of English Literature, lectures, reference work, recitations (Pancoast's as text book); (2) review of history, incidental; (3) reading of "Palamon and Arcite," "Vicar of Wakefield," "Flight of Tartar Tribe," "The Princess," "Macbeth," "Paradise Lost," Book I and II, Burke "On Conciliation," Macaulay's "Milton and Addison," "Prologue to Canterbury Tales," two cantos of "Faerie Queene," and other masterpieces; (4) Composition and Rhetoric, once a week; (5) public essays and orations; all courses entire year; (6) American History, class room and reference work (based on Montgomery's Student's History); entire year—elective.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN—First Year: First Lessons and Viri Romae. Second Year: Caesar and Prose Composition. Third Year: Cicero and Prose Composition. Fourth Year: Vergil and Ovid.

GREEK—First Year: First Lessons and Anabasis. Second Year: Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

Catalogue of Ottawa High School. 9

GERMAN.

First Year: Grammar; Reading: Niebuhr's "Griechische Heroengeschichten"; Seidel's "Die Monate"; Poems memorized.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: Zschokke's "Der zerbrochene Krug"; Schiller's "Der Taucher"; Schiller's "Der Neffe als Onkel"; Hoffmann's "Historische Erzählungen."

Third Year: Grammar; Prose Composition; Six Poems memorized; Reading Keller's "Bilder aus der deutschen Litteratur"; Freytag's "Die Journalisten"; Goethe's "Hermann und Dorothea."

FRENCH.

First Year: Grammar; Sentence Forming; Reading: 1. Whitney's Reader; 2. "Peppino," Ventura.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: 1. "L'Abbé Constantin," Halévy; 2. "Le Cachet Rouge," DeVigny; 3. "La Belle Nivernaise," Daudet; 4. "Colomba," Mérimée.

Third Year: Grammar; Prose Composition; Essays and Letter Writing; Eight Poems memorized; History of French Literature; Reading: 1. "Le Cid," Corneille; 2. "L'Avare," Molière; 3. "Athalie," Racine; 4. "Pêcheur d'Islande," Pierre Loti; 5. "Les Pauvres Gens," Victor Hugo; 6. "Hernani," Victor Hugo.

MATHEMATICS.

First Year: Algebra. Second Year: Algebra, one-half year. Third Year: Plane Geometry. Fourth Year: Solid Geometry; Reviews of Algebra and Arithmetic.

SCIENCE.

Work in science extends throughout the four school years. The time devoted to each branch is as follows: First year—Botany, first and third terms. Physiology, second term. Second Year—Zoology, three terms. Third Year—Chemistry, three terms. Fourth Year—Physics, three terms; Physical Geography. Both text-book and laboratory methods are employed, and the close inter-relation of the different sciences is made prominent. Laboratory courses in Botany, Zoology, Chemistry and Physics have been established, and three-fifths of the time devoted to these branches is given to laboratory work. In Botany and Zoology, the work is chiefly a study of types of the great groups of plants and animals. Living forms are studied both in the field and in the laboratory. This vicinity is especially rich in the variety of its plant and animal forms, and some practice is given in collecting and preserving such forms and deter-

mining their scientific names. The work in Chemistry is a study of the properties of the different elements and their principal compounds; the separation of the more common elements, and the qualitative analysis of simple, unknown substances. Some of the experiments are quantitative. In Physics three days per week are devoted to work in the laboratory, and two to recitations upon the text-book and the facts observed in laboratory practice.

CIVICS.

Instruction in Civics is given as follows: 1. All courses, Civil Government of Illinois and of the United States, and history of political parties in the United States, one term. 2. English course, Political Economy and Sociology, two terms.

DRAWING.

First Year—Clay Modeling, Free-Hand Drawing from models, Designing and Perspective.

Second Year—Pencil Shading; Charcoal; Crayon, from casts and still life; or Pen Drawing, Lettering, and Designing.

Third Year—Water Colors, Designing, Still Life, Sketching from Nature, or Mechanical Drawing.

Fourth Year—Mechanical Drawing.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Bookkeeping, Drawing and Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so, much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything

else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further work in higher schools, and for intelligent living, good citizenship, and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

DIPLOMAS.

The diploma of the school, together with the principal's certificate and recommendation, secure admission, without examination, to the following colleges and universities:

Illinois State University.

Lake Forest University.

Knox College.

Wellesley College.

Beloit College.

Wheaton College.

University of Michigan.

Northwestern University.

Oberlin College.

Vassar College.

Rockford College.

Cornell University.

This school also sustains what is known as the co-operating relation with the University of Chicago.

Requirements.

FOR ADMISSION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage, the whole of descriptive Geography, United States History, English Grammar, Spelling, Reading and Writing.

Pupils who have satisfactorily finished the course of study given in the city schools may enter the first year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday following commencement, and on the Saturday next preceding the opening of school in September of each year, beginning at 9:00 o'clock a. m.

FOR PROMOTION.

Scholarship is estimated in three grades—good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they will be required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work, they may be dropped from the school.

To be passed in any study the pupil must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required.

ELECTIVE COURSES.

To meet the individual needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared; nor will pupils be graduated from an elective course unless the studies chosen be fully equivalent in the amount of work required to those for which they are substituted. *It should be distinctly understood that in order to enter any of the*

various college courses, corresponding preparatory courses MUST be followed; and that the irregular courses, sometimes chosen by pupils, and approved by their parents, may not admit to any regular college course.

NUMBER OF STUDIES.

To complete the courses of studies outlined above, four daily recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work, and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties outside of school, are advised to take more than four years to complete their courses of study.

EXPENSES.

Tuition in all departments, \$10.00 per term. For less than a whole term, \$1.00 per week. No extras. Tuition must be paid in advance to the treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal, the pupil will be admitted to his proper place in the school.

Board can be had in private families at about \$3.00 per week, when pupils go home for Saturday and Sunday, or at \$3.50 to 4.00 for the entire week.

A list of boarding places may be seen at the Principal's office.

Graduates.

CLASS OF '78.

	ADDRESS.	REMARKS.
Bangs, Laura M.,	Minneapolis, Minn.,	Mrs. J. B. Griffith
Bastien, Alice V.,	Chicago,	Mrs. Frank Marshall

General Information.

OTTAWA.

Ottawa, the county seat of La Salle county, and the seat of the Appellate Court of the Second District of Illinois, is eighty-two miles west of Chicago, on the C., R. I. & P. and Fox River branch of the C., B. & Q. railways, and on the Illinois & Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and the canal the city is divided into North, South, East and West Ottawa. The population numbers 13,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sandstone affords a fine quality and inexhaustible quantities of sand for the extensive glass works located here. The city is well lighted by electricity and has an abundant supply of good water.

PUBLIC LIBRARY.

The late William Reddick bequeathed his fine residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a city library, to be known as "Reddick's Library." This library is not only of great value to the whole city, but also, on account of its convenient location and the kindness of the librarians, especially helpful to the High School. It unites with other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE HIGH SCHOOL.

The Ottawa Township High School was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of Ottawa and South Ottawa, and is under the management of the Township Board of Trustees, of which, since the founding of the school, the following gentlemen have been members:

Dr. J. C. Hatheway,	-	-	-	-	-	-	1877-1882
J. H. Pickens, -	-	-	-	-	-	-	1878-1881

William Galvin,	-	-	-	-	-	-	-	1879-1882
P. C. Watts,	-	-	-	-	-	-	-	1881-1890
E. B. Lovejoy,	-	-	-	-	-	-	-	1882-1885
Duncan McDougall,	-	-	-	-	-	-	-	1882-1886, 1895-1901
Abner Strawn,	-	-	-	-	-	-	-	1885-1888
W. J. Graham,	-	-	-	-	-	-	-	1886-1889
G. W. Townsend,	-	-	-	-	-	-	-	1888-1891, 1894-1903
T. E. MacKinlay,	-	-	-	-	-	-	-	1889-1895
J. R. Hunt,	-	-	-	-	-	-	-	1890-1902
Charles Schaulin,	-	-	-	-	-	-	-	1891-1894

THE BUILDING.

The High School Building is located in the center of the city, near the park. It is supplied with artesian water, and is well lighted, warmed and ventilated. Several rooms are fitted up as laboratories for work in the sciences.

VALUABLE AIDS.

As valuable aids to the department of Natural Science, there are deposited in the building the rich collection of the Ottawa Academy of Sciences, and a large herbarium, representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood, the first principal of the school. These collections occupy a convenient room on the first floor of the building. The school is well supplied with chemical and physical apparatus, and has a general reference library.

COURSES OF STUDY.

Four regular courses are offered. They are planned for four years, and are as follows:

COURSES OF STUDY.

(See Notes Below.)

CLASSICAL.	LATIN.	MODERN LANGUAGE.	SCIENTIFIC.
Algebra. Latin. *Am. Literature; Eng. Comp. +Botany. +Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra. English Grammar. Am. Literature; Eng. Comp. Botany. Physiology.
Algebra Ancient History. Civil Government. Latin. Greek.	Algebra. Ancient History. Civil Government. Latin. German or French.	Algebra. Ancient History. Civil Government. German. French.	Algebra. Ancient History. Civil Government. Book-Keeping; Commerce ¹ Law. Zoology.
Plane Geometry. § Rhetoric. § Modern History. Latin. Greek.	Plane Geometry. Rhetoric. Modern History. Latin. German or French.	Plane Geometry. Rhetoric. Modern History. German. French.	Plane Geometry. Rhetoric. Modern History. Pol. Economy; Civil Governm ^t . Chemistry, or French, or Ger- man.
English Literature. Physics. Latin. Greek. +Solid Geometry; Rev. Algebra.	English Literature. Physics. Latin. German or French. Solid Geometry; Rev. Algebra.	English Literature. Physics. German French. Solid Geometry; Rev. Algebra.	English Literature. Physics. Phys. Geography, or French, or U. S. History. [German. Solid Geometry; Rev. Algebra.

*American Literature will occupy four hours and English Composition one hour a week in all courses.

+Botany will occupy the fall and spring terms. Physiology the winter term.

|| Each one-half year.

§ Rhetoric will occupy the first and Modern History the last eighteen weeks of the year.

+ Elective.

Arithmetic may be taken through the first year and Drawing through any year of the course.
See section on "Elective Courses," page 12.

Courses by Subjects.

HISTORY AND ENGLISH.

These subjects are for the most part correlated, and their study continues throughout the four years of the course.

FIRST YEAR—(1) American Literature, reading of various authors, general view of history of American Literature; (2) Composition and Rhetoric, one day a week; entire year for all courses; (3) English Grammar and Composition, elective.

SECOND YEAR—(1) Ancient History (based on Myers and Allen, as text-book); (2) reading of Pope's "Iliad," Books I, VI, XXII, XXIV; Macaulay's "Lays of Ancient Rome," and other illustrative literature; (3) Composition and Rhetoric, one day a week; entire year for all courses.

THIRD YEAR—(1) English History (based on Montgomery as text-book), with (2) Mediæval and Modern History incidental (no text-book); (3) reading of "Ivanhoe," "Marmion," Macaulay's "Milton," Burke "On Conciliation," and other illustrative literature; (4) Composition and Rhetoric, once a week; (5) public essays and recitations; all courses, entire year.

FOURTH YEAR—(1) History of English Literature, lectures, reference work, recitations (Pancoast as text-book); (2) review of history, incidental; (3) reading of "Silas Marner," "Vicar of Wakefield," "De Coverly Papers," "The Princess," "Macbeth," "Merchant of Venice," "Paradise Lost," Book I and II, Burke "On Conciliation," Macaulay's "Milton and Addison," "Prologue to Canterbury Tales," two cantos of "Faerie Queene," Milton's Lyrics, and other masterpieces; (4) Composition and Rhetoric, one term; (5) public essays and orations; all courses, entire year; (6) American History, class-room and reference work (based on Montgomery's Students' History); entire year, elective.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN—First Year: First Lessons and Viri Romæ. Second Year: Cæsar and Prose Composition. Third Year: Cicero and Prose Composition. Fourth Year: Virgil and Ovid.

Ottawa (Ill.) township high school.
Catalogue.

1899/00

GREEK—First Year: First Lessons and Anabasis. Second Year: Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

First Year: Grammar; Reading; Niebuhr's "Griechische Heroengeschichten"; Seeligmann's "Altes und Neues"; Poems memorized.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: Zschokke's "Der zerbrochene Krug"; Schiller's "Der Geisterseher"; Schiller's "Der Neffe als Onkel"; Schiller's "Wilhelm Tell."

Third Year: Grammar; Prose Composition; Six Poems memorized; Reading: Keller's "Bilder aus der deutschen Litteratur"; Freytag's "Die Journalisten"; Goethe's "Hermann und Dorothea."

FRENCH.

First Year: Grammar; Sentence Forming; Reading: 1. Whitney's Reader.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: 1. "L'Abbé Constantin," Halévy; 2. "Le Cachet Rouge," DeVigny; 3. "La Belle Nivernaise," Daudet; 4. "Colomba," Mérimée.

Third Year: Grammar; Prose Composition; Essays and Letter Writing; Eight Poems memorized; History of French Literature; Reading: 1. "Le Cid," Corneille; 2. "L'Avare," Molière; 3. "Athalie," Racine; 4. "Pêcheur d'Islande," Pierre Loti; 5. "Les Pauvres Gens," Victor Hugo; 6. "Hernani," Victor Hugo.

MATHEMATICS.

First Year: Algebra or Arithmetic. Second Year: Algebra, one-half year. Third Year: Plane Geometry. Fourth Year: Solid Geometry: Reviews of Algebra and Arithmetic.

SCIENCE.

Work in Science extends throughout the four school years. The time devoted to each branch is as follows: First Year—Botany, first and third terms. Physiology, second term. Second Year—Zoology, three terms. Third Year—Chemistry, three terms. Fourth Year—Physics, three terms; Physical Geography. Both text-book and laboratory methods are employed, and the close inter-relation of the different sciences is made prominent. Laboratory courses in Botany, Zoology, Chemistry and Physics have been established,

and three-fifths of the time devoted to these branches is given to laboratory work. In Botany and Zoology the work is chiefly a study of types of the great groups of plants and animals. Living forms are studied both in the field and in the laboratory. This vicinity is especially rich in the variety of its plant and animal forms, and some practice is given in collecting and preserving such forms and determining their scientific names. The work in Chemistry is a study of the properties of the different elements and their principal compound; the separation of the more common elements, and the qualitative analysis of simple, unknown substances. Some of the experiments are quantitative. In Physics three days per week are devoted to work in the laboratory, and two to recitations upon the text-book and the facts observed in laboratory practice.

CIVICS.

Instruction in Civics is given as follows: 1. All courses, Civil Government of Illinois and of the United States, and history of political parties in the United States, one term. 2. English course, Political Economy and Sociology, two terms. 3. Parliamentary Law, one term.

DRAWING.

First Year—Clay Modeling, Free-Hand Drawing from Models, Designing and Perspective.

Second Year—Pencil Shading; Charcoal; Crayon, from casts and still life; or Pen Drawing, Lettering and Designing.

Third Year—Water Colors, Designing, Still Life, Sketching from Nature, or Mechanical Drawing.

Fourth Year—Mechanical Drawing.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Drawing and Music.

Pupils are allowed to pursue the course which they prefer,

and are expected to faithfully meet its requirements. To do so much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further work in higher schools, and for intelligent living, good citizenship, and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

DIPLOMAS.

The diploma of the school, together with the principal's certificate and recommendation, secure admission, without examination, to the following colleges and universities:

Illinois State University.	Northwestern University.
Lake Forest University.	Oberlin College.
Knox College.	Vassar College.
Wellesley College.	Rockford College.
Beloit College.	Cornell University.
Wheaton College.	University of Chicago.
University of Michigan.	

Requirements.

FOR ADMISSION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage, the whole of descriptive Geography, United States History, English Grammar, Spelling, Reading and Writing.

Pupils who have satisfactorily finished the course of study given in the city schools may enter the first-year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at 9 o'clock A. M.

FOR PROMOTION.

Scholarship is estimated in three grades—good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they will be required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work, they may be dropped from the school.

To be passed in any study the pupil must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required.

ELECTIVE COURSES.

To meet the individual needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared; nor will pupils be graduated from an elective course unless the studies chosen be fully equivalent in the amount of work required to those for which they are substituted. *It should be distinctly understood that, in order to enter any of the various college courses, corresponding preparatory courses MUST be followed; and that the irregular courses, sometimes chosen by pupils and approved by their parents, may not admit to any regular college course.*

NUMBER OF STUDIES.

To complete the courses of studies outlined above four daily recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work, and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties outside of school, are advised to take more than four years to complete their courses of study.

EXPENSES.

Tuition, in all departments, \$10.00 per term. For less than a whole term, \$1.00 per week. No extras. Tuition must be paid in advance to the Treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school.

Board can be had in private families at about \$3.00 per week, when pupils go home for Saturday and Sunday, or at \$3.50 to \$4.00 for the entire week.

A list of boarding places may be seen at the Principal's office.

Graduates.

CLASS OF '78.

	<i>Address.</i>	<i>Remarks.</i>
Bangs, Laura M.,	Minneapolis, Minn.,	Mrs. J. B. Griffith
Bastien, Alice V.,	Chicago,	Mrs. Frank Marshall
Formhals, Eda L.,	Ottawa,	Music

General Information.

OTTAWA.

Ottawa, the county seat of La Salle county, and the seat of the Appellate Court of the Second District of Illinois, is eighty-two miles west of Chicago, on the C., R. I. & P. and Fox River branch of the C., B. & Q. railways, and on the Illinois & Michigan canal. It is situated on the level land between the high bluffs, at the junction of the Illinois and Fox rivers. By these rivers and the canal the city is divided into North, South, East and West Ottawa. The population numbers about 13,000.

Favored by nature with beautiful scenery, and rich in geological resources, Ottawa is a place of more than ordinary interest. It lies on the edge of the great Illinois coal field, and has an abundance of cheap fuel; its clays are varied and valuable, and furnish material for different kinds of brick, tile and pottery. The St. Peter's sandstone affords a fine quality and inexhaustable quantities of sand for the extensive glass works located here. The city is well lighted by electricity and has an abundant supply of good water.

PUBLIC LIBRARY.

The late William Reddick bequeathed his fine residence, situated opposite the High School building, and other property estimated at one hundred and fifty thousand dollars, to found a city library, to be known as "Reddick's Library." This library is not only of great value to the whole city, but, also, on account of its convenient location and the kindness of the librarians, especially helpful to the High School. It unites with other advantages in making Ottawa a desirable place of residence, especially to those who wish to educate their children.

THE HIGH SCHOOL.

The Ottawa Township High School was organized under the "Township System" on the 13th of April, 1878. It is supported by the city and two adjacent townships of Ottawa and South Ottawa, and is under the management of the Township Board of Trustees, of which, since the founding of the school, the following gentlemen have been members:

Dr. J. C. Hatheway,	1877-1882
J. H. Pickens,	1878-1881

William Galvin,	1879-1882
P. C. Watts,	1881-1890
E. B. Lovejoy,	1882-1885
Duncan McDougall,	1882-1886, 1895-1904
Abner Strawn,	1885-1888
W. J. Graham,	1886-1889
G. W. Townsend,	1888-1891, 1894-1903
T. E. MacKinlay,	1889-1895
J. R. Hunt,	1890-1902
Charles Schaulin,	1891-1894

THE BUILDING.

The High School building is located in the center of the city, near the park. It is supplied with artesian water, and is well lighted, warmed and ventilated. Several rooms are fitted up as laboratories for work in the sciences.

VALUABLE AIDS.

As valuable aids to the department of Natural Science, there are deposited in the building the rich collection of the Ottawa Academy of Sciences, and a large herbarium, representing nearly all the flowering plants of La Salle county, collected and arranged by Mr. Boltwood, the first principal of the school. The school is well supplied with chemical, physical, and biological apparatus, and has a good general reference library.

COURSES OF STUDY.

Four regular courses are offered. They are planned for four years, and are as follows:

COURSES OF STUDY.

(See Notes Below.)

CLASSICAL.	LATIN.	MODERN LANGUAGE.	SCIENTIFIC.
Algebra. Latin. *Am. Literature; Eng. Comp. +Botany. +Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra. English Grammar. Am. Literature; Eng. Comp. Botany. Physiology.
Algebra. Ancient History. Civil Government. Latin. Greek.	Algebra. Ancient History. Civil Government. Latin. German or French.	Algebra. Ancient History. Civil Government. German. French.	Algebra. Ancient History. Civil Government. Book-Keeping; Commerce & Law. Zoology.
Plane Geometry. §Rhetoric. §Modern History. Latin. Greek.	Plane Geometry. Rhetoric. Modern History. Latin. German or French.	Plane Geometry. Rhetoric. Modern History. German. French.	Plane Geometry. Rhetoric. Modern History. Pol. Economy; Civil Government. Chemistry, or French, or German.
English Literature. Physics. Latin. Greek. +Solid Geometry; Rev. Algebra.	English Literature. Physics. Latin. German or French. Solid Geometry; Rev. Algebra.	English Literature. Physics. German. French. Solid Geometry; Rev. Algebra.	English Literature. Physics. Phys. Geography, or French, or U. S. History. [German. Solid Geometry; Rev. Algebra.

*American Literature will occupy four hours and English Composition one hour a week in all courses.

+Botany will occupy the fall and spring terms. Physiology the winter term.

||Each one-half year.

§Rhetoric will occupy the first and Modern History the last eighteen weeks of the year.

+Elective.

Arithmetic may be taken through the first year and Drawing through any year of the course.

See section on "Elective Courses," page 12.

Courses by Subjects.

HISTORY AND ENGLISH.

These subjects are for the most part correlated, and their study continues throughout the four years of the course.

FIRST YEAR—(1) American Literature, reading of various authors, general view of history of American Literature; (2) Composition and Rhetoric, one day a week; entire year for all courses: (3) English Grammar and Composition, elective.

SECOND YEAR—(1) Ancient History (based on Myers and Allen as text-book); (2) reading of Pope's "Iliad," Books I, VI, XXII, XXIV; Macaulay's "Lays of Ancient Rome," Shakespeare's "Julius Cæsar," and other illustrative literature; (3) Composition and Rhetoric, one day a week; entire year for all courses,

THIRD YEAR—(1) English History (based on Montgomery as text-book), with (2) Mediæval and Modern History incidental (no text-book); (3) reading of "Ivanhoe," "Marmion," Macaulay's "Milton," Burke "On Conciliation," and other illustrative literature, two terms; (4) Composition and Rhetoric, one term; (5) public essays and recitations; all courses, entire year.

FOURTH YEAR—(1) History of English Literature, lectures, reference work, recitations (Pancoast as text-book); (2) review of history, incidental; (3) reading of "Silas Marner," "Vicar of Wakefield," "De Coverley Papers," "The Princess," "Macbeth," "Merchant of Venice," "Paradise Lost," Books I and II, Burke "On Conciliation," Macaulay's "Milton and Addison," "Prologue to Canterbury Tales," two cantos of "Faerie Queene," Milton's Lyrics, and other masterpieces; (4) Composition and Rhetoric, in connection with work in literature, one term; (5) public essays and orations; all courses, entire year; (6) American History, classroom and reference work (based on Montgomery's Students' History): entire year, elective.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN—First Year: First Lessons and Viri Romæ. Second Year: Cæsar and Prose Composition. Third Year: Cicero and Prose Composition. Fourth Year: Virgil and Ovid.

GREEK—First Year: First Lessons and Anabasis. Second Year: Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

First Year: Grammar; Reading: Niebuhr's "Griechische Heroengeschichten"; Heyse's "L'Arrabbiata"; Poems memorized.

Second Year: Grammar; Bernhardt's "German Composition"; Reading; Zschokke's "Der zerbrochene Krug"; von Moser's "Der Bibliothekar"; Lessing's "Emilia Galotti"; Poems memorized.

Third Year: Review Grammar; Bernhardt's "German Composition"; Reading; Schiller's "Maria Stuart"; Freytag's "Die Journalisten"; Baumbach's "Der Schwiegersohn"; Poems memorized.

FRENCH.

First Year: Grammar; Sentence Forming; Reading: 1. Whitney's Reader.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: 1. "L'Abbé Constantin," Halévy; 2. "Le Cachet Rouge," DeVigny; 3. "La Belle Nivernaise," Daudet; 4. "Colomba," Mérimée.

Third Year: Grammar; Prose Composition; Essays and Letter Writing; Eight Poems memorized; History of French Literature; Reading: 1. "Le Cid," Corneille; 2. "L'Avare," Molière; 3. "Athalie," Racine; 4. "Pêcheur d'Islande," Pierre Loti; 5. "Les Pauvres Gens," Victor Hugo; 6. "Quatrevingt Treize," Victor Hugo.

MATHEMATICS.

First Year: Algebra or Arithmetic. Second Year: Algebra, one-half year. Third Year: Plane Geometry. Fourth Year: Solid Geometry; Review of Algebra and Arithmetic.

SCIENCE.

Work in Science extends throughout the four school years. The time devoted to each branch is as follows: First year—Botany, first and third terms; Physiology, second term. Second Year—Zoology, three terms. Third Year—Chemistry, three terms. Fourth Year—Physics, three terms; Physical Geography. Both text-book and laboratory methods are employed, and the close inter-relation of the different sciences is made prominent. Laboratory courses in Botany, Zoology, Chemistry and Physics have been established,

and three-fifths of the time devoted to these branches is given to laboratory work. In Botany and Zoology the work is chiefly a study of types of the great groups of plants and animals. Living forms are studied both in the field and in the laboratory. This vicinity is especially rich in the variety of its plant and animal forms, and some practice is given in collecting and preserving such forms and determining their scientific names. The work in Chemistry is a study of the properties of the different elements and their principal compounds; the separation of the more common elements, and the qualitative analysis of simple, unknown substances. Some of the experiments are quantitative. In Physics three days per week are devoted to work in the laboratory, and two to recitations upon the text-book and the facts observed in laboratory practice.

CIVICS.

Instruction in Civics is given as follows: 1. All courses, Civil Government of Illinois and of the United States, and history of political parties in the United States, one-half year. 2. English course, Political Economy and Sociology, two terms. 3. Parliamentary Law, one term.

DRAWING.

First Year—Clay Modeling, Free-Hand Drawing from Models, Designing and Perspective.

Second Year—Pencil Shading; Charcoal; Crayon, from casts and still life; or Pen Drawing, Lettering and Designing.

Third Year—Water Colors, Designing, Still Life, Sketching from Nature, or Mechanical Drawing.

Fourth Year—Mechanical Drawing.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Drawing and Music.

Pupils are allowed to pursue the course which they pre-

fer, and are expected to faithfully meet its requirements. To do so much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life, or for further study in higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further work in higher schools, and for intelligent living, good citizenship, and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

DIPLOMAS.

The diploma of the school, together with the principal's certificate and recommendation, secure admission, without examination, to the following colleges and universities:

Illinois State University.	Northwestern University.
Lake Forest University.	Oberlin College.
Knox College.	Vassar College.
Wellesley College.	Rockford College.
Beloit College.	Cornell University.
Wheaton College.	University of Chicago.
University of Michigan.	

Requirements.

FOR ADMISSION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage, the whole of descriptive Geography, United States History, English Grammar, Spelling, Reading and Writing.

Pupils who have satisfactorily finished the course of study given in the city schools may enter the first-year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at 9 o'clock A. M.

FOR PROMOTION.

Scholarship is estimated in three grades—good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they are required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work, they may be dropped from the school.

To be passed in any study the pupil must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required.

ELECTIVE COURSES.

To meet the individual needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared. *It should be distinctly understood that, in order to enter any of the various college courses, corresponding preparatory courses MUST be followed; and that the irregular courses, sometimes chosen by the pupils and approved by their parents, may not admit to any regular college course.*

NUMBER OF STUDIES.

To complete the courses of studies outlined above four daily

recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work, and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties outside of school, are advised to take more than four years to complete their courses of study.

EXPENSES.

Tuition, in all departments, \$10.00 per term. For less than a whole term, \$1.00 per week. No extras. Tuition must be paid in advance to the Treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school.

Board can be had in private families at about \$3.00 per week, when pupils go home Saturday and Sunday, or at \$3.50 to \$4.00 for the entire week.

A list of boarding places may be seen at the Principal's office.

Graduates.

CLASS OF '78.

	<i>Address.</i>	<i>Remarks.</i>
Bangs, Laura M.,	Minneapolis, Minn.,	Mrs. J. B. Griffith
Bastien, Alice V.,	Chicago,	Mrs. Frank Marshall
Formhals, Edna L.,	Ottawa,	Music
*Kennedy, Maria A.		
Penney, A. Della,	Hyde Park,	Mrs. Thomas McCall
Penney, Edith M.,	Ottawa,	Mrs. Emil P. Johnson
Roberts, Lida E.,	Ottawa,	At home
Trabing, Hattie H.,	Lombard,	Mrs. Sieving

CLASS OF '79.

Childs, Cora L.,	Chicago,	Mrs. Harry Green
Dewey, Corinth,	Ottawa,	Business
Dwyer, Thomas F.,	Ivy, Kan.,	Farming
Eldredge, Lottie E.,	Ottawa,	At home
Graham, Edward J.,	Ottawa,	Business
Hinsdale, Norman D.,	Pueblo, Col.,	Banking
Hoadley, Marion A.,	Ottawa,	Teaching
Long, James A.,	Washington, D. C.,	Law
Marriner, Belle D.,	Chicago,	Business

CLASS OF '80.

*Beem, Fanny C.,		Mrs. Charles L. Bradford
Boyle, Minnie E.,	Ottawa,	At home

SUMMARY.

	<i>Boys.</i>	<i>Girls.</i>	<i>Totals.</i>
First year class	47	64	111
Second year class	29	44	73
Third year class.....	20	36	56
Fourth year class	12	30	42
Special students		8	8
Totals	108	182	290

The enrollment shown by the above summary is the largest in the history of the school. Of the entire number two hundred and forty-four are from the city of Ottawa, twelve from the township outside the city, and thirty-four from without the township. To accommodate this large attendance it has been necessary to use all the recitation rooms in the building, and, in addition to these, the office and assembly room. Should the attendance further increase it will be necessary to secure more room. It is easy to see that the old building no longer meets the needs of the growing school, and that a new building is a necessity. Such a building should contain seating capacity for at least five hundred pupils, convenient recitation rooms, gymnasiums for boys and girls, a good lunch room, accommodations for a manual training plant, and in every way should be made a thoroughly modern and convenient home for a large high school.

Text Books.

MATHEMATICS	Higher Arithmetic—Beman and Smith. Algebra—Wells. Geometry—Wells. Book-Keeping—Packard.

THE LIBRARY OF THE
AUG 15 1936
UNIVERSITY OF ILLINOIS

Calendar.

Examination for admission,	Saturday, August 31, 1901
Fall Term begins	Monday, September 2, 1901
Fall Term ends	Friday, November 29, 1901
Winter Term begins	Monday, December 2, 1901
Winter Term ends	Friday, March 7, 1902
Spring Term begins	Monday, March 10, 1902
Spring Term ends	Thursday, June 5, 1902

There will be a vacation of one week at the holidays, and also at the end of the first month of the spring term.

Commencement exercises, Thursday, June 5, 1902.

GENERAL INFORMATION.

The Ottawa Township High School is located in Ottawa, the county seat of La Salle county, Illinois. It was organized under the "Township System," April 13, 1878. It is supported by the city, and the two adjacent townships of Ottawa and South Ottawa, and is under the control of the Township Board of Trustees. Since the founding of the school the following gentlemen have been members of this Board:

Dr. J. C. Hatheway,	1877-1882
J. H. Pickens,	1878-1881
William Galvin,	1879-1882
P. C. Watts,	1881-1890
E. B. Lovejoy,	1882-1885
Duncan McDougall,	1882-1886, 1895-1904
Abner Strawn,	1885-1888
W. J. Graham,	1886-1889
G. W. Townsend,	1888-1891, 1894-1903
T. E. MacKinlay,	1889-1895
J. R. Hunt,	1890-1905
Charles Schaulin,	1891-1894

COURSES OF STUDY.

Four regular courses of study are offered. They are planned for four years and are as follows:

COURSES OF STUDY.

(See Notes Below.)

CLASSICAL.	LATIN.	MODERN LANGUAGE.	SCIENTIFIC.
Algebra. Latin. *Am. Literature; Eng. Comp. †Botany. †Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra. Latin. Am. Literature; Eng. Comp. Botany. Physiology.	Algebra or Arithmetic. English Grammar. Am. Literature; Eng. Comp. Botany. Physiology.
†Algebra. Ancient History. ‡Civil Government. Latin. Greek.	Algebra. Ancient History. Civil Government. Latin. German or French.	Algebra. Ancient History. Civil Government. German. French.	Algebra. Ancient History. Civil Government. Book-Keeping; Commerce' Law. Zoology.
Plane Geometry. §Rhetoric. §Modern History. Latin. Greek.	Plane Geometry. Rhetoric. Modern History. Latin. German or French.	Plane Geometry. Rhetoric. Modern History. German. French.	Plane Geometry. Rhetoric. Modern History. Pol. Economy; Parl. Practice. Chemistry.
English Literature. Physics. Latin. Greek. †Solid Geometry; Rev. Algebra.	English Literature. Physics. Latin. German or French. Solid Geometry; Rev. Algebra.	English Literature. Physics. German. French. Solid Geometry; Rev. Algebra.	English Literature. Physics. Reviews of Arithmetic, English Grammar, U. S. History and Geography.

*American Literature will occupy four hours and English Composition one hour a week in all courses.

†Botany will occupy the fall and spring terms. Physiology the winter term.

‡Each one-half year.

§Rhetoric will occupy the first term and Modern History the last two terms of the year.

†Elective.

Arithmetic may be taken through the first year and Drawing through the last three years of the course. See section on "Elective Courses," page 9.

COURSES BY SUBJECTS.

HISTORY AND ENGLISH.

These subjects are for the most part correlated, and their study continues throughout the four years of the course.

First Year—(1) American Literature, reading of various authors, general view of history of American Literature; (2) Composition and Rhetoric, one day a week, entire year for all courses; (3) English Grammar and Composition, elective.

Second Year—(1) Ancient History (based on Myers and Allen as text-book); (2) reading of Pope's "Iliad," Books I., VI., XXII., XXIV.; Macaulay's "Lays of Ancient Rome," Shakespeare's "Julius Cæsar," and other illustrative literature; (3) Composition and Rhetoric, one day a week, entire year for all courses.

Third Year—(1) English History (based on Montgomery as text-book), with (2) Mediæval and Modern History incidental (no text-book); (3) reading of "Ivanhoe," "Marmion," Macaulay's "Milton," Burke "On Conciliation," and other illustrative literature, two terms; (4) Composition and Rhetoric, one term; (5) public essays and recitations; all courses, entire year.

Fourth Year—(1) History of English Literature, lectures, reference work, recitations (Halleck as text-book); (2) Review of history, incidental; (3) reading of "Silas Marner," "Vicar of Wakefield," "De Coverley Papers," "The Princess," "Macbeth," "Merchant of Venice," "Paradise Lost," Books I. and II., Burke "On Conciliation," Macaulay's "Milton and Addison," "Prologue to Canterbury Tales," two cantos of "Faerie Queene," Milton's Lyrics, and other masterpieces; (4) public essays and orations, all courses, entire year; (5) American History, class-room and reference work (based on Montgomery's Students' History), entire year, elective.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

Latin—First Year: First Lessons and Viri Romæ. Second Year: Cæsar and Prose Composition. Third Year: Cicero and Prose Composition. Fourth Year: Virgil and Ovid.

Greek—First Year: First Lessons and Anabasis. Second Year:

Anabasis and Prose Composition. Third Year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

First Year: Grammar; Reading: Niebuhr's "Griechische Heroengeschichten"; Heyse's "L'Arrabbiata"; Poems memorized.

Second Year: Grammar; Bernhardt's "German Composition"; Reading; Zschokke's "Der zerbrochene Krug"; von Moser's "Der Bibliothekar"; Lessing's "Emilia Galotti"; Poems memorized.

Third Year: Review Grammar; Bernhardt's "German Composition"; Reading; Schiller's "Maria Stuart"; Freytag's "Die Journalisten"; Baumbach's "Der Schwiegersohn"; Poems memorized.

FRENCH.

First Year: Grammar; Sentence Forming; Reading: "La Tâche du Petit Pierre," Mairat.

Second Year: Grammar; Prose Composition; Six Poems memorized; Reading: 1. "L'Abbé Constantin," Halévy; 2. "Le Cachet Rouge," DeVigny; 3. "La Belle Nivernaise," Daudet; 4. "Colomba," Mérimée.

Third Year: Grammar; Prose Composition; Essays and Letter Writing; Eight Poems memorized; History of French Literature; Reading: 1. "Le Cid," Corneille; 2. "L'Avare," Molière; 3. "Athalie," Racine; 4. "Pêcheur d'Islande," Pierre Loti; 5. "Les Pauvres Gens," Victor Hugo; 6. "Quatrevingt Treize," Victor Hugo.

MATHEMATICS.

First Year: Algebra or Arithmetic. Second Year: Algebra, one-half year. Third Year: Plane Geometry. Fourth Year: Solid Geometry; Review of Algebra and Arithmetic.

PHYSICAL SCIENCE.

Chemistry—Chemistry is a third-year study and extends throughout the year. Four days in the week are devoted to laboratory work, which is believed to be of supreme importance in presenting this subject. Study is made of the more common elements and compounds with reference to their properties, class characteristics, occurrence in nature, and chemical behavior. Quantitative experiments are occasionally introduced to bring out the exactness of the science and to cultivate carefulness in the work. Practice is given in determining various elements and compounds from their behavior with reagents.

Physics—Physics, a fourth-year study, occupies three terms. In presenting the subject effort is made to make practical the laws and principles studied by calling upon the pupils' experience both within and without the laboratory. About sixty experiments, largely quantitative, are performed by the pupils, and supplementing these are various others given before the class.

In both Physics and Chemistry the note-book is considered of prime importance, the pupil being required to write a careful report of each experiment, stating in his own language what he has learned from the experiment.

BIOLOGICAL SCIENCE.

Botany is pursued during the first and third terms of the first year, attention being especially directed to the life history of type forms. The types usually studied as representing the great groups are as follows:

Thallophytes—Oscillaria, Gleocapsa, Nostoc, Pleuococcus, Diatoms, Desmids, Spirogyra, Edogonium, Vaucheria, Cladophora, Chara, Mucor, Saprolegnia, Lilac Mildew, Cup Fungus, Yeast, Wheat Rust, Toadstool.

Bryophytes—Liverworts and Mosses.

Pteridophytes—A Fern, Equisetum, Selaginella.

Spermatophytes—White Pine, Lily, Corn, Bean, Pea, Shepherd's Purse.

Plant Physiology and Ecology, as based on actual observation of living plants, are given an important place in the course.

During the spring term each pupil is required to prepare an herbarium of at least twenty-five specimens carefully mounted and properly determined.

Physiology occupies the second term of the first year. The work is based on observation and experiment in so far as it is practicable.

Zoology is a second-year study and occupies three terms. Observation and dissection of as many type forms as possible are made, together with comparative study. The idea of adaptation is kept prominently before the pupils, thus making the work of observation and dissection the basis of animal physiology and ecology.

The following are the types usually examined: Amoeba, Vorticella, Paramoecium, Volvox, Pandorina, Fresh-Water Sponge, Hydra, Earthworm, Mussel, Snail, Crayfish, Cyclops, Sow Bug, Centipede, Grasshopper, Butterfly, Beetle, (Starfish), Fish, Frog, Pigeon, (Rabbit).

CIVICS.

Instruction in Civics is given as follows: 1. All courses, Civil Government of Illinois and of the United States, and history of political parties in the United States, one-half year. 2. English course, Political Economy and Sociology, two terms. 3. Parliamentary Law, one term.

DRAWING.

First Year—Clay Modeling, Free-Hand Drawing from Models, Designing and Perspective.

Second Year—Pencil Shading; Charcoal; Crayon, from casts and still life; or Pen Drawing, Lettering and Designing.

Third Year—Water Colors, Designing, Still Life, Sketching from Nature, or Mechanical Drawing.

Fourth Year—Mechanical Drawing.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused.

ELECTIVE COURSES.

To meet the individuals needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared. It should be distinctly understood that, in order to enter any of the various college courses, corresponding preparatory courses **MUST** be followed; and that the irregular courses, sometimes chosen by the pupils and approved by their parents, may not admit to any regular college course.

REQUIREMENTS.

FOR ADMISSION.

Pupils are admitted to the high school upon passing a satisfactory examination in Arithmetic through Percentage, the whole of descriptive Geography, United States History, English Grammar, Spelling, Reading and Writing.

Pupils who have satisfactorily finished the course of study given in the city schools may enter the first-year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at nine o'clock a. m.

FOR PROMOTION AND GRADUATION.

Scholarship is estimated in three grades—good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they are required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work, they may be dropped from the school.

To be passed in any study the pupil must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required.

NUMBER OF STUDIES.

To complete the courses of study outlined above four daily recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work, and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties

outside of school, are advised to take more than four years to complete their courses of study.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Book-Keeping, Drawing and Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life or for further study in the higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their studies, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further work in higher schools, and for intelligent living, good citizenship, and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

ADMISSION TO COLLEGE.

The diploma of the school, together with the principal's certificate and recommendation, secure admission, without examination, to the following colleges and universities:

Illinois State University.	Oberlin College.
Lake Forrest University.	Vassar College.
Knox College.	Rockford College.
Wellesley College.	Cornell University.
Beloit College.	University of Chicago.
Wheaton College.	Williams College.
University of Michigan.	Purdue University.
Northwestern University.	

EXPENSES.

Tuition, in all departments, \$10.00 per term. For less than a whole term, \$1.00 per week. No extras. Tuition must be paid in advance to the Treasurer, H. B. Robison, at the National City Bank, north of the court-house. On presenting the Treasurer's receipt to the Principal the pupil will be admitted to his proper place in the school.

Board can be had in private families at about \$3.00 per week, when pupils go home Saturday and Sunday, or at \$3.50 to \$4.00 for the entire week.

A list of boarding places may be seen at the Principal's office.

GRADUATES.

CLASS OF '78.

	Address.	Remarks.
Bangs, Laura M.,	Minneapolis, Minn.,	Mrs. J. B. Griffith
Bastien, Alice V.,	Chicago,	Mrs. Frank Marshall

Wright, Ethel A.,	Ottawa,	Teaching

Number of graduates: Male, 226; female, 394. Total, 620.

ALUMNI ASSOCIATION.

Officers for 1901-1902.

President	John G. Schumacher.
Vice-President	Elda L. Smith.
Secretary	Etta Dunaway.
Treasurer	Arthur H. Colwell.
Executive Committee	{ Ralph W. Poundstone. Mrs. Peter H. Miller. Miss Julia E. Trask. Fred. C. Beem. Miss Vola Rhoads. Mrs. J. M. Megaffin.

Graduates will please notify the Principal of the High School of any changes in their address or occupation as early as May 1st of each year, that a correct report may appear in the Annual Catalogue.

UNDER GRADUATES.

FOURTH YEAR CLASS.

Guyer Anderson	Ottawa.
Bessie Arntzen	Serena.
Lou Barratt	Ottawa.
Stella Benson	Ottawa.
Millie Bitterly	Ottawa.
Ai P. Bowen	Ottawa.
Alice Butters	Ottawa.
Katherine Carew	Ottawa.
Follett Cebulski	Ottawa.
Crete Cisco	Ottawa.
Norman Cook	Ottawa.
Mabel Damm	Ottawa.
Janet Downs	Ottawa.
Jennie Duncan	Ottawa.
Ada Eckert	Ottawa.
Harold Edgcomb	Ottawa.
Edna Fourlaugh	Ottawa.
Wright Fowler	Ottawa.
Alicia Graham	Ottawa.
Marie Griggs	Ottawa.
Grace Griswold	Ottawa.
Albert Hahn	Ottawa.
Everett Hess	Ottawa.
Harry Hess	Ottawa.
Arthur Hetzner	Ottawa.
Ethel Knapp	Ottawa.
Helen Lawrence	Ottawa.
Gertrude Lewis	Grand Ridge.
Agnes McDougall	Ottawa.
Emilie Meckenstock	Ottawa.
Grace Merrifield	Ottawa.
Agnes Palmer	Ottawa.
Lothrop Perkins	Ottawa.
Harley Pettit	Ottawa.
Clarence Provins	Ottawa.
Samuel Raymond	Ottawa.

Maynard Ruger	Serena.
Ida Scheidecker	Serena.
Rene Seeley	Ottawa.

NEED OF MORE ROOM.

The enrollment shown above is the largest in the history of the school. The prospect is that the number in attendance the ensuing year will be still greater, and the problem of accommodating the increasing attendance is becoming a serious one. When the present building was erected it contained room ample for all requirements, but the attendance then was but half of what it is now, and the need of laboratories was not yet recognized.

During the present year it has been necessary to teach quite a number of classes containing more than forty pupils each. In classes containing so many pupils almost no attention can be given to the special needs of the individual students, and many must necessarily fail to receive that particular care which they need. It has also been necessary for pupils to move about from room to room in order to accommodate the incoming classes, thus causing a great deal of troublesome confusion.

To those most familiar with the situation it seems absolutely necessary that more room be secured so that classes need not be too large for good teaching, and so that some lines of work (manual training, for example,) can be introduced, for which there is now no room. Ottawa should not fall behind neighboring cities in providing the best opportunities for her children, and no doubt when the facts are known the people will provide for their high school such a building as is necessary.

TEXT BOOKS.

- MATHEMATICS.....Arithmetic—Beman and Smith, Walsh.
Algebra—Wells' Essentials.
Geometry—Wells' Essentials.
Book-keeping.
- SCIENCE.....Botany—Coulter's Plant Studies.
Zoology—Jordan & Kellogg's Animal Life.
Physiology—Colton's Briefer Course.
Chemistry—Newell.
Physics—Carhart and Chute.
Adams' Laboratory Manual.
- HISTORY..... U.S. History—Montgomery's Students' Hist.
English—Montgomery.
Ancient—Myers and Allen.
- CIVICS..... Illinois and the Nation—Trowbridge.
Commercial Law—Powers.
Political Economy—Bullock.
Parliamentary Practice—Roberts.
- ENGLISH..... Grammar—Carpenter.
First Lessons in Writing English—Lewis.
Practical Exercises in English—Buehler.
Rhetoric—Cairns.

EDITH P. BENNETT, A. B.,
Latin and Greek.

ALICE B. DE LAGNEAU, A. B.,
French and Household Arts.

ANNA C. CAWLEY, A. B.,
History and Mathematics.

LOUISE RAVENS,
Stenography and Typewriting.

MABEL THOMPSON,
English.

ANNIE CYRUS.
Drawing.

B. S. WILSON.
Music.

GENERAL INFORMATION.

The Ottawa Township High School is located in Ottawa, the county seat of La Salle county, Illinois. It was organized under the "Township System," April 13, 1878. It is supported by the city and the two adjacent townships of Ottawa and South Ottawa, and up to the present year was under the control of the Township Board of Trustees. Since the founding of the school the following gentlemen have been members of this Board:

Dr. J. C. Hatheway	1877-1882
J. H. Pickens	1878-1881
William Galvin	1879-1882
P. C. Watts	1881-1890
E. B. Lovejoy	1882-1885
Duncan McDougall	1882-1886, 1895-1904
Abner Strawn	1885-1888
W. J. Graham	1886-1889
G. W. Townsend	1888-1891, 1894-1906
T. E. MacKinlay	1889-1895
J. R. Hunt	1890-1905
Charles Schaulin	1891-1894
Walter F. Weese	1904-1905

On April 8th of the present year, 1905, a Township Board of Education was elected, consisting of the following gentlemen:

James R. Hunt,	Vincent J. Duncan,
Walter F. Weese,	Emil G. Formhals,
Lorenzo Leland.	

The business of the High School formerly managed by the Board of Trustees is now entrusted to the Township Board of Education.

COURSES OF STUDY.

Three regular courses of study are offered. They are planned for four years and are as follows:

GENERAL COURSE.

	REQUIRED STUDIES.	ELECTIVES.
FIRST YEAR...	{ American Literature, { English Composition. Ancient History. Botany and Physiology. One Elective.	English Composition. Arithmetic. Latin.
SECOND YEAR.	English History and Civil Government. Algebra. Two Electives.	Latin. Greek. French. German. Zoology. Bookkeeping. Drawing.
THIRD YEAR...	Rhetoric and English. Geometry (Plane). Two Electives.	Latin. Greek. French. German. Chemistry. Drawing. Stenography and Type- writing. Civics.
FOURTH YEAR.	English Literature. Three Electives.	Latin. Greek. French. German. Solid Geometry and Advanced Algebra. Drawing. Stenography and Typewriting. Review of the Common English Branches.

COLLEGE PREPARATORY COURSE.

	REQUIRED STUDIES.	ELECTIVES.
FIRST YEAR...	{ American Literature, { English Composition. Ancient History. Latin. One Elective.	English Composition. Arithmetic. Botany and Physiology.
SECOND YEAR.	English History and Civil Government. Algebra. Latin. One Elective.	German. French. Greek. Zoology. Drawing.
THIRD YEAR...	Plane Geometry. Rhetoric and English Literature. Latin. One Elective.	German. French. Greek. Chemistry. Drawing.
FOURTH YEAR	English Literature. Latin. Physics. One Elective.	German. French. Greek. Solid Geometry and Advanced Algebra. Drawing.

BUSINESS COURSE.

	REQUIRED STUDIES.	ELECTIVES.
FIRST YEAR...	American Literature, English Composition. Arithmetic. One Elective.	Botany and Physiology. Latin. Ancient History.
SECOND YEAR.	English History and Civil Government. Bookkeeping. Two Electives.	German. French. Latin. Zoology. Drawing. Algebra.
THIRD YEAR...	Rhetoric and English Literature. Stenography and Type- writing. Two Electives.	German. French. Latin. Chemistry. Geometry. Drawing.
FOURTH YEAR.	English Literature. Stenography and Type- writing. Two Electives.	German. French. Latin. Reviews of the Common English Branches.

Manual Training and Household Arts are offered to a limited number of pupils in the third and fourth years of the course. It is hoped that more room may be secured and that these courses may soon be extended and opened to all who desire to take them.

COURSES BY SUBJECTS.

HISTORY AND ENGLISH.

These subjects are for the most part correlated, and their study continues through the four years of the course.

FIRST YEAR.—(1) American Literature, reading of various authors, general view of History of American Literature; (2) Composition, one day a week—entire year for all courses; (3) English Composition, elective—entire year; (4) Ancient History, with reading of "Iliad," "Lays of Ancient Rome," "Julius Cæsar" and other illustrative literature—all courses, entire year.

SECOND YEAR.—(1) English History with (2) Mediæval and Modern History incidental, and (3) reading of illustrative literature such as "Ivanhoe," Macaulay's "Milton," Burke "On Conciliation," etc.—two terms, all courses; (4) Civil Government—one term, all courses.

THIRD YEAR.—(1) Rhetoric and Composition—one-half year, all courses; (2) History of English Literature (based on Halleck as text-book), with (3) reading of English masterpieces, college requirements and others—one-half year, all courses.

FOURTH YEAR.—(1) History of English Literature (based on Halleck as text-book), with (2) readings from English masterpieces, college requirements and others—continuation of third year's work (2) and (3), and (3) review of English and Continental History, incidental—all courses, entire year; (4) American History, and (5) English Grammar, elective—one-half year each.

NOTE.—The foregoing course having been adopted but recently, the classes of 1906 and 1907 will continue under the former course of study, as follows:

THIRD YEAR.—English History (based on Montgomery as text-book), with (2) Mediæval and Modern History incidental (no text-book); (3) reading of "Ivanhoe," "Marmion," Macaulay's "Milton," Burke "On Conciliation," and other illustrative literature—two terms; (4) Composition and Rhetoric—one term; (5) public essays and recitations—all courses, entire year.

FOURTH YEAR.—(1) History of English Literature, lectures, reference work, recitations (Halleck as text-book); (2) Review of History, incidental; (3) reading of "Silas Marner," "Vicar of Wakefield," "De Coverley Papers," "The Princess," "Macbeth," "Merchant of Venice," "Paradise Lost" Books I. and II., Burke "On Conciliation," Macaulay's "Milton and Addison," "Prologue to Canterbury Tales,"

two cantos of "Faerie Queene," Milton's Lyrics, and other masterpieces; (4) public essays and orations—all courses, entire year; (5) American History, class-room and reference work (based on Montgomery's Students' History)—one-half year, elective; English Grammar—one-half year, elective.

ANCIENT LANGUAGES.

The course of study in Ancient Languages requires four years' work in Latin and three in Greek, and is as follows:

LATIN.—First year: First Lessons in Viri Romæ. Second year: Cæsar and Prose Composition. Third year: Cicero and Prose Composition. Fourth year: Virgil and Ovid.

GREEK.—First year: First Lessons and Anabasis. Second year: Anabasis and Prose Composition. Third year: Homer, selections from Lysias or other authors, and review of Greek History. Sight reading in both Greek and Latin.

GERMAN.

First year: Grammar; Reading; Mueller and Wenckebach's "Glueck Auf"; Storm's "Immensee"; Poems memorized.

Second year: Grammar; Prose Composition; Reading; Zschokke's "Der zerbrochene Krug"; Schiller's "Der Neffe als Onkel"; Wildenbruch's "Harold"; Schiller's "Der Taucher"; six Poems memorized.

Third year: Review Grammar; Prose Composition; Reading; Schiller's "Wilhelm Tell"; Sudermann's "Frau Sorge"; Kron's "German Daily Life"; six Poems memorized.

FRENCH.

First year: Grammar; Reading; Reader (Aldrich and Foster); Simple French (Francois and Giroud); Poems memorized.

Second year: Grammar; Irregular Verbs; Prose Composition; Reading; "La Belle Nivernaise," Daudet; "Colomba," Merimée; "Le Tour de la France," Bruno; "Contes Biographiques," Foa; Poems memorized.

Third year: Grammar; Prose Composition; Themes; History of French Literature; Reading; "Pêcheur d'Islande," Loti; "Le Bourgeois Gentilhomme," Molière; "Athalie," Racine; "Le Cid," Corneille; "Quatrevingt Treize," Victor Hugo; Poems memorized.

MATHEMATICS.

First year: Algebra or Arithmetic. Second year: Algebra, one-

half year. Third year: Plane Geometry. Fourth year: Solid Geometry; review of Algebra and Arithmetic.

PHYSICAL SCIENCE.

CHEMISTRY.—Chemistry is a third year study and requires at least five hours per week throughout the year. The subject is developed largely from the laboratory standpoint, consequently the time is divided between class-room and laboratory exercises in such a manner as, in the judgment of the teacher, will best serve the interest of the pupil.

After having studied the most common non-metals and metals, practice is given in the determination of simple mixtures from their behavior with reagents. In this practice the reactions are explained on the basis of the Ionic Theory.

PHYSICS.—Physics, a fourth-year study, extends throughout the year. In presenting the subject effort is made to make practical the laws and principles studied by calling upon the pupils' experience both within and without the laboratory. About sixty experiments, largely quantitative, are performed by the pupils, and supplementing these are various others given before the class.

In both Physics and Chemistry the pupil is required to make a record of his observations, which is criticised by the teacher, and the pupil required to make any necessary corrections. The record then becomes permanent.

BIOLOGICAL SCIENCE.

BOTANY.—This subject may be pursued during the fall and spring months of the first year, and the effort is made to present the elementary facts clearly enough for the youngest pupil to gain a general knowledge of the science, if serious application is made to the work. In order to do this a beginning is made by the observation and study of the commoner phenomena of plants growing in a state of nature (plant physiology and ecology). This phase of the work is continued for about six or eight weeks, when the study of life histories of representative forms is taken up as the main line of work during the rest of the time. The following forms are studied to illustrate the four great sub-kingdoms:

Thallophytes.—Oscillaria, Gleocapsa, Nostoc, Pleurococcus, Diatoms, Desmids, Spirogyra, Edozonium, Vaucheria, Cladophora, Mucor, Saprolegnia, Lilac Mildew, Yeast, Wheat Rust, Toadstool.

Bryophytes.—A liverwort and a moss.

Pteridophytes.—A fern, Equisetum, Selaginella.

Spermatophytes.—Pine, Lily, Corn, Bean, Pea, Shepherd's Purse.

During about eight weeks in the spring considerable attention is given to the determination of flowering plants (Angiospermæ) by the aid of a manual as a means of giving the pupils an insight into the characters distinguishing the more common orders.

HUMAN PHYSIOLOGY.—Ten or twelve weeks during the winter are spent in the study of this subject instead of Botany the first year.

ZOOLOGY.—Zoology is a second-year study and occupies a whole year. Observation and dissection of as many type forms as possible are made, together with comparative study. The idea of adaptation is kept prominently before the pupils, thus making the work of observation and dissection the basis of animal physiology and ecology.

The following are the types usually examined. Amœba, Vorticella, Paramœcium, Volvox, Pandorina, Fresh-Water Sponge, Hydra Earthworm, Mussel, Snail, Crayfish, Cyclops, Sow Bug, Centipede, Grasshopper, Butterfly, Beetle, (Starfish), Fish, Frog, Pigeon, (Rabbit).

Birds are given a more detailed study near the close of the year so as to acquaint the pupils with the species most commonly met in the locality.

CIVICS.

(1) All courses, one term, second year—Civil Government of Illinois and United States; (2) Civics and Parliamentary Law—entire third year; elective.

BUSINESS COURSE.

A special Business Course has been arranged, having as its fundamental studies American and English Literature, thorough training in English Composition, an extended study of Arithmetic, Bookkeeping, Stenography and Typewriting, together with the opportunity of electing such additional studies as may best meet the pupil's needs.

SHORTHAND AND TYPEWRITING.

A thorough course in Shorthand and Typewriting is open to students of the third and fourth years, and those who do the work well not only secure the educational value of this kind of training, but also may become sufficiently proficient to acceptably fill positions as stenographers. Excellent work is being done by those who have finished this course.

DRAWING.

First Year—Clay Modeling, Free-Hand Drawing from Models, Designing and Perspective.

Second Year.—Pencil Shading; Charcoal; Crayon, from casts and still life; or Pen Drawing, Lettering and Designing.

Third Year—Water Colors, Designing, Still Life, Sketching from Nature, or Mechanical Drawing.

Fourth Year—Mechanical Drawing.

MANUAL TRAINING.

This course extends over one year. The object of the work is, like that of other departments, educational. While it has a distinctive practical value, it also possesses the dignity of laboratory training, and holds proportionate rank with other subjects. The training involved in planning and executing a piece of work brings into exercise some of the best powers of the mind and body. Economy of time, labor and material is taught and enforced, while special attention is given to the formation of the habits of neatness, order, and of workmanlike method. The nature, grinding and care of each tool is taught preceding its use by the student, and the exercises are carefully planned to embody some mechanical principle and to bring into use, one after the other, the various shop tools.

HOUSEHOLD ARTS.

COURSE, ONE YEAR.—This department offers a practical course in plain cooking, with practice in table service and systematic care of a kitchen. The course aims at excellence in the preparation of ordinary foods, at neatness and orderliness in the kitchen, and especially at accuracy, thrift and sound judgment on the part of the pupil as to matters of household economy.

MUSIC.

Systematic instruction in Vocal Music will be given to all members of the school, each class receiving one lesson a week during the entire course. All pupils are required to take the work in music, unless especially excused.

ELECTIVE COURSES.

To meet the individual needs of pupils, a limited choice in studies will be allowed, but pupils will not be permitted to take studies for the pursuit of which they are not prepared. *It should be distinctly understood that, in order to enter any of the various college courses, corresponding preparatory courses MUST be followed; and that the irregular courses, sometimes chosen by the pupils and approved by their parents, may not admit to any regular college course.*

REQUIREMENTS.

FOR ADMISSION.

Pupils are admitted to the High School upon passing a satisfactory examination in Arithmetic through Percentage, the whole of Descriptive Geography, United States History, English Grammar, Spelling Reading and Writing.

Pupils who have satisfactorily finished the course of study given in the city schools may enter the first-year class in the High School without examination.

The County Superintendent's certificate will admit the holder to the school without examination.

Examinations for admission will be held regularly on the Saturday next preceding the opening of school in September of each year, beginning at nine o'clock a. m.

FOR PROMOTION AND GRADUATION.

Scholarship is estimated in three grades—good, fair, poor. Pupils are required to maintain a fair average standing. If they cannot do this with the ordinary number of studies, they are required to take fewer studies and do the work better. If, after sufficient trial, they show that they either cannot or will not do fair work, they may be dropped from the school.

To be passed in any study the pupils must make at least a fair average standing. When a pupil is passed in any study he is entitled to as many credits as the study has continued terms, and is given a certificate showing his standing and the number of credits to which he is entitled. To graduate from the school forty-eight credits are required.

NUMBER OF STUDIES.

To complete the courses of study outlined above four daily recitations are required. Usually one of these does not require a great amount of work outside of the recitation hour. Pupils who are physically strong, willing to work, and not overburdened with duties outside of school, can complete these courses in four years.

Pupils who are not strong physically, or who have many duties outside of school, are advised to take more than four years to complete their courses of study.

REMARKS.

An examination of the courses outlined above, and of the requirements for promotion and graduation, will show that the wants of

almost every class of pupils have been considered. Opportunity is given for somewhat extended study of Mathematics, Science, History, Latin, Greek, German, French, English, Civics, Commercial Law, Bookkeeping, Stenography and Typewriting, Drawing and Vocal Music.

Pupils are allowed to pursue the course which they prefer, and are expected to faithfully meet its requirements. To do so much earnest study is required, not only during school hours, but also at home. Pupils who successfully accomplish the work of the school will have but little time for anything else, and parents are earnestly requested to see that they do not take their time for anything else.

It is the purpose of the management to give those desiring it a useful education, whether as a preparation for the immediate duties of business life or for further study in the higher schools. No pains are spared to make the school all that a good High School ought to be.

Those who attend strictly to their duties, and maintain an honorable standing in their classes, will, when they have completed their work, be well prepared for further work in higher schools, and for intelligent living, good citizenship and business activity.

To give such preparation is the purpose for which high schools are established and maintained, and is the end which the Ottawa High School strives to attain.

ADMISSION TO COLLEGE.

The diploma of the school, together with the principal's certificate and recommendation, secures admission, without examination, to the following colleges and universities:

University of Illinois.	Oberlin College.
Lake Forest College.	Vassar College.
Knox College.	Rockford College.
Wellesley College.	Cornell University.
Beloit College.	University of Chicago.
Wheaton College.	Williams College.
University of Michigan.	Purdue University.
Northwestern University.	

EXPENSES.

Non-residents are required to pay a tuition fee of thirty-eight dollars a year, payable to the treasurer, John G. Schumacher, at the National City Bank, as follows: \$12 in September, \$12 in December, and \$14 in March of each year.

Board can be had in private families at about \$3.50 to \$4 per week. A list of boarding places can be found at the Principal's office.

ENROLLMENT OF 1904-1905.

POST GRADUATES AND SPECIAL STUDENTS.

Mabel Brown.....	Drawing, German and French
Alice Butters	Stenography and Typewriting
Minnie Dawell	Drawing, German and Domestic Science

Boys, 60; Girls, 74. Total, 134.

SUMMARY.

	Boys.	Girls.	Total.
Post Graduates and Special Students	1	18	19
Fourth Year	19	25	44
Third Year	17	30	47
Second Year	30	48	78
First Year	60	74	134
Total	127	195	322

Of this number thirty-four come from territory outside the township and pay a tuition of \$38 each per annum.

MORE ROOM NEEDED.

The summary on page 22 shows an enrollment during the present year of one hundred twenty-seven boys and one hundred ninety-five girls, making a total enrollment of three hundred twenty-two—the largest attendance in the history of the school.

For such an attendance the room furnished by the present building is entirely inadequate. Every room is crowded to the limit, and some beyond the limit. The library has been crowded into the office and then the office used for recitation purposes. The assembly hall has been turned into a drawing room, and then music classes held in one end of the room while classes in drawing were being conducted in the other. Rooms in the basement necessary for wardrobe purposes have been utilized for Domestic Arts and Manual Training.

The crowded condition of the school has rendered it necessary to hear classes numbering as high as forty-five, a number to which no teacher can do justice.

This state of things is likely to be even worse another year on account of increased enrollment.

It is very evident to those familiar with the situation that in some way more room must be secured. Either the present building must be enlarged or a new one must be built.

It has been proposed by some to exclude tuition pupils and thus secure more room for pupils from the township only. This plan, however, would give but little relief, and that only temporarily. Meantime the school would lose \$1,200 a year revenue and the helpful presence of some of its most earnest students. It is not thought that many citizens of Ottawa, and especially not those who take an interest in the welfare of the High School, care to adopt this plan. The present Board of Education certainly does not.

The President of the Board has already discussed the situation at some length in articles published in the daily papers of last winter, and attention is hereby again called to his discussion, and to the statement here made of the needs of the school.

A modern High School ought to contain, first of all, of course, sufficient seating capacity properly warmed, lighted and ventilated. It should contain necessary laboratories and recitation rooms. It should not be without good gymnasiums for proper physical training. It ought to be located in a place at least reasonably quiet and near to good play grounds.

It may not be possible to secure all of these things here, but so many of them as possible ought to be secured. To the relief of the present situation the Board of Education will soon devote itself and will ask the people to empower it to raise the funds necessary to provide such accommodations as a good High School ought to enjoy.

Report of Treasurer, High School Board

Ottawa, Ill., June 10, 1919.

To the President and Members of the Township Board of Education,
Ottawa, Illinois.

Dear Sirs:

We have this day examined carefully several accounts submitted to us by Principal Charles H. Kingman, of the Ottawa Township High School, and report as follows:

1. We find that receipts from concerts, student plays and other entertainments are deposited in the Ottawa Banking & Trust Company to the credit of the "High School Entertainment Fund, C. H. Kingman, Treasurer." We find this account to be kept carefully in detail and disbursements made by check. The books show a cash balance of \$436.65 on hand at the present time, which agrees with cash balance shown by bank book.

2. We find the cafeteria funds deposited with the First National Bank to the credit of "High School Cafeteria, Vera B. Ham, treasurer." After carefully examining these accounts we find the total receipts for the year, which included a balance of \$200.00 on hand at the beginning of the year, were \$2,339.13. Total expenditures for supplies, salaries, etc., were \$2,233.63. Cash balance on hand as shown by accounts and bank book \$105.50.

3. We examined the funds of the Athletic Association, which we find are deposited with the Ottawa Banking & Trust Company by W. E. Howard, treasurer. Both ledger and bank book show receipts for the year of \$537.14 and disbursements of \$535.21; present cash balance \$1.93.

4. We also found the following amounts of money on hand:

(a) \$12.75 library book fines.

(b) \$22.25, a present of the class of 1919 to the school.

In none of the above accounts is there shown any profit to any individual, and details of receipts and expenditures are in the records of the high school board open to examination of any person who is interested in the subject.

It is our opinion that these small accounts are being kept in satisfactory manner, and that a true and just accounting of the same was made to us as auditors.

Sincerely yours,

S. B. BRADFORD.

AXEL HEIBERG.

DEC 10 1919, cont.
Dir. S.

Auditors' Report

July 14, 1919.

To the President and Members of the Township Board of Education,
Ottawa, Illinois.

Gentlemen:

We have examined the vouchers in connection with the reports of the secretary of the Township Board of Education and the books of the township treasurer in so far as they relate to the accounts of the Ottawa Township High School. We find the balance on hand as shown by Secretary C. H. Kingman's report, namely, \$31,904.58, and the balance on hand as shown by Treasurer E. J. Cassidy's report, namely, \$31,972.58, to be correct. The discrepancy of \$68.00 in the amounts shown is due to the fact that two orders totalling \$68.00 were outstanding and unpaid on the 30th of June when the fiscal year closed.

We have, furthermore, inquired into the methods of keeping accounts, both in the building account and the educational account, as carried by the secretary of the Township Board of Education and the treasurer of the township and find them to be satisfactory.

Very respectfully,

AXEL HEIBERG.

S. B. BRADFORD.

Auditing Committee.

Dated at Ottawa, Illinois, this 14th day of July, 1919.

List of orders issued and unpaid:

No. 2505—American Red Cross, \$28.00.

No. 2536—Mike O'Connor, \$40.00.

Summary of Receipts and Expenditures of the Ottawa Township High School, for the Year 1918-1919

RECEIPTS.

July 1, 1918, cash on hand.....	\$15,102.48
July 1, 1918, uncashed vouchers.....	.75
Aug. 13, 1918, delinquent taxes.....	21,719.37
Aug. 15, 1918, Werner Construction Co.	170.00
Jan. 20, 1919, sale of old material.....	4.00

Calendar for 1919-1920

1919

REGISTRATION DAYS:

- (1) FOR SENIORS AND POST GRADUATES—Tuesday, September 2, at 8:30 A. M., all whose last names begin with letter A through letter K; at 1:15 P. M. all others.
- (2) FOR FRESHMEN—(Also for students of any class who are entering this High School for the first time—Wednesday, September 3, at 8:30 A. M., all whose last names begin with letter A through letter K; at 1:15 all others.
- (3) FOR JUNIORS—Thursday, September 4, at 8:30 A. M., all from A to K, and at 1:15 P. M. all others.
- (4) FOR SOPHOMORES—Friday, September 5, at 8:30 A. M., all from A through K; others at 1:15 P. M.

This scheme is devised in order to give each student personal supervision in arranging his work. It is imperative for you to register at the designated time.

September 8, Monday, at 8:30 A. M.
Classes for First Semester begin
 October 31, Friday, at 8:00 P. M.....Junior Reception
 November 27 and 28.....Thanksgiving Recess
 December 12, Friday, at 8:00 P. M.....Senior Reception
 December 20 to 29.....Christmas Recess
 December 29.....Work resumed after Christmas Recess

1920

January 1, Thursday.....New Year's Recess
 January 21, 22 and 23.....First Semester Examinations
 January 26, Monday.....Second Semester begins
 March 29 to April 5.....Spring Recess
 April 16, Friday.....Junior-Senior Reception
 May 26, 27 and 28.....Second Semester Examinations
 June 3 Commencement

(The following editorial appeared in the Chicago American on February 1, 1919.)

Every Year In High School is Worth \$4,500 to the Student

Boys and Girls, Don't Quit After Finishing the Grammar School, for You Will Lose Money and Life by It.

“Four thousand five hundred dollars put away as an investment drawing five per cent, and secured against theft, is a pretty fine year's saving.

Comparatively few grown men and women in Chicago can boast of thrift even approaching that figure. This investment is too late for the grown-ups.

But every one of the 38,000 High School boys and girls in Chicago invest \$4,500 a year just by going to school. The board of education is authority for the statement, and its estimate is based on the authority of the United States Bureau of Education.

The government bureau has by tests demonstrated that a High School graduate will, when he reaches his twenty-fifth year, earn \$900 a year more than the one who left school at the close of the grammar course. Nine hundred dollars is the income on \$18,000 invested at five per cent. Each of the four years in high school therefore represents an invested earning capacity of \$4,500 at five per cent. Worth while, is it not, for a boy or girl between 14 and 18 years?

There are 8,500 boys and girls in Chicago completing the eighth grade this week and facing the problem of going to work or going on through High School. To these children and to their parents these statistics are submitted, not only for the moment's reading, but for careful pondering.

The government figures show that the average pay for the grade school graduate at 25 years, 11 years after leaving school, is \$12.75 a week, while the average pay of a High School graduate at 25 years, 7 years after leaving school, is \$31 a week. The loss to the grade graduate is further shown in the figures that in the 11 years he earned only \$5,112.50, while in the 7 years the High School graduate earned \$7,337.50.

The eighth grade pupil who quits school this week faces a financial loss, therefore, of \$2,225 in actual earnings by the time he is 25, and the further loss of an earning capacity of \$900 a year at that age. The increase in earnings after that age are small as compared with the High School pupils.

But Johnny with his eye on a job, with its freedom and loose

change in his pockets, can point out a millionaire who is almost illiterate, and show in history the story of a President who never went to High School. He can also point out educated men who are failures and unschooled men who are captains of industry.

That cannot be disputed. However, we cannot tell what Lincoln might have been with the education of Mr. Wilson or the wealth of George Washington. Assuming that Johnny is not a genius who can release himself from the thralldom of ignorance by his own efforts, the law of averages must be applied to him. The United States Bureau of Education statistics on the earnings of average people must answer his objections from a financial viewpoint. If Johnny quits school this week he is bound to lose.

Money, however, is not all of life, and it would be unfair to offer only a sordid appeal to our Chicago school children. Education means greater capacity for the enjoyment of the finer things of life. Reading, music, companionship of cultured people, the ease of speech and conduct that comes with the knowledge of the proper thing, all of these are results of the better education of the high school, and to a greater degree with the college.

The Evening American, which is interested in the boys and girls of Chicago as the future men and women of Chicago, adds to the argument above an earnest appeal to these boys and girls not to leave school now.

The future of America needs educated men and women, and the best chance of education is the High Schools at your doors. If you run from these schools now you will be outstripped in the race later on.

Don't overlook the \$4,500 a year ready for you. Besides, perhaps some returning soldier needs the job you are taking."

General Information

History of the School

The catalog issued in 1916 contained ten pages of historical matter. Those interested in the story of the organization and development of the school will find the same recorded in considerable detail at pages 9 through 18 of the catalog referred to.

Location

The Ottawa Township High School is located in Ottawa, the county seat of La Salle County, Illinois. It is supported by the two civil townships of Ottawa and South Ottawa, which include the city of Ottawa; that is, by the territory embraced in Township 33 north, Range 3, east of the third principal meridian.

The present High School site embraces lots 105, 107, 108, 109, 110, 111, and 112 in the Original Town of Ottawa, or in other words, the old Armory block and all the land south of it between the Fox river on the west, the Illinois river on the south, and Division street on the east. The King Athletic Field occupies a plot of several acres south of the building.

Organization

The Ottawa Township High School was legally established April 13, 1878, as the result of an election held on that day. The school has been directed by the following Principals:

Henry T. Boltwood.....	1878-1883
C. W. Tufts.....	1883-1887
Buel P. Colton.....	1887-1888
Judson O. Leslie.....	1888-1908
William F. Mozier.....	1908-1913
Charles H. Kingman.....	1913-

The Township Board of Education

The Township Board of Education is composed of five members, each holding office for three years. Election for board members is held on the second Saturday of April in each year. The names of the present members are given elsewhere, together with the time of expiration of their present terms of office.

Requirements for Admission

Pupils are admitted to the first year of the High School without examination upon presentation of credentials from County Superintendent W.R. Foster, City Superintendent C. J. Byrne and other proper school officials, certifying that the work of the grade schools has been satisfactorily completed. If such credentials cannot be presented,

the applicant will be called upon to satisfy the Principal by examination or otherwise that he is competent to undertake the work of the High School.

Students entering from other High Schools must bring certificates showing credits earned.

The High School Course

The regular High School course consists of four years of thirty-eight weeks each. To complete the courses of study prescribed requires approximately four daily recitations five days a week, throughout the four years.

Credits and Graduation

The school year is divided into two terms of nineteen weeks each. The amount of school work is estimated in credits. One credit is given for one term's successful work in a study recited five times a week and requiring preparation outside the class room. Subjects which require little or no preparation outside of class, and which do not require double periods, are given less credit.

Scholarship

The ordinary arrangement of the school program gives four periods a day for recitation and two periods for study. To carry his work satisfactorily the student should devote considerable time to study outside the school, and **parents are urgently requested to see that this is done.** The special occupation of High School students should be to carry their High School work with credit to themselves and to the school, and if they accomplish this purpose they will have little time or strength for outside work or diversions. **At least one or two hours of systematic daily home study are absolutely necessary to successfully carry the full amount of work required.** Students who are physically strong, mentally alert, willing to work, and not overburdened with outside affairs can complete the prescribed courses of study in four years; those not so fortunate are advised to give more than four years to the work.

Once each school month a report card will be sent home for the parent to sign. The grades will be indicated as follows:

A+	95 to 100 per cent.
A	90 to 95 per cent.
B+	85 to 90 per cent.
B	80 to 85 per cent.
C+	75 to 80 per cent.
C	75 per cent.
F	Failing

“Con”—Work unfinished and must be completed before a mark can be assigned.

Seventy-five per cent. is the passing mark, except in Stenography courses, where it is 85 per cent.

In computing final term grades, the daily recitation average will count two-thirds and the final examinations one-third. **HOWEVER, STUDENTS WHO MAKE LESS THAN SIXTY PER CENT. IN FINAL EXAMINATIONS WILL NOT RECEIVE CREDIT, EVEN IF THEIR DAILY GRADES ARE HIGH.** The passing mark in Stenography examinations will hereafter be 75 per cent.

Exemptions

Under the following conditions a student may qualify to be “exempt” from taking final examinations:

1. If his **deportment** is not below 90.
2. If he has **not been absent** more than **six half days**
3. If he has **not been tardy**. **One unexcused tardiness** will disqualify. In case a student is known to have deliberately absented himself to avoid being marked tardy he will be marked both tardy and absent.
4. If he is **not failing** in any study.

If all these requirements are met he may be exempted in those subjects in which his **term mark is 90 or above**. The average of his daily work throughout the term will be given as the final mark.

Tuition Students

Students who live outside the townships of Ottawa and South Ottawa are admitted upon the payment of \$75.00 per year tuition. During the past four years students from districts where four-year High Schools are not maintained have had this tuition paid for them from district and state funds. The following statement taken from Section 96 of the School Law of Illinois as revised by the Fiftieth General Assembly and pertaining to “Non-High School Districts” makes this clear:

“Upon approval of the County Superintendent of Schools any High School pupil may attend a recognized High School more convenient in some district other than the High School district in which he resides and the Board of Education of the High School district in which said high school pupil resides shall pay the tuition of such pupil, **provided** said tuition shall not exceed the per capita cost of maintaining the High School attended.

“Any eighth grade graduate residing in a non-High School district may attend any recognized two, three or four year High School, and his tuition shall be paid by the Board of Education of the non-High School district in which he resides.

“An eighth grade graduate in the meaning of this Act is any per-

son of High School age who gives satisfactory evidence of having completed the first eight grades of school work by presenting a certificate of promotion issued by the home school board, or by passing an examination given by the County Superintendent of Schools, or by passing an examination given by the school attended.

“The tuition paid shall in no case exceed the per capita cost of maintaining the High School attended, excluding therefrom interest paid on bonded indebtedness, which shall be computed by dividing the total cost of conducting and maintaining the said High School by the average number of pupils enrolled, including tuition pupils.”

The board of commissioners whose duty it is to administer the above law for La Salle County are as follows:

Frank E. Richey, President, La Salle, Ill.

J. R. Jorstad, Sheridan, Illinois.

T. W. Esmond, Ottawa, Illinois.

W. R. Foster, Secretary ex-officio, Ottawa, Illinois.

Deportment

Each student will be given 100 per cent. in deportment at the beginning of each semester. The teachers will have authority to deduct from this mark as occasion arises. If a student whose deportment is below 100 per cent. goes one calendar month without having anything more deducted, he will be given a new mark of 100. Sixty is considered a low deportment mark, and indicates very unsatisfactory conduct.

Amount of Work to Carry

The normal amount of work that each student should carry is four daily recitations; that is, four subjects which require outside preparation. Special permission must be obtained to carry either more or less than this amount. It never pays to try to do more than can be **done well**; and, on the other hand, every normally constituted student should be ashamed of doing less work than his fellows are doing.

Admission to College

The diploma of the High School, together with the Principal's certificate and recommendation, secures admission, without examination, to any college or university in the North Central Association of Colleges and Secondary Schools, and to practically all colleges and universities of the United States that admit on the certificate plan; provided, of course, that the student takes the necessary college preparatory studies in the High School course. Students who contemplate entering college should consult with the Principal respecting the requirements of the college they expect to enter, for different colleges have somewhat different requirements. The attention of parents also is called to the necessity of such consultation.

Many pupils, upon entrance to the High School, have no idea of entering college, thinking it impossible for one reason or another. Often times at the end of the High School work circumstances change, and a college course becomes possible. But if the High School studies have not been properly chosen, a year or two more may be required in getting ready. Hence, it is always advisable to keep college entrance in view as one of the possibilities in arranging a course of study. A comparatively small number go to college; therefore, the school does not demand that all students cover the college requirements. We offer all the subjects that are required, but we do not insist that all our young people take them all. If you wish to enter some college, it is incumbent upon you to select the course of work **that will satisfy the entrance specifications of that particular institution.** Our College Preparatory Course covers the requirements of most colleges and universities.

It should be distinctly understood that, in order to enter any of the various college courses, corresponding preparatory courses must be followed; and that the irregular courses, sometimes chosen by students and approved by their parents, may not admit to any regular college course.

A Letter from General McCain

Dear Sir:

Believing it might be interesting and helpful to schools and colleges in the present emergency, your attention is invited to the following observations of a candidate at one of the reserve officers' training camps, as to the probable causes of the considerable number of rejections of candidates for reserve officers at the training camps.

Perhaps the most glaring fault noted in aspirants to the officers' reserve corps, and one that might be corrected by proper attention in our high schools, preparatory schools and colleges, might be characterized by the general word "slouchiness." I refer to what might be termed a mental and physical indifference. I have observed at camp many otherwise excellent men who have failed because in our school system sufficient emphasis is not placed upon the avoidance of this mental and physical handicap. In the work of the better Government military schools of the world this slackness in thought, presentation and bearing is not tolerated because the aim of all military training is accuracy.

At military camps throughout the country mental alertness, accuracy in thinking and acting, clearness in enunciation, sureness and ease of carriage and bearing must be insisted upon, for two reasons—that success may be assured as nearly as human effort can guarantee it with the material and means at hand, and that priceless human lives may not be criminally sacrificed. Only by the possession of the qualities referred to does one become a natural leader.

A great number of men have failed at camp because of inability to articulate clearly. A man who can not impart his idea to his command in clear distinct language, and with sufficient volume of voice to be heard reasonably far, is not qualified to give commands upon which human life will depend. Many men disqualified by this handicap might have become officers under their country's flag had they been properly trained in school and college. It is to be hoped, therefore, that more emphasis will be placed upon the basic principles of elocution in the training of our youth. Even with prescribed training in elocution a great improvement could be wrought by the instructors in our schools and colleges, regardless of the subject, insisting that all answers be given in a loud, clear, well rounded voice; which, of course, necessitates the opening of the mouth and free movement of the lips. It is remarkable how many excellent men suffer from this handicap, and how almost impossible it is to correct this after the formative years of life.

In addition to this physical disability and slouchiness is what might be termed the slouchiness of mental attitude. Many men fail to measure up to the requirements set for our officers' reserve because they have not been trained to appreciate the importance of accuracy in thinking. Too many schools are satisfied with an approximate answer to a question. Little or no incentive is given increased mental effort to co-ordinate one's ideas and present them clearly and unequivocally. Insistence upon decision in thought and expression must never be lost sight of. This requires eternal vigilance on the part of every teacher. It is next to impossible for military instructors to do much to counteract the negligence of schools in this regard. This again has cost many men their commissions at camp. Three months is too short a time in which to teach an incorrigible "beater-about-the-bush" that there is but one way to answer a question, oral or written, and that is positively, clearly and accurately. The form of oral answer in our schools should be made an important consideration of instruction.

I have further noted at camp that even some of our better military schools have turned out products that while many of them may have the bearing of a soldier in ranks, yet their carriage is totally different as soon as they "fall out." Schools, military and non-military, should place more insistence upon the bearing of pupils all the time. It should become a second nature with them to walk and carry themselves with the bearing of an officer and a gentleman. This again is a characteristic that can not be acquired in a short time and, when coupled with other disqualifying elements, has mitigated against the success of men in training camps.

As a last important element that seems to me has been lacking in the moral and mental makeup of some of our students here is the

characteristic of grit. Not that they would have proven cowardly in battle, necessarily, but some have exhibited a tendency to throw up the sponge upon the administration of a severe rebuke or criticism. Their “feelings have been hurt” and they resign. They have never been taught the true spirit of subordination. They are not ready for the rough edges of life. The true training school should endeavor to inculcate that indomitable spirit that enables one to get out of self, to keep one’s eyes fixed upon the goal rather than upon the roughness of the path; to realize that one unable to rise above the hard knocks of discipline can not hope to face with equanimity the tremendous responsibilities of the officer under modern conditions of warfare. This ideal of grit belongs in the school room as well as upon the campus.

Very respectfully,
H. P. McCAIN,
The Adjutant General.

**Requirements for Admission to the University
of Illinois**

A candidate for admission by certificate must be a graduate of an accredited High School. Fifteen **units** in **acceptable subjects** (see lists A, B and C below) must be offered. A college unit is generally the equivalent of two of our High School credits.

Prescribed Subjects.

Summary.

The 15 units offered for admission must include:

I. Certain subjects, prescribed alike for all curriculums (see List A below).....	6 units
II. Certain subjects, prescribed in addition for the individual curriculum which the student wishes to enter	1 to 4 units
III. Enough electives from List B (below) to make, with the subjects prescribed for all curriculums (List A) and those prescribed for the individual curriculum of the student’s choice, a total of 12 units	5 to 2 units
IV. Three additional units, which may be chosen either from List B or from the additional electives of List C (below).....	3 units
Total.....	15 units

Detailed Statement.

I. Units Prescribed for All Curriculums.

Of the 15 units required, the following 6 units, constituting List A, are prescribed for admission to the Freshman class in all the undergraduate curriculums of the university, and no substitutes are accepted.

LIST A.

English (composition and literature).....	3 units
Algebra	1 unit
Plane geometry	1 unit
Physics, or chemistry, or botany, or zoology, or physiology, or physiography, with laboratory work.....	1 unit
Total.....	6 units

II. Additional Prescriptions for Individual Curriculums.

Of the 9 units that remain, certain others are prescribed for admission to individual curriculums, and in each case no substitutes are accepted for the curriculum in question.

One and one-half units of High School Algebra are prerequisite for registration in all college courses in Mathematics, and College Mathematics is prerequisite for courses in Physics and Advanced Chemistry. It is necessary, therefore, for students who intend to pursue curriculums involving College Mathematics, Physics, or Advanced Chemistry, including the curriculums in Home Economics, Chemistry and Chemical Engineering, the Pre-Medical curriculum, or curriculums in commerce and business administration in which university courses in Mathematics are prescribed, to present for admission to the university, or make up after entrance, one-half unit of Advanced Algebra in addition to the required unit of List A.

III. Electives from List B.

Enough electives must be chosen from List B below to make, with the subjects prescribed for all curriculums (List A) and those prescribed for the individual curriculum of the student's choice, a total of 12 units.

LIST B.

Latin	1 to 4 units
French	1 to 4 units
Spanish	1 to 4 units
English (4th unit)	1 unit
German	1 to 4 units
Advanced Algebra	$\frac{1}{2}$ to 1 unit
Solid Geometry	$\frac{1}{2}$ unit
Trigonometry	$\frac{1}{2}$ unit
History	1 to 4 units
Civics	$\frac{1}{2}$ to 1 unit
Economics	$\frac{1}{2}$ to 1 unit
Commercial Geography	$\frac{1}{2}$ to 1 unit
Physical Geography	$\frac{1}{2}$ to 1 unit
Physiology	$\frac{1}{2}$ to 1 unit
Zoology	$\frac{1}{2}$ to 1 unit
Botany	$\frac{1}{2}$ to 1 unit
Physics	1 to 2 units
Chemistry	1 to 2 units

IV. Additional Electives: List C.

The remaining 3 units may be chosen either from List B above or from List C:

LIST C.

Agriculture	36 to 108 weeks	1 to 3 units
Bookkeeping	36 weeks	1 unit

Business Law	18 weeks	$\frac{1}{2}$ unit
Commercial Arithmetic	18 weeks	$\frac{1}{2}$ unit
Domestic Science	36 to 72 weeks	1 to 2 units
Drawing, Art and Design.....	18 to 36 weeks	$\frac{1}{2}$ to 1 unit
Drawing, Mechanical	18 to 36 weeks	$\frac{1}{2}$ to 1 unit
Manual Training	36 to 72 weeks	1 to 2 units
Music	36 to 72 weeks	1 to 2 units
Shorthand and Typewriting.....	36 to 72 weeks	1 to 2 units

Summary by Colleges and Curriculums.

The requirements stated above may be summarized by colleges and curriculums as follows:

- (1) For the General Curriculum, the Curriculum in Journalism, and the Pre-Legal Curriculum, in the College of Liberal Arts and Sciences—

I. List A (prescribed for all curriculums).....	6 units
II. Special prescription for these curriculums—	
Latin, Greek, French, German, or Spanish (both units in the same language).....	2 units
III. Electives from List B	4 units
IV. Electives from either List B or List C.....	3 units

Total..... 15 units

- (2) For the curriculums in Household Administration and for Home Economics Teachers, in the College of Liberal Arts and Sciences—

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for these curriculums—	
Latin, Greek, French, German, or Spanish (both units in the same language).....	2 units
Physics (if not offered for List A).....	1 unit
III. Electives from List B.....	3 units
IV. Electives from either List B or List C.....	3 units

Total..... 15 units

- (3) For the Pre-Medical Curriculum, in the College of Liberal Arts and Sciences—

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for these curriculums—	
Latin, Greek, French, or German (both units in the same language)	2 units
History and Civics	1 unit
III. Electives from List B.....	3 units
IV. Electives from either List B or List C.....	3 units

Total..... 15 units

- (4) For the curriculums in Chemistry and Chemical Engineering, in the College of Liberal Arts and Sciences—

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for these curriculums—	
German or French (both units in the same language)	2 units
Chemistry	1 unit
Advanced Algebra	$\frac{1}{2}$ unit

III. Electives from List B.....	2½ units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

(5) For the College of Commerce and Business Administration—

OPTION (A)

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for this college under this option— Latin, Greek, French, German, or Spanish (both units in the same language).....	2 units
III. Electives from List B.....	4 units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

OPTION (B)

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for this college under this option— Advanced Algebra	½ unit
Solid and Spherical Geometry.....	½ unit
III. Electives from List B.....	5 units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

OPTION (C)

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for this college under this option— Science (in addition to the unit for List A).....	1 unit
III. Electives from List B.....	5 units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

(6) For the College of Engineering—

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for this college— Advanced Algebra	½ unit
Solid and Spherical Geometry.....	½ unit
III. Electives from List B.....	5 units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

(7) For the College of Agriculture, for the Agricultural Curriculums:

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for these curriculums— Science (in addition to the unit for List A).....	1 unit
III. Electives from List B.....	5 units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

(8) For the College of Agriculture, for the Curriculum in Home Economics—

I. List A (prescribed for all curriculums).....	6 units
II. Special prescription for this curriculum—	

Physics (in addition to another unit of laboratory science for List A).....	1 unit
III. Electives from List B.....	5 units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

(9) For the School of Music—

I. List A (prescribed for all curriculums).....	6 units
II. Special prescriptions for this school—	
Latin, Greek, French, German, or Spanish (both units in the same language).....	2 units
Music	2 units
III. Electives from List B.....	3 units
IV. Electives from either List B or List C.....	3 units
Total.....	15 units

Admission on Probation on Principal's Recommendation.

A student who has been graduated from an accredited school, whose High School course includes fifteen units, six of which are made up from List A, but whose High School credits do not completely meet the requirements with respect to the selection of electives from Lists B and C, may be admitted to the University of Illinois **on trial** for one semester **on the special recommendation of his High School principal**; with the proviso that he shall be dropped automatically at end of the first semester if he fails in more than one-third of his work.

Another Fallacy Disproved

By HENRY LOUIS SMITH, Ph. D., LL. D.,

President of Washington and Lee University.

The proverbs or maxims of a people generally represent the wisdom of long experience. They are sign-boards on life's great highway erected by former generations, and most travelers accept their guidance without question. As a false sign on a crowded roadway may lead multitudes astray, so an untrue maxim, especially when circulating among the young and inexperienced, may turn countless lives into dangerous or fatal paths. "Every young man must sow his wild oats," "All's fair in love and war," "Every man has his price," are examples of such lying proverbs.

Our boys and girls, inexperienced travelers on a new road, eager to be in the fashion, untaught as yet by hard experience, are easily misled by current fallacies and false traditions, especially if the falsehood is sugar-coated with a little truth and its acceptance furnishes a ready excuse for laziness or misconduct.

To this doubly dangerous class belongs the oft-repeated and widely-believed statement that the boy who leads his class in school is generally a failure in after life. Here is the lying tradition sweetened with a little truth and flavored with counterfeit logic:

“To attain success in the fierce warfare of modern business demands pluck, self-confidence, red-blooded vitality, and a knowledge of men and things, rather than ‘book-learning’ and abstract scholarship. In fact, the students who make the very highest grades are not so apt to win promotion and success in later life as their wiser comrades who refuse to spend more time in study than is necessary to make reasonably fair grades, and are thereby enabled to participate more vigorously in the social and athletic activities of the playground and campus.”

To the lazy and self-indulgent, to social dudes and tin-horn sports and overgrown children, to all who long to study less and play more, this theory is as fascinating as poisoned candy in a kindergarten. It not only excuses neglect of duty but crowns the loafer as a man of far-seeing wisdom. It is a timely opiate when conscience stirs within, a trusty armor when parents and teachers assail from without.

What wonder that in many student circles it is the most unquestioned part of the college creed and campus opinion looks down with mingled pity and contempt on “studes,” “digs,” “grinds” and “scholarship cranks.”

The truth is that those who outstrip their indolent or brainless competitors in school or college continue to do so when school days are over, and to win high scholarship honors in a first-class college is almost a guarantee of success in life.

To prove this let us take only one of many impartial investigations.

In 1911, Dr. Paul Van Dyke made a careful study of the scholarship records and future history of nearly 9,000 graduates of five typical colleges to see how many of them had attained such prominence as to be placed in the “Who’s Who” list of distinguished Americans, published every other year by Marquis and Company, of Chicago. Other similar studies had shown that of the two million Americans who never attended school, none attained the “Who’s Who” list; of those with a common-school education, it took 9,000 to furnish one distinguished man; of those with high school training, one in 400 reached eminence; of all college students, one in 40; of all college graduates, one in 15.

Dr. Van Dyke’s study of the Harvard records covered thirteen successive senior classes, numbering 2,229 men, of whom only 75 won the very highest scholarship honors. Of these 75, 59 were living in 1911 and, 27 of them were listed in “Who’s Who” of that year, about 1 in 2.

At Yale, twenty senior classes numbered 2,132, with 102 first-honor men, of whom the 80 living in 1911 furnished 31 to the “Who’s Who” list.

Princeton’s Seniors for 20 years, numbering 1,687, furnished 100

honor-men. Of these 76 were living in 1911, with 29 in "Who's Who."

Amherst College in 17 years furnished 1,153 Seniors and 106 honor-men. Of the 80 living in 1911, 25 had reached distinction.

Brown University in 15 years had 778 Seniors, of whom 60 won first-honor. Of these there were 53 living in 1911, and 19 were listed in Who's Who.

Thus among 7,979 men, having all the advantages of modern college training, representing five institutions and eighty-five graduating classes 348 (4%) were differentiated from the rest solely by their very high grades. While this group were still below middle age, and 79 of them too young to have had a fair chance to win distinction, 131 (1 in every $2\frac{2}{3}$) had already won a place on the "Who's Who" list of distinguished men which contains only 1-55 of 1% of the total population. Omitting the 79, one-half of the remainder were already on the "Who's Who" lists in 1911.

To sum it up from another point of view: The man who graduates with high scholastic honors, instead of being unfitted for success by his extra "book-learning," is about seven times as likely to become a distinguished man as the "all-around men" taking their diplomas with him. As compared with the average college student his chances are 20 to 1; compared with the average high school student 200 to 1; and with those having only a common school education 5,000 to 1. In this Age of Mind, as never before, Knowledge is Power, and the man who **knows** is the man who **leads**.

The next time, therefore, the silly falsehood that star students generally fail in business threatens to become epidemic on your campus, kindly inoculate the "easy marks" with the above facts and arrest the spread of the contagion.

Social Organization of the School

The Ottawa Township High School aims to cultivate the social nature of its pupils, and great effort is made to provide the means of social education through the medium of school life. There is no desire to produce "grinds" or hermits, however scholarly they might be. The ability to work and play with our fellow men, without embarrassment and without friction, is surely an important end to strive for. Knowledge of the advantages offered by the school along these lines may be gained from the following paragraphs:

ASSEMBLY.—The entire school meets in assembly at least once each week. The High School Orchestra, under the leadership of Mr. John L. Hoff, usually provides the music at these gatherings. The new auditorium, seated with 1030 opera chairs, and with a fully equipped theatrical stage, will offer boundless possibilities for the

development of the assembly. From the assembly platform all phases of school life are presented, both by teachers and students. Sometimes the hour may be used for a "missionary meeting" preceding an athletic contest, and again a play may be given.

Usually a few professional speakers and entertainers are obtained each year. In 1918-1919, on account of the ravages of influenza throughout the country this was limited to a single concert by Madame Margaret Matzenauer of the New York Metropolitan Opera Company, on April 11th.

In addition to professional entertainments, for several years there has been given near the close of the school year a play or an opera by the students; and annually, an orchestra concert.

A special effort will be made in 1919-1920 to bring to the assembly hour men of note in the world who will bring to our students words of advice and inspiration.

For many years the Juniors have given the Seniors a reception and the Seniors have given the Juniors a reception. These, together with the Junior-Senior party, have come to be looked upon as fixtures.

A Faculty reception to the Seniors and Board of Education has now been given for several years at commencement time. These occasions not only add to the wholesome pleasure of the student's life, but they help in accustoming him to act with ease and dignity at social gatherings.

Athletics

The athletics of the school are under the supervision of the Faculty, advised by the Athletic Board of Control and the coach. Mr. Richard Grady, a former athletic star at De Pauw University, will assume the duties of physical and athletic director in the fall of 1919. Football, baseball and basketball have all been encouraged by the school authorities. A splendid swimming pool adds the possibility of water sports. The spacious King Athletic Field is located at the rear of the new building and comprises some twelve acres of land at the junction of the Fox and Illinois rivers.

Military Training

The Ottawa Township High School was the first High School in the state to make military training a regular subject in its course. This course has now become thoroughly established and has proved its worth.

During the year 1918-'19 the school was fortunate in securing the services of Lieutenant Harry F. Kelly, Second Division, Company L, of the 9th Infantry of the American Expeditionary Forces. Lieutenant Kelly will continue with the school during 1919-'20.

Last year a handsome cup was offered by Mr. Lothrop Follett to the company of the High School Cadets making the best showing in

competitive drill. After close competition by the three companies, the cup for 1918-'19 went to the second company, commanded by Captain Porter Taylor.

All boys of the school are required to take Military Training unless excused on account of physical disability.

The High School in the Great War

The High School was well represented in the Great World War by many of its alumni and undergraduates. No attempt has been made to include here the names of these men and women who gave their services to their country in the army and navy, in the Red Cross and other organizations, much as we have desired to do so, as it would have been a nearly impossible task.

THE ROLL OF HONOR.

The following are the names of those, so far as we have been able to ascertain, who made the extreme sacrifice:

SAMUEL W. RAYMOND

GUY HOXEY

MARSHALL PURRUCKER

EMMETT J. MORAN

FRED GERDING

High School Activities in War Time

During the war the students of the High School made every effort to be of assistance. The first floor of our building was a veritable surgical dressing factory. At the height of this work some 30,000 dressings were being made each month. In addition our cadets gave material assistance in the Liberty Bond campaigns and other public war enterprises. The saddest part they were called upon to take was in acting as military escorts at the funerals of soldiers.

Nearly all public war meetings were held at the High School, and the new building proved its worth to the community many times over.

Secret Societies

It is felt that the school provides so much for the students that there is no need for the existence of secret societies. At a meeting of the Township Board of Education held on November 4, 1915, the following resolution was unanimously adopted:

“Convinced that fraternities and sororities and all other secret organizations among High School students are inconsistent with the democratic principles which should govern in an institution supported by public taxation:

“Now, therefore, Be It Resolved, That after July 1, 1916, no

person shall be allowed to enroll or continue as a student in the Ottawa Township High School who is a member of any fraternity, sorority or other student organization, secret or otherwise, not approved by the Board of Education.''

Any student who does not live up to the spirit, as well as the letter of this resolution, will be asked to withdraw permanently from the school.

AN ACT to Prohibit Fraternities, Sororities and Secret Societies in the Public Schools of the State, and to Provide for the Enforcement of the Same.

Section I. Be It Enacted by the People of the State of Illinois, Represented in the General Assembly: That a public school fraternity, sorority or secret society, as contemplated by this Act, is hereby defined to be any organization, composed wholly or in part of public school pupils, which seeks to perpetuate itself by taking in additional members from the pupils enrolled in such school on the basis of the decision of its membership rather than upon the free choice of any pupil in the school who is qualified by the rules of the school to fill the special aims of the organization.

Sec. 2. That any public school fraternity, sorority or secret society, as defined in Section I of this Act, is hereby declared to be an organization inimical to the public good.

Sec. 3. That it shall be the duty of school directors, boards of education, school inspectors, and other corporate authority managing and controlling any of the public schools of this State, to suspend or expel from the schools under their control any pupil of such school who shall be or remain a member of or shall join or promise to join, or who shall become pledged to become a member of, or who shall solicit any other person to join, promise to join or be pledged to become a member of any such public school fraternity or sorority or secret society.

Sec. 4. It shall be unlawful from and after the passage of this Act for any person not enrolled in any such public school of this State to solicit any pupil enrolled in any such public school of this State to join or to pledge himself or herself to become a member of any such public school fraternity or sorority or secret society or to solicit any such pupil to attend a meeting thereof or any meeting where the joining of any such public school fraternity, sorority or secret society shall be encouraged. Any person violating this section of this Act shall be deemed guilty of a misdemeanor and shall be fined not less than twenty-five dollars (\$25.00) nor more than one hundred dollars (\$100.00) for each and every offense.

Sec. 5. The provisions of this Act shall not apply to fraternities, sororities or secret societies in the University of Illinois or any of

the State normal schools nor to students of these institutions in their relation to such organizations in these institutions.

Approved, June 28, 1919.

Requirements for Graduation from the Ottawa Township High School

Thirty-two credits are required for graduation. Military training is required of all boys three times each week during the entire High School course. Benefits already demonstrated are sufficient explanation of this requirement.

The following specific requirements apply to all candidates for graduation:

English Language and Literature.....	4 years	8 credits
History	1 year	2 credits
Foreign Language	1 year	2 credits
Algebra (To Quadratics)	1 year	2 credits
Plane Geometry	1 year	2 credits
A Laboratory Science	1 year	2 credits
(For Girls) Domestic Science and Household Arts	1 year	2 credits
(For Girls) Physical Culture	1 year	½ credit

* In 1919-'20 Seniors who have not had Advanced Algebra and Solid Geometry will be expected to take these subjects unless excused for what seems a sufficient reason.

Elective Courses

In addition to the above specific requirements enough additional subjects must be elected during the four years to make at least thirty-two credits. They should be selected with some particular sequence and objective in view. Not more than four credits in music will be counted towards graduation. The following table will show the subjects given and credits allowed:

The Curriculum

Subject	Year of Course when subject may be taken	Credits
English	1, 2, 3 and 4.....	8
Latin	1, 2, 3, and 4.....	8
French	2, 3 and 4.....	6
Algebra	1.....	2
Advanced Algebra	3 or 4.....	1
Plane Geometry	2.....	2
Solid Geometry	3 or 4.....	1
Ancient History	1 or 2.....	2
Mediaeval and Modern History	2 or 3.....	2
American History	3 or 4.....	2
Civil Government	3 or 4.....	1
Economics	3 or 4.....	1
English History	1 or 2.....	2
Elementary Science	1.....	2
Botany	2 or 3.....	2
Zoölogy	2 or 3.....	2
Physics	3 or 4.....	2
Physiography	3 or 4.....	1
Chemistry	3 or 4.....	2
Business Arithmetic	1 or 2.....	2
Bookkeeping	2 or 3.....	2
Stenography	3 and 4.....	4
Typewriting	3 and 4.....	3
Teachers' Review	3 or 4.....	2
Principles of Teaching	3 or 4.....	2
Art*	1, 2, 3 or 4.....	
Household Art	1, 2, 3 or 4.....	4
Domestic Science	1, 2, 3 or 4.....	2
Manual Training	1, 2, 3 or 4.....	6
Mechanical Drawing	3 or 4.....	2
History and Appreciation of Music	3 or 4.....	2
First Orchestra (½ credit per year)	1, 2, 3 or 4.....	2
Military Training (½ credit per year)	1, 2, 3 and 4.....	2

* Courses in Art not offered in 1919-'20.

Note:—Due to more exacting standards recently set by collegiate and state authorities, less credit in the future can be given in some departments than has formerly been the case. In the application of new rulings great care will be exercised in seeing that no student suffers injustice.

Suggested Courses

The courses outlined on the following pages, while not strictly required to be followed, are urgently suggested and advised as guides to students desiring to take up the general lines of study indicated by the titles of the courses.

Educational experience has thoroughly established the fact that a miscellaneous and haphazard election of subjects does not give satisfactory results. A diverse lot of vocational studies does not furnish the proper basis for an education. The subjects which are required of all pupils are those which time and experience have proved are best calculated to train the mind, and to lay the foundation for later work.

Suggested College Preparatory Courses

FIRST YEAR

Required.
English.
Algebra.
Latin.
Domestic Science.
Military Training.

Elective.
Manual Training.
Ancient History.
English History.
Elementary Science.

SECOND YEAR

Required.
English.
Geometry.
Cæsar.
Military Training.

Elective.
French.
Mediæval and Modern History
Botany.
Zoölogy.
Domestic Science.

THIRD YEAR

Required.
English.
A Laboratory Science.
Military Training.

Elective.
Cicero.
French.
American History.
Physics.
Physiography.
Teachers' Review Course.
Mechanical Drawing.
Music.

FOURTH YEAR**Required.**

English.
Advanced Algebra.
Solid Geometry.
Civics.
Military Training.

Elective.

Virgil.
French.
Economics.
Chemistry.
Principles of Teaching.

Note.—See list of studies required for High School graduation, shown elsewhere.

Note.—No course can be suggested which will fit the requirements of all colleges. The student should decide upon his future work as soon as possible and work with his particular objective in view. Different degrees in the same university provide different requirements for entrance. Oberlin College requires two years of Latin for entrance. Illinois, Wisconsin and Chicago Universities require foreign language, but do not specify Latin. Dartmouth, Smith and Wellesley each specify **four** years of Latin.

Suggested Commercial Course**FIRST YEAR****Required.**

English.
Algebra.
Commercial Arithmetic.
Domestic Science.

Elective.

Manual Training.
Ancient History.
English History.
Elementary Science.

SECOND YEAR**Required.**

English.
Geometry.
Bookkeeping.

Elective.

Manual Training.
French.
Domestic Science.
Mediæval and Modern History.
Botany.
Zoölogy.

THIRD YEAR**Required.**

English.
Stenography.
Typewriting.

Elective.

Latin.
French.
American History.
Civics.
Physics.
Mechanical Drawing.
Music.

FOURTH YEAR

Required.
English.
Stenography.
Typewriting.

Elective.
Latin.
French.
Advanced Algebra.
Solid Geometry.
Chemistry.

Note.—In every course the specific requirements for graduation from the High School must be kept carefully in mind.

Teachers' Preparatory Course**FIRST YEAR**

Required.
English.
Algebra.
Domestic Science.

Elective.
Latin.
Ancient History.
English History.
Elementary Science
Commercial Arithmetic.
Manual Training.

SECOND YEAR

Required.
English.
Geometry.
Mediæval and Modern History

Elective.
Botany.
Zoölogy.
Household Art and Domestic Science.
History and Appreciation of Music.

THIRD YEAR

Required.
English.
American History.
Physical Geography.
Teachers' Review Class.

Elective.
Physics.
Latin.
French.
Domestic Arts.
Music.

FOURTH YEAR

Required.
English.
A Laboratory Science.
Principles of Teaching.
Civics.

Elective.
Latin.
French.
Economics.
Chemistry.

Note.—Prospective teachers are urged to look up the provisions of the law in regard to certificates.

Note.—Do not forget the specific requirements for graduation from the High School.

Other Courses

It is possible from the great variety of work now given in the Ottawa Township High School, to select other courses adapted to the particular needs of the student making the selection. Students are exhorted to look as far into the future as possible and plan with a future goal in view. In a scientific era such as ours, it is wise to take as much science as possible. Boys having an inclination toward mechanics will find work in the shops to their advantage. The new work in gas engines should appeal to many. No one can plan your career for you—DO IT YOURSELF!

Departments of Instruction

English

First Year. Five recitations a week throughout the year. (2 credits.) Text: "Practical English for High Schools," by Lewis and Hosic. Special attention given to grammar, spelling and composition. Weekly themes, both oral and written. Drill in pronunciation, punctuation and sentence structure. Practice in simple narration, exposition and letter writing.

Select two for outside reading: *Treasure Island*, *The Spy*, *Book of Short Stories by American Authors*, *Ivanhoe*.

Second Year. Five recitations a week throughout the year. (2 credits.) Text: "Practical English for High Schools," by Lewis and Hosic. Grammar, composition and rhetoric. Weekly themes (one written and some oral) in narration, exposition and description. Study of sentence and paragraph structure and choice of words. Book reviews and character sketches based on reading.

Read for discussion in class: *Merchant of Venice* and *Tale of Two Cities*. Read two outside of class: *Silas Marner*, *Ivanhoe*, *Oregon Trail*, some library book approved by the class instructor.

Third Year. Five recitations a week throughout the year. (2 credits.) Texts: "English and American Literature" (Long) and "Standard English Poems" (Pancoast). One written theme each week with some oral work. Reading outside of class of one approved book each month. This course aims to cover in an elementary way the history of the development of English literature.

Fourth Year. Five recitations a week throughout the year. (2 credits.) Text: "Handbook of Composition" (Wooley). Written and oral themes and debates.

Study in class: *Burke on Conciliation with America*, *Washington's Farewell Address*, addresses and state papers of *Woodrow Wilson*, *Hamlet*, *Macbeth*, *She Stoops to Conquer*. Read outside of class: *King Lear*, *Othello*, and two modern dramas.

Latin

First Year. Five recitations each week through the year. (2 credits.) Text: "Latin for Beginners" (D'Ooge). Attention in this class is centered on the somewhat tedious matter of learning forms. Then follows vocabulary, pronunciation, quantity and the more elementary Latin constructions. Much written work is necessary for the sake of drill. Your success and pleasure in later work

in Latin depend entirely upon the way this first course is mastered. It will master you later unless you conquer it now.

Cæsar. Five recitations a week through the year. (2 credits.) Text: “Cæsar’s Commentaries” (Kelsey). Grammar and daily translation. The reading covers four books of the Gallic Wars. This study will aim to secure good English translations and add to the knowledge of Latin syntax, especially making light the dark places of indirect discourse. Sight reading and prose composition.

Cicero. Five recitations each week through the year. (2 credits.) Text: “Cicero’s Orations” (Gunnison and Harley). Reading covers the four orations against Cataline, The Manilian Law, and the oration for Archias. Usually part of Marcellus or Ovid’s *Metamorphoses* will be read at sight. Grammar, and especial attention given to Latin prose.

Virgil’s Aeneid. Five recitations each week through the year. (2 credits.) The Knapp text is used. The reading covers six books of the Aeneid. A study is made of the metrical structure of this classic, together with the history and mythology daily encountered in the text.

There has been a tendency for an increasingly smaller number to elect Virgil, the so-called “practical” studies having crowded it aside. Good Latin students will be repaid for giving the fourth year to this study.

German

For patriotic reasons German has been dropped from the curriculum, at least temporarily. It never should be taught again in American grade schools, but doubtless the day will come when it may seem wise to partially restore it in our High Schools. The study of German was never eliminated from the college and university courses, and was given an exceedingly prominent place in the American Expeditionary Force University courses of instruction in France.

French

First Year. Five recitations a week through the year. (2 credits.) Text: “French Grammar” (Frazer and Squair). Emphasis will be laid upon grammar and pronunciation, and the ability to use the French language in conversation.

Second Year. (2 credits.) Texts to be announced by the instructor. The work of the second year involves a review of grammar with more advanced composition. The language of the class room will be French, with emphasis laid on acquiring vocabulary and idiomatic expressions.

Spanish

First Year. Five recitations each week through the year. (2 credits.) Text: "Spanish Grammar" (DeVitis).

A knowledge of Spanish might be very valuable to some of our young people in the future, and this course will be given if a sufficient number desire it.

History and Civil Government

Ancient History. Five recitations each week through the year. (2 credits.) Text: "Ancient World" (Revised edition) (West).

In this course it is the aim to acquaint the student with the chief features of the political history, social life, and the artistic and literary achievements of the men of the ancient world. Outline maps are used.

English History. Five recitations each week throughout the year. (2 credits.) Text: "English History" (Cheyney).

A review of English history from the earliest times to the present. An intensely interesting course.

Mediæval and Modern History of Europe. Five recitations a week through the year. (2 credits.)

This is the liveliest course in the whole curriculum at the present time. Now, if ever, the study of European history should be alive with interest. Maps will be keenly studied because they are in the making. Newspaper and magazine material will be used.

American History. Five recitations each week through the year. (2 credits.) Text: "American History" (James and Sanford).

A comprehensive and careful study of the history of our own country.

Civics. Five days each week through first semester. (1 credit.) Text: "The Citizen and the Republic" (Woodburn and Moran).

A study of federal and local government with special attention to conditions found in Illinois. This course is very important for those expecting to take the examinations for state teachers' certificates.

Economics. Second semester only. (1 credit.) Text to be announced by class instructor.

A study of the economic conditions and problems of the world at the present time.

The Sciences

General Science. Five recitations each week through the year. (2 credits.) Text: "Elementary Science" (W. E. Howard). (This text may be obtained at the High School office.)

Note.—This course will not count towards graduation as a laboratory course.

This course aims to give the pupil a general introduction to the field of science. It deals with such topics as: What oxygen is and how it acts, hydrogen and nitrogen and their attributes, why coal burns and produces heat, why ice floats, why a gas flame produces water and carbon dioxide, how to read the gas meter, etc. Facts about animals and plants. The later part of the course will be given over to a study of human physiology. Recommended for Freshmen.

Chemistry. Text: “Essentials of Modern Chemistry” (C. E. Dull. (2 credits.)

Chemistry requires at least seven hours a week throughout the year, three hours of classroom work and four hours of laboratory work. After mastering the most common non-metals, a number of the important metals and their compounds are studied. A short time is given at the end of the course to an examination of some of the most familiar compounds of carbon, such as the products of the distillation of wood and petroleum, a few of the hydrocarbons, alcohols, soap making, paper making, sugar manufacture and refining.

An effort is made throughout the course to acquaint the student with chemistry as it applies to daily life, and to show what vital part it plays in commercial processes.

Physics. Text: “Physics with Applications” (Carhart & Chute). (2 credits.)

A comprehensive study of the entire subject; mechanics of solids, liquids and gases, heat, thermodynamics, sound, electricity and magnetism and light. Extends throughout the year, requiring three hours of recitation work and four hours of laboratory work per week. In presenting the course, the aim is to make practical the laws and principles studied, by calling upon the student's experience, both within and without the laboratory. About fifty experiments are performed by the students, and supplementing these are various other experiments given before the class. To be eligible to the Physics classes the student must either have completed or be pursuing Plane Geometry.

Either Physics or Chemistry may be taken in the third or in the fourth year. However, it is suggested that if the student takes both Physics and Chemistry, that Physics should precede the Chemistry. No one will be permitted to take either Chemistry or Physics who has not completed one year of Algebra.

Botany. Three hours of recitation and four hours of laboratory work throughout the year. (2 credits.) Text: “Botany for Schools” (Atkinson).

Laboratory work precedes the recitation work, besides field trips and experiments in plant physiology. Practical work in the department's new conservatory. In the spring, garden seedlings are raised. Life history studies of typical algae and fungi, mosses, ferns, etc. Species determination of as many of the spring plants as time permits, and the preparation of an herbarium of field, garden and roadside "weeds."

Physical Geography. (1 credit.) Text: "Physical Geography" (Salisbury, Barrows and Tower.)

Physical Geography will be given as a one-term course in 1919-'20 with laboratory, field and recitation work. The laboratory will occupy a double period twice a week as in other sciences. Pupils above the Sophomore year may take up this work in either the first or second semester. Especially recommended for those preparing to teach in the public schools.

Physical Geography or Physiography is one of the broadest and most general of the High School sciences. It deals with those facts which may be said to form the basis of all geographical knowledge. Such topics are treated as: The earth's relation to the sun and the other planets of the solar system; the angle of the axis and its effect; correspondence of longitude and time; why the weather changes; how weather changes may be predicted; what causes cyclones; why the earth's surface is rough; how valleys are formed; how soils are formed; why streams are crooked; the age of a river; why great cities are located as they are, etc.

Zoölogy. Seven hours a week through the year. (2 credits.) Text used: "Practical Zoölogy" (Hegner).

First Semester.—A study of the structure, life history and habits of insects and other arthropods, such as crawfish. Structure and habits of mollusks. The earthworm and other worm-like forms. Animal physiology in general.

Two double periods a week spent in the laboratory and three periods a week for recitation are required throughout the semester. Field work is required of each student during the fall as part of the preparation for the laboratory and the recitation.

Second Semester.—A brief study of the starfish and some of its allies and some of the other low forms of animal life. The amoeba, malarial parasite, paramoecium, etc., as types of the one-celled forms. A study of vertebrate animals. The dissection of a fish, a frog, a bird and some small mammal is usually undertaken. Considerable time is given to the study of the birds of the locality during the spring.

Mathematics

Algebra. Five periods each week through the year. (2 credits.)

Text: "First Course in Algebra" (Hawkes, Luby & Touton).

In addition to fundamental operations this course will take up fractions, equations, graphs, linear systems, square root, radicals, quadratics, ratio and proportion.

Advanced Algebra. Five recitations each week for one semester. (1 credit). Text: "Second Course in Algebra" (Hawkes, Luby & Touton).

Review of first year's work, graphs, roots, radicals, exponents, irrational equations, graphs of quadratic equations in two variables, systems solvable by quadratics, logarithms, progressions, imaginaries.

Note.—Required of all students taking the College Preparatory Course.

Plane Geometry. (2 credits.) Five recitations each week through the year. Text: "Plane Geometry" (Ford and Ammerman).

First Semester.—Rectilinear figures: Triangles, parallel lines, angles and triangles, quadrilaterals, polygons, locus of a point. Circles: Chords, arcs, central angles, tangents and secants, measurement of angles, construction problems.

Second Semester.—Proportion, similarity; proportional line segments, similar triangles and polygons, proportional properties of chords, secants and tangents, similar right triangles, trigonometric ratios, areas of polygons, Pythagorean Theorem, regular polygons and circles.

Note.—Required of all students.

Solid Geometry. (1 credit.) Text: "Solid Geometry" (Wells).

The course in Solid Geometry extends through one semester daily, and meets the requirements of all colleges and scientific schools. All general theorems are mastered and the greater part of the problems of construction, etc., are solved.

Note.—Required of all students taking the College Entrance Course.

Teachers' Training Classes

Review Class. (2 credits.) Five hours a week through the year.

This course will endeavor to review the common branches from the standpoint of how they may best be taught to children.

Principles of Teaching. (2 credits.) Five hours a week for one year.

The psychology and method of teaching. A preparatory course for those who expect to become teachers.

Music

I. **The Orchestra** is maintained in order (1) to give its members experience in ensemble playing, and (2) to acquaint the student body with some of the best orchestra music within range of amateurs. The Orchestra gives a program in assembly once a week and also plays for a limited number of public concerts. One-half credit a year is given for work done in the First Orchestra.

II. **The Second Orchestra** is maintained for the less experienced players, the work being within range of those who have had but a short term of lessons and little or no experience in ensemble playing. As quickly as possible, members are promoted from the Second Orchestra to the First Orchestra.

III. **The Band** is conducted by the boys of the school, and this organization aids materially in enlivening the school spirit at the various field events of the year. Rehearsals are held once a week. One-half credit a year is given for work in the Band.

IV. **Music, History and Appreciation**—A study of the history of music from primitive times to the present.

- (1) Principles of music.
- (2) History of music.
- (3) The orchestra; the development of instrumental music.
- (4) The opera and oratorio.

The Orchestra, the Chorus and the Victrola are used to illustrate the lessons of this course. Five hours a week throughout the year. (2 credits.)

V. **The Chorus** meets regularly once each week, and may meet at other times at the direction of Mr. Hoff. Proper credit will be allowed.

Note.—In counting credits for graduation, only four credits in Music will be allowed.

Household Arts

Domestic Science. Four hours of laboratory work and one of recitation through the year. (2 credits.) Text: "Foods and Household Management" (Kinney & Cooley).

An elementary course in cooking and sewing. Recitations, practical demonstrations and assigned problems.

Advanced Courses. Advanced work in dress making, millinery, etc., given to pupils showing special skill along these lines.

Physical Culture

Regular classes will be shown on the fall program sheet for work in the gymnasium and swimming pool. These classes will be conducted by Mr. Grady and proper credit will be allowed.

Hygiene and Home Care of the Sick

These classes were conducted last year by Miss Margaret Ruba, the city nurse, and were attended by Junior and Senior girls. This work will be repeated in 1919-'20 in an enlarged way if it is possible to secure an instructor. Proper credit will be allowed.

Manual Training

These classes meet two hours each day through the year. (2 credits for a year's work.)

The introduction of manual training in the High School for purely educational or cultural purposes was, and is at the present time in some communities, a very progressive thought. Society demands an "education" for "service"—an education that fits a man for a job.

A new demand is now being made on our manual arts department, the consideration of its value as a pre-vocational training. We are endeavoring to meet these requirements to the extent that our limited teaching force and equipment will permit. We are now giving courses in the study of the gas engine and its application to the automobile, machine shop, pattern making and applied carpentry. A student can get the fundamental principles and practices which are today required of a man whether he desires a general knowledge of tools and their application, or the foundation of an engineering profession.

Elect either course and follow it through. The approval of the director must be secured before any changes will be permitted. The work may be elected any year, but as three years' work will be given, it is suggested that the opportune time to begin the work is in the Freshman year and not later than the Sophomore year if the course is to be completed.

COURSE I.

Mechanics I:

Joinery.
Furniture Design.
Mechanical Drawing.

Mechanics II:

Joinery.
Furniture Design.
Lathe (Spindle turning).
Mechanical Drawing.

Mechanics III:

Joinery.
Carpentry (Steel square).
Lathe (Face plate).
Architectural drafting.

Mechanics IV:

Carpentry (practical).
Architectural Drafting.

COURSE II.**Mechanics I:**

Joinery.
Furniture Design.
Mechanical Drawing.

Mechanics II:

Joinery.
Furniture Design.
Lathe (Spindle turning).
Mechanical Drawing.

Mechanics III:

Joinery.
Lathe (Face plate).
Pattern Making.
Machine Drafting.

Mechanics IV.

Pattern Making.
Machine Drafting.

Mechanics V:

Gas Engine Machinery.
Machine Shop Practice.
Architectural Drafting.

Mechanics VI:

Gas Engine Machinery.
Machine Shop Practice.
Architectural Drafting.

Prerequisite: At least one year of general shop work must be taken before gas engine and machine shop are considered.

Commercial Courses

Arithmetic. Five hours each week throughout the year. (2 credits.) Text: "Practical Business Arithmetic" (Moore and Miner, revised by George W. Miner).

Note.—Required in first year of Commercial Course.

Bookkeeping. Ten hours a week throughout the year. (2 credits.) Text: "Principles of Bookkeeping, Elementary Course" (Miner & Elwell).

A thoroughly up-to-date course in accounting. Use of adding and ledger machines will be taught.

Stenography I. (2 credits.) Text: Gregg Principles of Shorthand. Five hours each week through the year.

Stenography II. (2 credits.) Text: Gregg Speed Studies.

A review of the shorthand principles. A thorough course in business correspondence, including banking, insurance, lumber, civil service, paper and printing, boot and shoe manufacture, railway and other lines of business. The dictation of miscellaneous matter for its educational value as well as for drill in shorthand and the enlarging of the student's vocabulary and knowledge of words. A thorough drill in legal forms, specifications, etc. Filing systems and office practice.

Note.—A poor stenographer is much worse than no stenographer at all. Beginning 1919-'20 the passing grade in both Stenography courses will be 85 per cent. with a minimum passing examination grade of 75 per cent.

Typewriting I. One period a day throughout the year. (1 credit.)

The mechanism of one or two standard machines is studied. Practice is obtained in copying business letters, legal forms and miscellaneous matter. The student will also get practice in transcribing from shorthand notes.

Typewriting II. Two hours each day throughout the year. (2 credits.)

Work of the first year is continued with particular attention given to constantly greater proficiency and accuracy and speed.

Text Books

MATHEMATICS

- Standard Arithmetic (Milne).
- First Course in Algebra.
- Second Course in Algebra.
- Plane Geometry (Ford & Ammerman).
- Principles of Bookkeeping—Elementary Course (Miner & Elwell).
- Commercial Arithmetic—Practical Business Arithmetic (Moore & Miner; revised by Geo. W. Miner).
- Solid Geometry (Wells). Used in the second semester.

SCIENCE.

- Physical Geography (Salisbury, Barrows & Tower).
- Physical Geography Laboratory Guide (Everly, Blount & Walton).
- Practical Zoölogy (Hegner).
- Botany for Schools (Atkinson).
- Physics with Applications (Carhart & Chute).
- Elementary Science (W. E. Howard).

HISTORY.

- Ancient World—Revised Edition (West).
- Mediæval and Modern Times—Revised (Robinson).
- English History (Cheyney).
- American History (James and Sanford).
- The Citizen and the Republic (Woodburn & Moran).

ENGLISH.

- Practical English for High Schools (Lewis & Hosie).
- English and American Literature (Long).
- Handbook of Composition (Woolley).
- Standard English Poems (Pancoast).

SPANISH.

- Spanish Grammar (DeVitis).

LATIN.

Latin for Beginners (D'Ooge).
Cæsar's Commentaries (Kelsey).
Cicero (Gunnison & Harley).
Virgil (Knapp).

STENOGRAPHY

Gregg Shorthand.
Gregg Speed Studies.

HOUSEHOLD SCIENCE.

Foods and Household Management (Kinne & Cooley).

PEDAGOGY.

Human Behavior (Colvin & Bagley).
Classroom Management (Bagley).

The Delight Hossack Moore Fund for the Education of Young Men and Women

Mrs. Moore, in her will, placed in the hands of the First Trust Company of Ottawa, Illinois, a considerable sum of money to be used for assisting in the education of worthy young men and women. Chas. E. Hook, Oscar Haeberle and Clarence Griggs were appointed as trustees. The trustees are directed to use the net income from the fund for the education of worthy young men and women, over the age of sixteen years, who are residents of the Town of Ottawa. Students so selected by the trustees may be aided to a business education, a literary education, or a professional education, and a certain portion may be used for assisting young men to qualify themselves for the ministry. The trustees are authorized to pay one-half of the necessary expenses of the students taking advantage of the fund. The trustees have found objection by some to taking advantage of this gift on the ground that the students or their families take the view that the acceptance of the money makes the recipient an object of charity. The trustees have sought to obviate this objection by permitting those who receive the money, if they so desire, to sign an agreement that whenever they are financially able, they may, if they wish, return the money, to be used for the education of some other student.

When once a student is taken into the fund, the trustees agree to carry him through his complete education, provided of course, that the student continues worthy.

In view of the fact that no catalog has been issued since 1916 the class rolls of the classes of 1917, 1918 and 1919 are given on the following pages. An alphabetical list of Alumni has also been prepared. In the future the entire list of Alumni cannot be printed every year. The compiling and publishing of Alumni addresses has also been discontinued on account of the labor and expense involved. The 1916 catalog contains the names of all Alumni with addresses carefully corrected up to June of that year.

Class of 1917

Luceia Elizabeth Acuff.
Edna Lorein Page Barry.
James I. Bjelland.
Cyrus P. Bradish.
Archie Brandow.
Isabell Wix Brown.
Edythe Margaret Burke.
Harriet Charlotte Burster.
Mildred Ebersol Calkins.
Mary Stearns Caton.
Mary Louise Chipon.
Margaret Marie Donovan.
Itka Dvoretzki.
Esther Louise Finley.
Lothrop Frank Follett.
Esther Miriam Frischauf.
Helen Catherine Gamber.
Ruth Marion Gladfelter.
Margaret O. Gondolf.
Elizabeth Gurney.
Elva Pauline Hassley.
Charles Alfred Helffrich.
Carl Hilton.
Sarah Ninette Hinkson.
Mannie Hopp.
Gladys Merion Houston.
Helen Jane Jobst.
Delight Artdus Keenan.
Albert Martin Keim.
Ruth I. Knapp.
Harley Langan.
Jennie Clara Larson.
Mildred J. Leipold.
Esther Emily Long.

Glenn Emery Mathes.
Charles Mathiesen.
John Joseph Meady.
Leo L. Meyers.
Marie W. Miller.
Lucile Marie Moriarty.
Vera Leah Morley.
Rosella Fern Moss.
Helen T. Murphy.
William Francis Murphy.
Mary Lucile O'Connor.
Margaret Anna Olson.
James Lynne O'Neill.
Oscar Ruben Osmundson.
Emily B. Palmer.
Marie Charlotte E. Rahfeldt.
Ruth Muriel Rees.
Paul E. Roberts.
Mathew George Roesler.
Harold Parr Shaver.
Clara B. Smith.
Walter Leslie Snook.
Robert L. Steer.
Gladys Blue Stockley.
Charles Reuel Sutton.
Elizabeth H. Vincent.
Elsie Katherine Walkling.
Louise S. Watnem.
Bertha Leona Whitmore.
Elsie Rae Whitmore.
Mildred A. Wilder.
Elsie Winkler.
Paul Gordon Wood.
Margaret Yentzer.

Class of 1918

Rachel Hall Bradish.
Cora Imelda Bradley.
Howard Bradshaw.
Louise Carmen Buchner.
Cora Marie Burdick.
Maitland Cooper.
Gale Edward Copping.
Harry Hanifen Costello.
Joseph D. Dougherty.
Edward Lawrence Dwyer.
Bessie E. Eaton.
Esther Dorothy Ebert.
Grace Wilson Edwards.
Corda Marie Ellingen.
Elsie Helen Engel.
Dale Esmond.
Albert James Finley.
Sarah Angeline Fowler.
Lydia B. Fraikin.
Chester E. Fruland.
Clair Alvin Gaard.
Edward Clarence Gaul.
August A. Giehler.
Gladys E. Green.
Vernon C. Hadley.
Marguerite Patricia Haley.
Lola Mae Hall.
Lucile Grace Hansen.
Martha Ellen Hayward.
Hubert J. Hilliard.
Elmer P. Hitter.
Helen Elizabeth Hoff.
Paul A. Hollaway.
Orrin Willard Howe.
Floyd Hoxsey.
Robert Jacks.
Kathryn Ann Jobst.
Gertrude Elizabeth Johnson.
Frederick J. King.

Leo N. Cardozo.
Irene Nora Clark.
Ruth Clark.
Winston S. Colwell.
Beatrice Connaway.
Charles Stephen Kleiber.
Rudolph L. Klein.
Howard R. Knapp.
Pearl Louise Lace.
Carl E. Meckenstock.
Helen Ruth Mercer.
Helen Louise Hilligan.
Manley Arthur Morley.
Francis C. Moss.
Joseph Daniel Mulholland.
Ruth Arabelle Mullin.
Ann Louise Nertney.
Emmett Erwin O'Donnell.
Lucile A. O'Kane.
Edna Lucile Ostrander.
Isabelle Violette Peterson.
Laura Ione Pool.
Earl T. Reese.
Dorothy Elizabeth Refior.
Charles Edward Retz.
William LeRoy Rosencrans.
Lelicia Marion Rude.
William Chapple Sanders.
Keneth Sapp.
Paul Richard Schmidt.
Ina Mabel Snow.
Chester C. Tepfer.
Louise Declaude Uhl.
Vera Curtis Vezain.
Erma A. Wilhoyt.
Francis King Wilson.
Grace-Marie Wilson.
William Wood.
Emma C. Zirkel.

Class of 1919

Lysle Abbott.
Walter Anderson.
Lillian Arnesen.
Elizabeth Armstrong.
Glenn Baker.
Charles Bianchi.
Barbara Bogerd.
Earl Brand.
Zeta Clark.
Leo Claus.
Frank Cole.
William Curtis.
Perry Davidson.
Hazel DeBolt.
Inez DeBolt.
Ruth DeZouche.
Joseph Doyle.
Ruth Ebert.
George Fancher.
Edythe L. Gamber.
Doris Gibson.
Everett Gulbransen.
Fred Hanna.
Minnetta Hartshorn.
Lucie Hay.
Stanley Heidenrich.
Curtis Hilton.
Fern B. Hisler.
Marie Jacobs.
Robert Jacobs.
Hila Johnson.
Ruth Keim.
Fay Kelley.
Nellie Kellogg.
Walter Larkin.

Marie Brewer.
Margaret Brewster.
Elizabeth Brown.
Charlotte Burster.
Anna Carlson.
Joseph Carr.
Raymond Cassidy.
Maynard Clark.
Russell Levy.
Margaret Lowe.
Lowell Marshall.
Vera McCombs.
Geraldine Moriarty.
Edward Moulton.
Emma Nagle.
Ellen O'Connor.
Stanley Osman.
Morrill Palmer.
Lelia Parks.
Donald Pool.
Kenneth Porter.
Alice Pusey.
Hazel Rawling.
Leon Richard.
Annette Robinette.
Helen Schneider.
Margaretha Spurgin.
Helen Steinbach.
Jessie Thompson.
Gail Trowbridge.
Victoria Uhl.
Mary VanNatta.
Susan Watnem.
Mabel Woolbert.

The Alumni

- *Abbott, Guy L.—1882.
Abbott, Lyle—1919.
Acuff, Luceia—1917.
Adams, Lela O.—1901.
 (Mrs. Charles Winston)
*Agard, Madge A.—1886
Agard, Nellie F.—1883
 (Mrs. A. B. Carrithers)
Agard, Rosalie—1887
Ahrbecker, Dorothea—1916
Ainsley, Charles—1915
Allison, Ethel—1913
 (Mrs. James Polkinghorn)
Allison, Harriet—1915
 (Mrs. William Scales)
Alschuler, Nate—1894
Alt, Charlotte M.—1892
 (Mrs. Charles Worth)
Alt, Jennie Helen—1903
 (Mrs. F. M. DeLapp)
Alt, Lillian M.—1911
Ames, Alice L.—1881
Ames, Mabelle M.—1896
Anderson, Guyer—1902
Anderson, Margaret—1913
Anderson, Mildren—1911
Anderson, Neida—1916
Anderson, Nelson C.—1909
Anderson, Walter—1919
Andreasen, Johanna M.—1909
Andreasen, Margaret—1916
Andrews, Alfred A.—1908
Andrews, Edwin—1913
Andrews, William—1914
Anschicks, Amelia—1915
Anschicks, Carl E.—1909
Anschicks, Carl E.—1909
Anschicks, Louise—1911
Arentzen, Mary E.—1902
 (Mrs. R. D. McAtee)
*Armour, Annie—1887
Armstrong, Elizabeth—1919
Armstrong, Florence—1911
 (Mrs. Roy Esmond)
Armstrong, George—1909
Armstrong, Hart C.—1886
Armstrong, Lucy May—1901
Armstrong, William—1914
Arnesen, Lillian—1919
Arnold, Arthur G.—1898
Arnold, Howard—1913
Aussem, Arthur D.—1890
Bach, Edward W.—1890
Bach, June—1892
 Mrs. A. J. Roberts)
Bach, Lura J.—1906
Bailey, Hugh M.—1911
Bailey, Tillie—1890
*Baker, Florence S.—1893
Baker, Glenn—1919
Baldwin, Bernard—1912
Baldwin, Ella Louise—1903
Baldwin, Elmer—1913
Baldwin, Jessie E.—1899
 (Mrs. H. M. Turner)
Baldwin, Margaret—1912
Baldwin, Marion L.—1908
Baldwin, Mary—1905
 (Mrs. E. J. Cagney)
Bane, Riva A.—1908
 (Mrs. John L. Hoff)
Bangs, Elizabeth—1876
Bangs, Laura M.—1878
 (Mrs. J. B. Griffith)
Banning, Myrtle D.—1909
 (Mrs. W. M. McGinnis)
Barker, May Belle—1897
Barnard, Gertrude—1887
Barnard, Rita—1915
 (Mrs. George Moulton)
Barnard, Susie H.—1899
 (Mrs. Susie H. Hathaway)
Barnes, Anne O.—1889
 (Mrs. C. H. Warren)

- Barnes, Belle H.—1891
(Mrs. Frank Ball)
*Barnes, DeWitt C.—1885
Barr, Olive—1910
Barrett, Catherine—1914
*Barrett, Eva G.—1910
(Mrs. J. Dillon)
Barrett, Louise D.—1902
(Mrs. Ralph McMullen)
Barrett, Marie—1915
Barrett, Marjorie—1916
Barry, Edna—1917
Barry, Evelyn—1913
Bartlet, Emma L.—1897
*Barton, Harry S.—1886
Bastien, Alice V.—1878
(Mrs. Frank Marshall)
Batcheller, Blanche—1894
*Batcheller, Edgar—1898
Batcheller, May C.—1898
(Mrs. Walter Wilhelm)
*Bathurst, Leonard R.—1891
*Bathurst, Mabel—1895
(Mrs. Albert E. Staup)
Bauchle, Florence—1909
(Mrs. J. Gulliver)
Bauers, Rosa—1896
*Baumgarder, Henry P.—1886
Baxter, Vaughn B.—1909
Bayne, Pearl—1907
Beach, Frank L.—1886
Beach, Julian—1916
Beatty, G. King—1899
Beatty, Laura—1898
Beckwith, Earl L.—1905
Beckwith, Jessie F.—1877
(Mrs. Jessie Robinson)
*Beem, Fannie C.—1880
(Mrs. Charles L. Bradford)
Beem, Fred C.—1893
Beem, Vilda P.—1899
Bellrose, Vernon—1916
Belrose, Lewis—1892
Bennet, Nina B.—1901
Benson, Bessie—1912
Benson, Blanche—1912
(Mrs. Charles Strong)
Benson, Earl E.—1905
Benson, Erma—1914
Benson, Stella L.—1902
(Mrs. B. O. Berge)
Berlet, Meta—1895
(Mrs. F. Benson)
Bernard, Agnes E.—1893
Bianchi, Charles—1919
Bitterly, Millie—1902
(Mrs. James Maher)
